Congratulations to colleagues in the Department of Biomedical Sciences and the School of Public Health on the New York State approval and **updated registration** of UAlbany's amended **MS** program in **Biomedical Sciences** ! Formal approval correspondence is below, with the proposal itself attached to this email for your reference. The approval is reflective of the updated curriculum and authorization to deliver the amended program via distance education in addition to standard format. The faculty are now authorized to promote the program and deliver it thereafter to individuals who gain formal admission as graduate students effective Fall 2024. *Please note*, the department will need to notify the Graduate School of graduate students admitted to the prior program who would like to opt for the updated program requirements. I ask that colleagues receiving this notice, as appropriate to responsibilities, take actions as warranted to update the program listing in the Graduate Bulletin and University administrative systems. Thank you and successful implementation to all involved.

Sincerely,
Colleen E. Davis
Assistant Dean of Academic Affairs
The Graduate School
