## Assn. Annual Dinner To Hear Commissioners And See 'Stunt' Show

ALBANY, March 2 — The principal speakers at the 43rd annual dinner of The Civil Service Employees Association, to be held on Saturday night, March 7, at the Powers Hotel, Rochester, will be Dr. Herman E. Hilleboe, State Health Commissioner, and Dr. Robert Lansdale, State Commissioner of Social Welfare.

The announcement was made by Jesse B. McFarland, president of the Association.

The toastmaster will be John E. Holt-Harris Jr., associate counsel to the Association.

### Stunt Show

One of the outstanding features of the dinner will be a comedy musical and dancing show — the type usually referred to as a "stunt show" — in which fun will be poked at State officials and others. Practically all of the targets will be present.

The show was written by Charles O'Connell and Michael F. (Dyke) Dollard, and is directed by Thomas Sternfeld. The chorus, however, is being trained in Rochester by Clifford G. Asmuth. It's an all-association-talent show.

The general manager is Faustine H. Spencer. Elizabeth Conklin will be the pianist. Mrs. Charles R. Culyer, wife of the field representative of the Association, is in charge of costumes and her husband is director of property, sound and lighting.

Samuel B. Cascino's orchestra will play for dancing.

### Notables to Attend

On the dais with Drs. Lansdale and Hilleboe will be, among oth-

ers, Milton Alpert, Deputy State Comptroller, in charge of the retirement division; President J. Edward Conway, of the State Civil Service Commission, and his fellow-Commissioner, Alexander A. Falk; Emmett V. Norton, Comptroller of the City of Rochester, representing Mayor Samuel B. Dicker; Leo P. Noonan, and officers of the association. Also the following from Monroe county: State Senators George T. Manning and Frank E. Van Lare, and Assemblymen Paul D. Hanks, Paul F. Riley, A. Gould Hatch and J. Eugene Goddard.

The invocation will be said by Rabbi Myron Weingarten, and the benediction by the Rev. Frederick M. Winnie, D.D.

### EDWARD MCCARTHY ON STORES CLERK LIST

The corrected State eligible list for mechanical stores clerk includes the name of Edward McCarthy of Glens Falls, number 14-A on the list, with a rating of 90.

## Showdown Near In Assn. Campaign For State Raise

ALBANY, March 2 — As part of its campaign to get favorable action on its bills for a 10 percent pay increase for State employees, and the freezing of emergency compensation into base pay, the Civil Service Employees Association is prepared, if necessary, to seek discharge of the committees from consideration of the bills.

The primary objective is to induce the committees to report the bills out favorably, and bring them to a vote on the floor of the Senate and the Assembly in that way.

### Assembly Situation

In regard to the Assembly particularly, time presses hard. A

motion to discharge the Ways and Means Committee, which has the bills, would have to be made before the existence of the Assembly committee is wiped out. That usually occurs about two weeks before adjournment. No adjournment date has been set, but one may be for about the middle of March, or soon thereafter. The Association must act fast. Hence this week, it is expected, that if the committee doesn't report out the bills, some Assemblyman, at the Association's request, will move for discharge of the committee. If that motion is carried, the measures go before the Assembly for a vote.

In the Senate the practice of dissolving the committees in advance does not exist, hence a little more time is afforded in regard

to the Finance Committee of that body.

### Question of Timing

The whole action in the Legislature now is a question of timing.

Meanwhile letters and telegrams are continued to be received by members of both houses of the Legislature from members of the Association, urging favorable action on both bills. Particularly, such urging is addressed now to the chairmen of the two committees, Walter J. Mahoney, in the Senate, and William H. MacKenzie, in the Assembly at the Capitol, Albany N. Y.

### Look to Dewey

The Association had hoped that its campaign, which was backed up by radio programs and newspaper advertising, as well as communications to and interviews with legislators, would prevail upon Governor Thomas E. Dewey to relent in his stand against a raise at this time. However, the Governor has shown no sign of doing so. Should he change his mind, the bills could be expected to be reported out favorably and promptly by both committees. If he doesn't change his mind, then the committee discharge technique would have to be followed, and the Association would have to rely on a sufficient number of legislators going along with their requests to get the bills passed. If the bills are passed, the next step would be to induce the Governor to sign them.

## One Percent Pension Bill Is Passed by Assembly

ALBANY, March 2 — The Assembly passed the Civil Service Employees Association bill to pro-

vide a 1 percent pension plan for State employees.

This would be the first time in the history of the State that such a retirement benefit has been offered to its employees. The NYC Employees Retirement system has included such a benefit for a few years, and the NY Teachers Retirement System got an equal break later.

The bill passed by the Assembly was introduced in that house by Leo P. Noonan. In the Senate its introducer was Seymour Halpern.

### How Plan Works

Under the plan, if enacted, an employee would be entitled to a state-paid pension equalling 1 percent for each year of membership, applied to the final average salary, represented by the average of any consecutive five years. Thus for 25 years' service the pension would be 25 percent of final average salary, for shorter or longer service, proportionately less or more.

What the annuity would be would depend on how much the employee's annuity account will purchase which, at optimum normally equals about what the State provides. If equal, then for 25 years' service, half-pay retirement allowance would result, 30 years, 60 percent; 35 years 70 percent, etc. Multiply the number of years' service by 2, for the percentage, and apply the percentage to final average salary, for the 50-50 basis.

### Age 55 Minimum

The minimum retirement age, under the bill is 55 years, therefore the bill is an improvement over the present age-55 plan, which could provide half pay in 30 years on a 50-50 basis, instead of 25, and more or less than half pay on a different ratio.

The bill requires added contributions by the employees.

President Jesse B. McFarland, of the Association, was gratified over the Assembly's passing the bill. The progress thus far is considered quite a feather in the Association's cap, especially as the bill was drafted by the Association.

### Progress of Other Bills

Other bills drafted, sponsored or backed by the Association, on which there has been progress, include:

Two measures to continue the emergency compensation, one to carry forward the 1951 bonus, the other the 1952 bonus. Both measures passed the Assembly and

are in third reading in the Senate, which is the point just preceding vote.

A bill has also been passed under which increment credit earned as a temporary or provisional employee is continued, upon appointment to a permanent position, if to either the same or a similar job. The present law expires April 1. The bill one would continue it for another year. The bill passed is not the one drafted by the Association, but is sponsored by it in cooperation with others. The Association bill, which is expected to be passed also, includes all the provisions of the other but is more comprehensive, and introduces some new and important facts. The Civil Service Department is expected to favor the Association bill, when asked for its opinion.

### Service Men's Borrowing

A measure to continue to July 1, 1954 authority to those retired on accidental disability pensions to earn the difference between retirement allowance and present salary of the position from which they were retired, was reported favorably to the Senate. So were two other bills: one extending to July 1, 1954 permission to Retirement System members who are absent in military service to borrow from their accumulated annuity contributions, and the other permitting additional annuity contributions by all, up to 50 percent more than normal, on the first \$7,500 of salary.

The Senate committee reported favorably on measures to permit non-members of retirement systems to be covered by Social Security.

The bill to reorganize the Civil Service Commission was signed by Governor Thomas E. Dewey.

A bill to broaden unemployment insurance coverage for per diem employees of the State, and those employed for less than one year, except seasonal and part-time employees, is in third reading in the Senate.

### SUGGESTION PROGRAM PAYS CITY A 2,300 P.C. PROFIT

The Seattle (Wash.) Suggestion Award Board reported that 91 suggestions have been received and 22 awards made. The estimated annual savings to the City amount to \$33,885, and \$1,440 was expended for awards. The largest award was \$259 for a suggested portable manhole cover, the use of which would save the City, \$12,240 annually.

to the Finance Committee of that body.

A committee of the Metropolitan Conference of the Civil Service Employees Association called upon Secretary of State Thomas J. Curran, to enlist his aid in the campaign for a 10 percent pay increase. The interview took place in the Secretary of State's suite at 270 Broadway, NYC.

Mr. Curran promised to do all he could to aid the employees.

He was greatly impressed with arguments presented. As added evidence of the need of a raise, two of the delegates gave him their pay stubs, showing how little they had left to take home. Mr. Curran expressed surprise. The interview took place on Friday, February 27, pay day.

### Who Saw Curran

In the delegation were Edith Fruchthendler, of Public Service, secretary of the Conference; John Wallace, of Manhattan State Hospital; William O. Morrissey, of the Parole Division; Henry Shemin, referee, Division of Employment, and Charles R. Culyer, resident field representative of the Association.

Mr. Curran was urged to use all his influence with the State Administration in the employees' behalf. He is an important member of that Administration and Republican leader of New York County.

### Others See Hughes

The next day another delegation of CSEA delegates visited Ford Hughes, County Clerk of Suffolk County, and Republican leader of that county.

The meeting was held in Patchogue.

The delegates were Paul Hammond, president of District 10, Public Works chapter, CSEA; Edward DeGraw, president of Kings Park State Hospital chapter; Thomas Purtell, president of Central Islip State Hospital chapter, and William A. Greenauer, vice chairman of the Conference.

### BOATRIDE PLANNED

Employees of the Public Service Commission chapter, Metropolitan District, announced plans for a boat ride to be held in June.

## Dietitians and Seniors Win Pay Appeal

ALBANY, March 2 — Higher salaries have been recommended for dietitians and senior dietitians in the State service, the State Civil Service Commission announced.

There are 30 dietitian jobs and 16 senior dietitian jobs in institutions of the Depts. of Health, Mental Hygiene, and Social Welfare, and the Division of Veterans Affairs.

Dietitians now are paid \$2,931 to \$3,731. It is recommended that

they be raised to \$3,251 to \$4,052.

The recommended raise for senior dietitians is from \$3,411 to \$4,212 to \$3,731 to \$4,532.

The request for higher salaries was submitted to J. Earl Kelly, Director of Classification and Compensation, by the Department of Health with the support of the Department of Mental Hygiene.

The recommendations have not yet been approved by Budget Director T. Norman Hurd.

# State Report Broaches Social Security Addition to Present Pension Systems

By H. J. BERNARD

ALBANY, March 2 — Legislation has been introduced to authorize the State to enter into agreements with the Federal Security Administration so that public employees of localities, not now coverable under the State Employees Retirement System, could be covered under Social Security. Also, employees not coverable by other public employee systems in the State would be able to get Social Security coverage.

The bill was drafted by the Committee on Social Security and Related Pension Problems, of which State Comptroller J. Raymond McGovern is chairman and H. Elliot Kaplan, former Deputy State Comptroller, is counsel.

### Room For Growth

While the committee, in seeking to have employees covered under the Federal system who are now excluded under other systems, specifically sought to avoid any possibility of double coverage, its bill provides for that possibility in the future. In other words, no further State legislation would be necessary, if the State bill is enacted, to add Social Security benefits to those, for instance, of the State Employees Retirement System, should the Federal law be amended to permit this.

As the Federal law now stands, any public employe eligible for membership in one of the retirement systems of State or local government is ineligible for Social Security coverage, on the basis of the one job, though he could be doubly covered if he had dual jobs, one of them a "covered" job in private industry, or because of prior employment in private industry.

### Present Strict Exclusion

This provision for possibility of general double coverage was the first hint given by any official State body or officer that such double coverage is receiving serious consideration. The double benefit would permit adding the usually greater survivor benefits, as well as the additional insurance benefits, to the advantages obtained through the public employe retirement system.

Although the committee admits that exact statistics are hard to obtain, it estimates that there are 40,000 present employees of State or local government who can not be members of the State Employees Retirement System, or local systems, although they could be covered under Social Security. The main reason why they can't be members of the SERS, for instance, is that their employer has not seen fit to become an employer-member of the system, because of the cost, which may run to one-quarter of payroll. However, about 60,000 others are not members of the SERS through their own choice, and these could not be covered by Social Security, unless the Federal law is amended, because not only are members of such State and local retirement systems excluded, but even employees eligible to such membership.

### Reason They Have Choice

One reason why so many are not covered, who might be, is that the jobs are not in the competitive or noncompetitive class, members of which must join the retirement system to which they're eligible, or, in cities, are not in the labor class.

The committee totals the number of State and local employees in New York as 430,000.

If the committee's bill is enacted, the State would be able to get Social Security coverage for the presently excluded groups. If the Federal law is broadened, all employees could become eligible for Social Security. The existing Federal formula for inclusion of employees not eligible statewide or

locally, requires that present State and local employees must signify their willingness, by pension groups, and by at least a two-thirds vote. Then all in the pension group are compulsorily covered in. If the U. S. law is broadened to admit all State and local employees to Social Security, it is expected that the same two-thirds rule would apply. Hence, if policemen, firemen, and teachers don't want any part of Social Security, even if they could get it, they wouldn't be compelled to accept it, and the whole pension group would stay beyond the pale of Social Security.

### Proposed Exclusion

The committee recommends that certain groups now covered be excluded from present State and local pension systems, such as part-time and seasonal workers, but with protection afforded for past contributions to State or local pension systems. By such exclusion, all the members, under an agreement with the U. S. that the new State law would permit, could be covered by Social Security, from which they are now excluded. They—the 40,000—have no pension coverage at all, unless by private annuity.

The language in that part of the report dealing with the possibility of covering all State employees under Social Security by agreement, should the Federal law be amended to permit it, was extremely guarded. Nevertheless it was possible to read between the lines that the prospect was not treated as taboo.

### The Revealing Passage

The passage read: "The committee was of the opinion that enabling legislation should include the State service proper as well as its political subdivisions, even though there might be no present disposition to cover State employees under Social Security. The committee believes that if the Federal act were amended to provide more comprehensive coverage than presently permitted, the State would be in a position to take advantage of any such amendments without the necessity of further legislation."

The Civil Service, Employees Association has a committee that has made a special study of Social Security coverage for State employees—assuming enlargement of the Federal act—and, as a result of the committee's recommendation, adopted a resolution favoring such integration, if and when it becomes possible.

### McFarland on Committee

Jesse B. McFarland, president of the Association, is a member of the Comptroller's committee. Other members are Senator MacNeil Mitchell, Assemblyman Elisha T. Barrett, City Manager Robert P. Aex of Newburgh, Wallis B. Duncel, vice president, Bankers Trust Company, NYC; Arvie Eldred of Troy; Thomas C. Fetherston of Baldp; Mrs. May Andres Healy, executive secretary, NYC Teachers Retirement System; Reinhard

## Employees' Appeals On Exam Are Denied

ALBANY, March 2 — The State Civil Service Commission denied appeals of 13 employees of the State Division of Employment in connection with recent promotion exams.

Appealing on the exam for unemployment insurance manager were Maurice Eichenholz, Philip Hershey, Walter M. Seltzer, Herbert M. Rosen, Phillip Rubinstein and Sam Kronenberg.

Turned down on their appeals in connection with an exam for senior unemployment insurance claims examiner were David Hurwitz, William Mulroy, Richard Basile, Isidore Rogers and Justin V. Stevens.

Appeals from Grace Nulty and Jeremiah J. Mulhall on the test for Senior unemployment interviewer also were denied.

### STOREKEEPER EXAM OPEN UNTIL MARCH 10

The U. S. Civil Service Commission has extended the filing period for jobs as storekeeper (general), \$2,500 to \$2,950 a year, to Tuesday, March 10. The previous closing date was March 3. No experience is needed for the \$2,500 job, one year's experience for the \$2,950 job. The exam is No. 353.

A. Hohaus of NYC; Budget Director T. Norman Hurd, Peter Keresman, secretary, New York State Police Conference; Lewis F. Lang, 1st Deputy Comptroller of NYC; Allen D. Marshall, of Schenectady; W. H. Montgomery of NYC; Anthony Sansone of Mamaroneck; Morgan Strong of Albany and Edward F. N. Utke, executive secretary, Association of Towns.

### Federal Employee Goals

Not only State and local employees, but also many Federal employees would like to have Social Security coordinated with their present civil service retirement system. The same terms of exclusion from Social Security apply to Federal employees as to the others: if one is eligible to membership in the civil service retirement system, he is ineligible to Social Security coverage, for the same job.

There are, however, a million Federal employees now covered by Social Security, because only permanent Federal ones are eligible to membership in the U. S. Civil Service Retirement System. The indefinites, temporaries and others without permanent status thus automatically become subject to Social Security. The Whitten Amendment, which at first prohibited filling of permanent jobs, and later, by modification, allowed filling status vacancies up to the September 30, 1951 level, naturally prevented many from becoming members of the civil service retirement system, and Social Security coverage applied automatically.

### Combination Is Goal

Federal employee groups, on behalf of permanent employees, are anxious to have Social Security coverage added. There has been no aim by any Federal official to discard a civil service retirement system, in favor of Social Security coverage. The idea is to combine the benefits. If a million Federal employees can be covered under Social Security, these employee groups feel that it should be possible to make the coverage general for all Federal workers. Then protection is afforded if one switches either from Federal employ or private employ, whereas now an appointee may lose one possible benefit because he has to substitute the other.

### Family Needs Considered

There is no point in contrasting the benefits of the civil service retirement systems and the Social Security to decide which is better, since the plan is one of combination, and not of substitution.

Social Security is tipped in favor of the lower-paid, and honors short service periods, while, in general, civil service retirement systems require length of service, and are based on salary. The \$3,600 salary cutoff for Social Security means that any salary above that produces no additional benefit under that system. But comparatively the insurance and certainly the survivor benefits are superior under Social Security, which gives heed to family needs that civil service systems may ignore. There is no five-year minimum service requirement under Social Security for benefits. Also, Social Security provides what might even be called excessive benefits if one dies young or starts being covered when he is approaching retirement age.

# Readers Tell Why Raise Is Necessary

## MORE MILITANCY SEEN IF RAISE IS DENIED

Editor, The LEADER:  
Will the refusal of the State Administration to grant a 10 per cent salary adjustment be the last straw for State employees?  
Numerous State employees are living at levels far below the present American average. Other employees find it necessary to seek part-time employment elsewhere, or both husband and wife to work. Such conditions should not exist. They do exist because of the outstanding loyalty of the civil servant who stays at his low-salaried job.

Employees Association's conference method, then by the introduction of a legislative bill. The conference method failed and there is no money provided in the budget for the 10 percent.

Is this the last straw? Will the State employees now become a militant group such as we have never seen before?

LAURA S. STOUT,  
President, Middletown State Hospital Chapter, CSEA.

## HOSPITAL EMPLOYEES LINK RAISE WITH SERVICE

Editor, The LEADER:  
State employees are embittered over remarks of Assemblyman Robert W. Pomeroy (R., Dutchess County), that the 10 percent salary increase can't be granted to State employees, nor emergency compensation frozen into base pay without endangering State finances. Assemblyman Pomeroy said he studied the employees' requests carefully, had compared their salaries with those of similar jobs in private industry, and did not find State jobs sufficiently out of line to justify working against efforts of the Dewey Administration to hold down expenses and taxes.

Mrs. Nellie Davis, president of Hudson River State Hospital chapter, Civil Service Employees Association, in reply cited a hospital attendant's salary, now in the \$2,500 to \$3,200 bracket, including a \$300 bonus. This, she said, is total for a 40-hour week, plus eight hours a week of overtime. And, she said, this salary, low as it is, can be reduced any year if the State decides to cancel the bonus.

I wonder if Assemblyman Pomeroy has given the many escapes from the Wassaic State School any thought? He lives in that vicinity, and it is common knowledge that the people in that section are afraid to go to bed at night for fear that their property may be destroyed by one of these patients. These escapes are due to insufficient number of help. Do you suppose the Assemblyman could attribute the shortage of personnel to the low pay given an attendant? This shortage of help is also evident at Hudson River State Hospital, Poughkeepsie.

Another Dutchess County legislator, Senator Ernest I. Hatfield (R.), pledged support of State legislation for a pay increase for employees. He saw the problem in its true light.

# Pyrrhic Victory Won By Two Candidates

ALBANY, March 2 — Three men recently won appeals for increased seniority credit on a State promotion exam, but only one of them was placed higher on the list.

The exam was No. 5149, assistant compensation claims examiner.

When the result was announced, eligibles 4, 5, and 6, respectively, were Seymour B. Givener, William J. Slater and Irving Streit, all employees of the State Insurance Fund.

### Clerical Error

All three said they had not been given credit for some three years' seniority apiece to which they were entitled. The State Civil Service Commission decided a clerical error had been made and raised the grades of each of the candidates by three-tenths of a point.

Mr. Givener, in fourth place originally with a score of 90.92, moved to position 2-a (actually third on the list), with a new score of 91.22. He thus benefitted

by advancing over one candidate.

The result was different, however, for Messrs. Slater and Streit. Mr. Slater, with 90.54, had been in fifth place. His new mark of 90.84 moved him up to position 4-a, (which was still fifth place since No. 4 had been vacated.) Mr. Streit, with 90.35, in sixth place, was rescored 90.65 and placed in 4-b. It was still actually sixth place on the eligible list.

### 5 MORE RACING INSPECTORS TO BE HIRED FAST

ALBANY, March 2 — The State Racing Commission may soon get five additional permanent jobs. It received permission from the Civil Service Commission to hire five racing inspectors at \$13.57 a day. Ordinarily these men would not start work until April 1, but since the Racing Commission has taken on duties formerly performed by the Jockey Club, need for immediate employment exists.

The Racing Commission is expected to request permanent jobs.

### 4 TITLES DELETED

ALBANY, March 2 — Four titles have been deleted from the State exempt and non-competitive classes because they are either obsolete or not in existence in a particular department. They are: Grounds Foreman, Public Works; Corporation tax information assistant, Tax and Finance; Administrative Assistant, Labor Relations Board; Administrative secretary, Anti-Discrimination Commission.

# Five Reasons For Raise Sent To Dewey

SYRACUSE, March 2 — John L. Crowley, chairman of the legislative committee, Syracuse chapter, Civil Service Employees Association, has sent a letter to Governor Thomas E. Dewey, giving five reasons why State employees should get a raise and have their emergency compensation frozen into base pay.

Mr. Crowley asked the Governor to back the two bills introduced on behalf of the Association to accomplish these ends.

### The Five Reasons

"Very great hope is entertained," Mr. Crowley wrote, "that Your Honor will without doubt give your approval and exert the powers of your office" toward obtaining enactment.

"The approval of these bills," Mr. Crowley continued, "will achieve many advantages not only for the State employee, but the State itself and its respective communities, namely:

1. The State employee will be able to maintain the same standard of living available to all — but now enjoyed only by other adequately paid citizens.
2. The State employee will be happier and healthier, therefore more efficient in the performance of his duties, and in turn the members of his family will be enabled to develop into useful citizens.
3. Retention of the most competent State employees will be achieved, eliminating the necessity for huge recruitment drives such as are now being conducted because of the many vacancies occurring due to resignations, and because of the difficulty in filling vacancies due to low salary scales.
4. Other able and competent citizens will be more favorably impressed with the so-called career service and hence more willing to join the ranks of State employees, encouraged by the fair and equitable treatment rendered to its employees.
5. The respective communities will thrive to a much greater extent because the State employee, adequately paid, will be able to purchase those conveniences and inventions in home appliances created to raise the standard of living of all citizens, but afforded only by those whose salaries are commensurate with the times.

"The State has much to gain by the approval of these bills, and we humbly appeal to you to make a thorough review of the situation. Our conviction is that you will agree in all respects by evidencing your hearty approval of both bills."

# March 11 Last Day to Apply For Nassau Police Jobs

A new Nassau County exam for patrolman will be held on Saturday, April 11. Applicants need have resided only one year in the county instead of two years.

A new salary schedule starts all second grade patrolmen at \$3,800 for a probationary period of six months, then raises them to \$3,950. In the second year, they will receive \$4,100, third year, \$4,300, and fourth year, \$4,500. A first grade patrolman starts at \$4,700.

Retirement benefits include half pay after 25 years.

The county furnishes all uniforms.

5 Feet 8 Inches Minimum

The County Police Department

is 170 men short," stated Howard G. Wilson, chairman of the Civil Service Commission, "and more than 50 patrolmen are needed by the various villages. We hope the forthcoming exam will attract men from 21 to 29, inclusive."

Applicants must be at least 5 feet 8 inches high. There are special forms for veteran preference claimants.

Conviction of a felony will bar and conviction of a misdemeanor or other violation of the law may bar an applicant.

Apply by mail until March 11 and include a self-addressed envelope bearing six cents postage, or visit the Commission's office opposite the old court house in Mineola.

# Dewey Wants 300 More State Police

ROCHESTER, March 2 — Governor Thomas E. Dewey has requested that 300 members be added to the State Police to increase its strength from 900 to 1,200. He said, "At its present strength, the State Police simply cannot do its criminal work and cover 13,000 miles of the State highways." The new officers will "spend their time enforcing traffic laws and eliminating reckless drivers."

The Governor made the announcement in Rochester at a dinner honoring Mrs. Charles W. Wels, Jr., Republican national committeewoman from New York and former vice-chairman of the Monroe County Republican Committee.

The State Senate passed a bill for the 300 increase and sent it to the Assembly.

# We're HUMAN Too!

That's why WE, your New York State Employees, request a reasonable 10% salary increase!

For a doctor, I work on the great state education program. Doctors in industry get basic salaries 24% greater than state doctors. The 10% salary increase is clearly warranted to me because of the tremendous increase in my operating charges.

For a scientist, my job is to keep a constant check on the purity of the food you eat. In industry, a scientist's starting salary is 26% higher than mine, and I feel it almost impossible to get along without the increase we've requested.

For a mechanic, I keep state trucks and cars in good repair so they'll last longer. Mechanic in private firm are making 17% more than I do, and before you know it, I need that 10% increase.

For an engineer, I work on the great new discovery in industry an engineer doing similar work would be paid 18% more. The 10% salary increase we ask for would help me make ends meet.

These are typical state workers, people on whom YOU DEPEND for important state services! They are loyal to their jobs and their creed of honest, efficient government! They ask only that YOU give due consideration to their plight and to their urgent appeal that a 10% salary increase be granted them by the Legislature now in session.

Under present conditions the New York State civil servant cannot maintain prewar standards of living. THIS CHART SHOWS WHY.

Do YOUR part to help GOOD government in New York State. Write or wire your senator, assemblyman, and HON. THOMAS E. DEWEY, Governor, NOW. Tell them that you are in FAVOR of this reasonable request.

# Bill Is Enacted Reorganizing Civil Service

ALBANY, March 2 — The bill to reorganize the State Civil Service Commission was signed into law last week by Governor Thomas E. Dewey. He called it one of the most significant advances in State personnel policies in the last 25 years. In a memorandum he cited the support the bill received, which was practically unanimous, and specifically mentioned the Civil Service Employees Association.

The new law separates the administrative and policy-making functions of the State Civil Service Commission. The Commission President is made solely responsible for administration. A three-member bipartisan commission retains all the policy-making, appellate and quasi-judicial duties.

**Assn. One of Sponsors**  
Governor Dewey stated that complete protection is afforded the merit system through the continuance of the three-member bipartisan commission with appropriate powers in matters involving rule making, appellate review and the supervision of the municipal Civil Service.

"The legislation was sponsored," he said, "by the Temporary Commission on the Coordination of State Activities and is the product of the joint efforts of the commission, the Department of Civil Service and the Civil Service Employees Association."

"At last we should be able to develop a personnel system which will give to the State the kind of service it needs and is entitled to have. I am certain this measure will result in basic benefits to the State and the thousands of able public employes who have a vital interest in the development of a career system."

**Modern Methods**  
"It will provide a governmental framework through which the most modern personnel methods can be utilized for the improvement of the civil service. The measure is a major advance and on behalf of the people of this state I am happy to commend the persons and organizations whose efforts and cooperation have played a part in its adoption."

Formerly the Commission had to pass on such matters as the granting of leaves of absence to commission employes, the employment or discharge of employes, the fixing of dates for examinations and the transfers of employes from one office to another. Now the President will be able to do that alone.

The entire Commission will pass on complaints dealing with exams and promotions, qualifications for

jobs, and appeals from the decisions of local Commissions.

Senator Walter J. Mahoney of Buffalo and Assemblyman Joseph W. Ward of Caledonia, both Republicans, sponsored the measure and attended the signing.

**Jobs in Doubt**  
Civil service will be under a single administrative head beginning July 1.

Speculation continued as to who would be named to head the organization and who would be appointed to the three-member commission.

Another question is what will become of the present administrative officers, namely William J. Murray, and Garson Zausmer. Mr. Murray succeeded to the top administrative post on the resignation last summer of Charles Campbell. Mr. Zausmer then moved into the assistant's spot vacated by Mr. Murray.

Scene shows signing of the bill reorganizing the State Civil Service Commission. From left, Kent Brown, assistant counsel to Governor Thomas E. Dewey; Senator Walter J. Mahoney, Buffalo, sponsor of bill; John T. DeGraff, counsel to the Civil Service Employees Association; Assemblyman Joseph W. Ward, Caledonia; James Watson, executive director, Civil Service Reform Association; William J. Ronan, research director of the Coordination Commission; Arthur H. Schwartz, counsel, Coordination Commission; John E. Holt-Harris, Jr., associate counsel to the Association; J. Edward Conway, President, State Civil Service Commission.

## Korean Vet Benefits Are Explained by State

ALBANY, March 2—Korean veterans have the same rights and privileges as World War I and World War II veterans. Because of the increased number of Korean veterans, the State Civil Service Department is receiving many inquiries on this subject. It has therefore issued an explanation of the benefits, as follows:

### Veterans Credits in Examinations

Veterans of the Korean conflict receive the same veterans credits on a New York State, municipal or county civil service examination as the veterans of World War II and other wars. A veteran who served on active duty with the Armed Forces of the United States subsequent to June 25, 1950, is entitled to receive five additional credits added to his final earned passing score in an open-competitive examination and two and one-half additional credits in a promotion examination. Disabled veterans are entitled to receive ten additional credits added to their final earned passing score in an open-competitive examination and five additional credits in a promotion examination. In addition to active duty service after June 25, 1950, with the Armed Forces of the United States, a veteran must show that he was a legal resident of the State of New York at the time of his entry into the Armed Forces and also at the time of application for additional credits. He must show,

further, that he was honorably discharged from the Armed Forces or released under honorable conditions.

### Reinstatement in Civil Service

If a veteran left a State position to engage in military duty, he was granted a military leave of absence and, upon his discharge and application, he must be reinstated to his position. Section 246 of the New York State Military Law covers this particular matter. Section 246 affords many other benefits and protections to all veteran employees of the State of New York who were engaged in military duty. Military duty is defined by this Law to cover the following services:

Military service in the military, naval, aviation or marine service of the United States from July 1, 1940, on.

Service with the American Red Cross while with the Armed Forces of the United States on foreign service from April 7, 1943, on.

Service with the Special Services section of the Armed Forces of the United States on foreign service from April 12, 1952, on.

Service as an officer or member of the crew of a United States vessel, or as an enrollee in the United States Maritime Service on active duty or in training for or awaiting assignment to such service, from April 28, 1941, on.

**NOTE: "Military duty does not include any of the foregoing services entered upon voluntarily on or after January 1, 1947 and before June 25, 1950."**

Application for reinstatement must be made within a period of 90 days from the termination of military duty but may be made at any time during terminal leave. The date of termination of military duty is the date of honorable discharge or release to inactive duty under honorable conditions. In case a veteran suffers a temporary disability which arose out of and in the course of his military duty, then the date of the termination of such temporary disability is the date of the termination of military duty.

### Benefits in Reinstatement

**Salary and Service Rating** — Upon reinstatement a veteran is entitled to receive the salary that he would have received had he remained in his position continuously during the period of military duty and for this period of time he is deemed to have rendered satisfactory and efficient service in his position. His service record rating or efficiency rating is based on the average rating received for the three rating periods immediately prior to his absence on military duty and such rating cannot be less than the rating which he received for the period immediately prior to his absence on military duty.

### Comparable Promotion Examinations

If a promotion examination was held while a veteran was on military duty and he would have been eligible to take such an examination if he had not entered into military duty, then he is entitled to

a comparable examination, provided he makes request therefor within 60 days after his reinstatement. If he passes the comparable examination, his name shall be placed upon a special eligible list provided that his name would have been reached for certification between the date when he entered upon such military duty and the date that he was officially notified that he had passed such examination. Such special eligible list shall remain in existence for a period of two years from the date that the name of such veteran is placed thereon and such special eligible list shall be certified before certification shall be made from any subsequent eligible list whether open-competition, promotion or preferred, which has been established for the same position, or from the original eligible list for such position.

If a veteran passes the comparable examination and it is found that his name would not have been reached for certification had he appeared on the eligible list, then his name will be placed upon the original promotion list, in the event that it is still in existence.

If a veteran receives an appointment from the special eligible list as a result of a comparable promotion and an eligible below his name had been appointed earlier than he, the veteran is entitled to seniority credit and training and experience credit (but not for salary increments) as of the date any eligible who was lower on the regular promotion eligible list was appointed.

### Preferred Lists

If a veteran's position was abolished while he was in military ser-

## Gibney Hired for Educational Survey

ALBANY, March 2 — The former research director for the State's Temporary Commission on Coordination of State Activities—the Mahoney Commission — has been hired as a special consultant to the State University of New York.

Carroll N. Gibney will be retained at \$600 a month through July 16, to study the needs of New York State for graduate education in the social sciences.

His name is placed upon a preferred list and that list must be used before any other eligible list can be certified for a vacancy in the same position. Any position in the competitive class may be abolished if the work is unnecessary or if funds for the position run out. If the position was in the non-competitive class, then the veteran's name will be placed on a military reemployment list which must be made available to appointing officers and must be canvassed before any appointments are made.

### Status on Existing Lists

A veteran whose name appeared on any eligible list before he entered military service should write to the New York State Department of Civil Service, Albany, N. Y., immediately upon his discharge from the Armed Forces and express his availability for appointment. If the eligible list is still in existence, he will continue to hold his proper place thereon. If the eligible list has less than two years to run or is no longer in existence, and if he was reached for certification while in military service and did not receive an appointment, he should request that his name be placed on a special eligible list. A special eligible list remains in existence for a period of two years from the date of termination of

**Joe Byrnes Honored by NYC Chapter**

It was Joe Byrnes night at the monthly meeting of the NYC chapter of the Civil Service Employees Association last Thursday at Willy's restaurant. Joe has been treasurer of the chapter since 1941, and it has been in excellent financial condition all the while.  
 To honor Mr. Byrnes—who is officially Joseph J. Byrnes of the State Department of Public Works—Jesse B. McFarland, president of the Association, came down from Albany, and Thomas Conkling, chairman of the Metropolitan Conference, came from Willowbrook.  
 Joe was flanked by his two sons, Joe, Jr., and Jim, and his daughter Florence. The Byrnes family, with an assist from Henry Shemin, treated the audience to a song fest.  
**McFarland Makes Presentation**  
 Mr. McFarland presented the guest of honor with a U. S. bond, the gift of the chapter, and paid highest respects to him for the devoted service that he has rendered to the chapter and the Association. Mr. McFarland traced the recipient's State career since its inception in 1934, and said that the honor guest's activities were largely responsible for the splendid and continuous growth of the chapter's membership.  
 Al Corum, vice president of the chapter, reported on the special meeting of Association delegates, held in Albany to back up the pay increase campaign. Sol Bendet, chapter president, explained that the salary increase bill, and the measure to freeze emergency compensation into base pay, are not dead, but are in committees, and the job ahead is to see that the committees report them out favorably.

Mr. Bendet was congratulated on the recent marriage of his daughter, Barbara Elaine Bendet, to Erwin Martin Ballott. Both Mr. Bendet and his son-in-law work in the Insurance Department, but Mr. Bendet didn't find it out until not long before the marriage. His daughter worked in the audit section a brief while last summer, when she met her future husband.  
 The following committee was appointed to recommend a slate of officers: Samuel Emmet, Ed Azirigian, Benjamin Chase, Mr. Shemin, Frank Conlon, Max Louise and Frank Newman.

**THE ORLEANS** County chapter, CSEA, met at the Court House in Albion on Monday, February 16, with 30 members in attendance. President William Howe presided. and Mr. and Mrs. Robert Allen also attended this meeting.

The nominating committee to name a slate of officers for 1953-54 consists of: Glenn Page, chairman; Mrs. Catherine Nelson, Francis McCabe, George Day and Raymond Peters. The committee will report at the March meeting.

Chapter meetings will be held the third Monday of each month instead of the first Monday to enable more members to attend.

A board of directors meeting preceded the chapter meeting. Appointments were made to the membership and grievance committees to fill vacancies created by resignations and job changes.

Helen R. Brinsmaid of Lyndonville, case worker in the child welfare service for four years, is now case supervisor. Mr. Ruth Wilkinson, who held this post for several years, resigned on January 1.

Mrs. Carolyn Nixon transferred from the public assistance staff to child welfare service, effective February 15. She remains active in the chapter.

Alice Burkweit, county health nurse in the Lyndonville area for several years, resigned on February 1. After a vacation she will enter the University of Rochester for studies in public health.

## U. S. Executives Strive For United Lobbying

The word "lobbyist" has long had an invidious sound for many persons, lobbyists often perform laudable work for thoroughly worthy causes.

A lobbyist seeks to achieve goals through legislation. Interviewing legislators, and appearing before legislative committees are a necessary part of his work.

The Federal Club, which consists of career executives in all branches of the U. S. Government, is now trying to unify the legislative committees of Federal employee organizations, to lobby for laws relating to good management practices and better personnel administration.

One of the main objectives would be to make a united stand against riders to appropriation bills. One rider — the Whitten Amendment, which limits permanent hiring — has been more injurious to the public welfare than many lobbyists we can call to mind.

The activities of these U. S. career employees are an example of lobbying in the interests of good government operation, which is the interest of all the people — an interest which civil servants follow far more passionately than the people realize.

## If Candidates Fall Off, Duty Is to Find Out Why

Civil Service Commissions, getting fewer applicants should find out why. The Pennsylvania Civil Service Commission recently did so. Applications from persons with no college training dropped 65 percent, from college students 42 percent. In the college group, of those who got on eligible lists, 11 percent fewer were males, while 7 percent more females than formerly made the grade. Largest effect of the overall drop was ascribed to high employment and pay in private industry.

The survey also may indicate either that more college women are competing for public jobs in Pennsylvania, or that, as The LEADER has long suspected, the women have become smarter than the men.

## The Federal Employee

THE HOUSE has authorized its Post Office and Civil Service Committee to look into civil service matters in the post office. This would require a large amount of looking. Postal employee groups are glad to see that something at least looks promising in that direction. They want merit, instead of patronage and friendship, promotions in the department, would like to have grievance boards established so that a fellow with a real gripe has some place to which to take it directly, and would want temporary jobs made permanent, at what they say would be a considerable saving.

AUTHORIZATION of about a million dollars is being considered favorably by Congress, for investigation of United Nations personnel by the U. S. Civil Service Commission. The State Department would be authorized to provide the money by transfer. The Commission has begun investigating some of the 1,875 UN employ-

ees recruited in this country. For whatever work the FBI does in this connection, it will bill the Commission.

THE FEDERAL EMPLOYEE is subject to some of the most severe strains and tensions our society knows, said George F. Kennan, former U. S. Ambassador to Russia, addressing the Princeton '25 alumni at Princeton University. He said loyalty investigations have been so severe as to jeopardize the position of the professional civil servant.

THE NATIONAL Association of Internal Revenue Employees has endorsed the bill of Mrs. Katharine St. George, Representative, New York, for an average pay increase of at least \$400.

SIX NEW Veterans Administration hospitals will be opened before June 30. The House voted funds for hiring 3,500 persons to staff them, mostly doctors, dentists, nurses and attendants.

All 25 who took the training course in "Fundamentals of Supervision" at Hudson River State Hospital, Poughkeepsie, completed it successfully, and received certificates.

## Question, Please

ISN'T a public employee's conduct, away from the office, his own business, or may the head of the department inquire into it, even in dismissal proceedings? L.E.

Answer—Several court cases affirm the authority of the head of a department to require good conduct at all times, not only while on the job, but at any place and time.

I NOTICE that court cases have upheld the power of NYC to compel waivers from employees, so that the additional pay as bonus will not be counted as salary increase for promotion purposes. I thought that a section of the Civil Service Law prohibits waiver of rights. L.J.C.

Answer—The courts have upheld the authority of the City to require waivers, on the ground that to get the bonus the employees had to sign the waiver, therefore the employees got something for what they gave up. The employees were told they wouldn't get the bonus unless they signed, and therefore the signing was held to be voluntary and legal. Without such waiver, an employee might cite the section of the Civil Service Law which specifies that an increase in salary beyond the maximum of the grade constitutes a promotion. Some bonuses, added to base pay, bring total pay beyond the maximum of the grade. Section 8-a of the Civil Service Law, which you evidently have in mind, makes it illegal for an administrator or employee acting for a public officer to require a candidate for employment to waive any right accruing under the Civil Service Law, hence is inapplicable to bonus waivers.

WHAT IS the status of the NYC auto-enginemens attempt to get a raise, through having themselves included under the Labor Law, which would entitle them to the rate of pay prevailing in local private industry? C.C.E.

Answer—The Court of Appeals denied the petition of the auto-enginemens for such inclusion, but the employees are trying to get teh NYC Civil Service Commission to clarify the job description so that another court case might be brought with better prospect of success. Lack of such definition was one of the reasons the Court of Appeals denied the petition.

## Chemist Honored

E. F. Kenney, chief chemist, U. S. Customs Laboratory, announced that Isidore Schnopper, chief of the laboratory's Methods Division, has received the superior accomplishment award granted to Federal employees. The award, recommended by Commissioner of Customs Frank Dow, was authorized by the Treasury Department. It consists of an additional step increase of \$200 within the grade.

Mr. Schnopper devised a means of identifying obliterated numbers on bars of gold seized from persons attempting to smuggle bars into or out of the U. S.

## JUDGE SUGARMAN TO SPEAK

Judge Sidney Sugarman of the United States District Court will be the speaker at a Purim party of the Briyth Society of the NYC Department of Health, Isidore L. Goldstein, president of the society, announced. The party will be held Tuesday evening, March 3 at 5:30 P.M., at 125 Worth Street.

## Fire Group Presses Labor Relations Bill; Other Gains Sought

ALBANY, March 2 — William N. Cross of Utica, president of the New York State Fire Fighters Association, AFL, in letters to members of the Senate Civil Service Committee and the Assembly Labor and Industry Committee, urged that the Moritt-Dwyer Labor Relations Bill be voted out of committee. He also urged the committee members to support the measure when it comes before the Senate and Assembly.

Mr. Cross stated that the Condon-Wadlin Act places definite restrictions on the activities of civil service employees.

"It is therefore fair and reasonable that a Labor Relations Board be established which will be empowered to hear grievances and make recommendations to department and administrative heads," he added.

Arbitration, registration of complaints and the means of obtaining adjustments are provided in the bill.

### Stresses Need

"The procedure provides for a democratic, orderly system of appeal against arbitrary decisions of administrative officials," said Mr. Cross, "affecting the rights and working conditions of employees. At present there is no formal labor relations machinery set up for civil service employees. On the other hand, the Legislature saw fit to enact the Condon-Wadlin Law, but has consistently failed to provide the necessary machinery to arbitrate civil service labor problems."

Mr. Cross urged all-out support on this bill, to establish a Labor Relations Board for each agency, bureau or department of the State, county, municipal or other government.

Margaret Devany of the State Conservation Department prepares the department's booth at the National Sportsman's Show at Grand Central Palace. The sound of a porcupine munching a carrot is amplified so all visitors to the exhibit can hear. The show closed last week.

# 900 Men Seek NYC Job As Parkman

A total of 900 men applied for NYC jobs as NYC parkman during the three-day filing period last week.

Most of the prospective parkmen had filed applications for the \$7.80 a day job by early afternoon of the first day for receipt of applications, Wednesday, February 25.

Candidates, who could not have passed their 55th birthday on February 25, veterans excepted, must now undergo a qualifying medical exam and a rigid physical test.

**Physical Test Later**  
The physical test includes the lifting of a 50-pound dumbbell a full arms' length above the head with one hand, and a 40-pound dumbbell with the other hand.

The parkman jobs, with the NYC Department of Parks, require extraordinary physical effort. Duties of parkman include general park maintenance work, such as using hand and power grass mowers and other equipment, cleaning interiors of structures and maintaining beach areas.

The employment period is March 1 to November 30, or a maximum of 225 work days. No work week will exceed six days.

LAUDS LEADER SUPPORT OF EMPLOYEES

I am a State Public Works engineer of 23 years' service. I wish to pay tribute to and congratulate the editor, reporters and staff of The LEADER as a source of weekly information and vital statistics and as a publication for both State, federal and local civil service employees...

WILLIAM G. NEFF, Rochester.

WHITE UNIFORMS BACKED FOR STAFF ATTENDANTS

The February 10 issue of The LEADER, Mrs. Judith Smith was 100 percent correct about the staff attendant's wanting to wear white uniforms, the same as the male attendants.

Why don't these male attendants wear blue uniforms and place a white stripe on their arm, bearing the name of the hospital they work in?

MRS. PEARL JONES.

FAVORS ADDITION OF SOCIAL SECURITY BENEFITS

Fellow employees of the State Department of Mental Hygiene, I urge you to do all in your power to fight for the integration of Federal Social Security benefits. This inclusion would provide additional superannuation allowances for retirement...

Our pension should be \$1,500 a year after 15 years' service, and up to \$3,000, or more, thereafter. When we are young we don't realize the effect this low pension will have when we are old.

## Some Cities Restrict Outside Jobs

Cities should have definite policies controlling off-the-job employment of their employees, a committee of the city manager department of the League of California Cities recommends. The International City Managers' Association reports the committee found that 29 of California's 69 council-manager cities restrict outside employment to some extent. Thirteen of these 29 cities have more than 50,000 population. Outside employment, the committee says, should be considered as a special privilege, not as a right, and should be viewed in the same light as other outside activities which affect the employee's efficiency on the job, such as recreation, social activities, or private home building.

**Sees Some Incompatibility**  
Some types of outside employment are incompatible with city employment, as in the case of a policeman who operates a private detective agency or works in a tavern, the report states. Uniformed employees and public works employees may be needed to meet emergencies during off-duty hours and should be available for calls to duty, it adds. Other observations by the committee below: If wages for city employment are below those in private industry, a policy restricting outside work becomes difficult to enforce. The city may be able to keep its employees only because they can work elsewhere in their spare time. The local employment situation and the attitudes of local private industries toward outside work are other factors to consider. The city may consider personal or family situations which may justify outside work, such as heavy medical expenses, purchase of a home, household appliances or other fixed assets to improve an employee's standard of living, and investment in a business which requires some of his time for management or operation.

**Assembly's Comment**  
The Civil Service Assembly of U. S. and Canada commented on the report as follows: "Authority to approve outside employment was given to the City Manager in 16 cities; to the department head in 7; to the civil service commission in 2; and to the Personnel Director in 1. In virtually all cases, however, the approval of the department head is required if final approval is given elsewhere. "Although it is difficult for a city to know just how many of its employees are engaged in outside work, the following reports were received from cities in the above 25,000 population group: Eleven cities reported an average of 24 percent of their policemen engaging in outside work, with a maximum of 50 percent. Eleven cities reported an average of 35 percent of their firemen working outside, with a high of 75 percent. The average was 12 percent among mechanical and construction workers of nine cities, and 5 percent among office workers of seven cities. "The five criteria generally used to decide whether outside work was permissible were: (1) Time schedule did not interfere with response to emergency calls; (2) Work was not so strenuous as to interfere with performance of city job; (3) Outside work was compatible with proper performance of city duties; (4) The employee is unlikely to incur an injury he could ascribe to his city job; and (5) The employee by his outside work did not deprive a taxpayer of his livelihood."

### State Tax Examiners To Increase Service

The State Income Tax Bureau will set up temporary headquarters in Bronx, Westchester, Richmond, Queens, Orange, Nassau and Suffolk Counties to help State income taxpayers make out their returns for 1952.

Benjamin B. Berinstein, Manhattan district tax supervisor, and William S. Webb, Brooklyn district tax supervisor, said State tax experts will establish branch offices for varying periods of time in The Bronx, Yonkers, Mount Vernon, New Rochelle, White Plains, St. George, Newburgh, Middletown, Port Jervis, Port Chester, Jamaica, Mineola, Patchogue and Riverhead.

Examiners will also be accessible at 80 Centre Street, Manhattan, and 320 Schermerhorn Street, Brooklyn.

State income tax returns and payments are due on or before April 15.

### DEWEY JOINS IN HONORING HECK

ALBANY, March 2 — Governor Thomas E. Dewey joined in presenting Speaker Oswald D. Heck with a silver plaque for "22 years of distinguished public service."

The plaque was the gift of the Pilot's Association whose membership consists of Assemblymen who have served 10 years or more.

Of Mr. Heck's 22 years' service, 17 have been as Speaker, an office he has held seven years longer than anyone else in the State's 176-year history.

### WAR VETERANS TO MEET

The New York War Veterans in Civil Service will hold their regular meeting Thursday, March 12, at 8:30 P.M. at 248 West 14th Street, NYC. Bills pending in the State Legislature will be discussed. All war veterans in civil service are invited to attend said William Spivak, State chairman.

## 42-Hour Week for Some In Fire Dept. by April 1; Remainder by July 1

The 42-hour week in the NYC Fire Department is planned to be fully operative by July 1, when the new budget goes into effect, Commissioner Jacob Grumet said last week. To accomplish this, he added, 404 more firemen will have to be appointed, in addition to the 100 sworn in last week, and also officer additions will be necessary.

Commissioner Grumet made the remarks at Engine Company 31, Lafayette and White Streets, at the swearing-in of the 100 firemen appointees and the promotion of eleven lieutenants to captain rank. All 11 are war veterans, and were promoted subject to verification of preference claims.

### The 11 New Captains

The new captains are Joseph P. Mackey, Engine 295; Roger C. Garmody, Hook and Ladder 76; Sigmond Schussler, Hook and Ladder 14; Herbert M. Melrow, Engine 309; William G. Dusterwald, Hook and Ladder 18; James G. O'Hanlon, Engine 155; Albert S. Gross, Engine 3; Harold Toback, Engine 276; Julian D. Shear, Hook and Ladder 8; John D. Covaeskie, Engine 269, and Philip Oklan, Engine 296.

The Commissioner reported the department's present strength as 8,961.

Some divisions will get the 42-hour week on April 1, the Commissioner said, and the remaining divisions would be included as rapidly as possible.

After the 42-hour basis has been established throughout the department the next step would be to obtain the 40-hour week, which is Mayor Vincent R. Impellitteri's goal for all City departments. The

present work-week is 45.8 hours in the Fire Department.

### Employees' Schedule

The Uniformed Fire Officers Association and the Uniformed Firemen's Association recently presented to Commissioner Grumet as their minimum the following schedule:

- Chief of department, 1
- Deputy chief, 81
- Battalion chief, 227
- Captain, 418
- Lieutenant, 1,308
- Firemen, 10,200

This would involve an increase of 165 in the officer ranks and about 500 in the fireman ranks, above the existing quotas.

## Bill Seeks End Of Pension Forfeiture

Stanley M. Isaacs, minority leader of the Council, is introducing an amendment to the Administrative Code providing that if a member of the NYC Employees Retirement System dies during the 30-day period which commences upon the filing of his retirement papers, the pension that he has elected shall nevertheless be paid to his beneficiary.

"This bill would correct what I believe to be an injustice to City employees," he said. "A man who has served the City for 30 or 40 years determines to retire, counting on his pension which he or his widow will receive for the rest of their lives.

"If the man should die during that 30-day period, his wife would lose the pension. All that she would receive would be the amount which he paid into the pension fund, plus the accumulated interest, and a year's salary. If the employee survives for 31 days after giving notice, his family is taken care of; if he survives for only twenty-nine days, his family loses out.

"There are not many cases of this sort. The cost to the Retirement System would be minor."

## Sergeant List Dies Mar. 30; Promotion Up

Eligibles for promotion to sergeant in the NYC Police Department have received assurances from Budget Director Abraham D. Beame that there will be a sizeable number of promotions before March 30. The list expires on that date.

There are 225 eligibles. Mr. Beame would not commit himself on the number of additional promotions. He will discuss the subject with Mayor Vincent R. Impellitteri and Police Commissioner George P. Monaghan. That it will not be enough to promote all 225 was indicated.

The present quota is 1,148. To make the new promotions, the quota would have to be increased. This is expected to be done by March 19.
