More Holidays Sought For Federal Employees

WASHINGTON—Federal employees are beginning to agitate again for more holidays. And insiders here think their chances of getting them aren't at all bad.

Many high officials here have come to the conclusion that employees of private industry and Government, too, have been working too hard for too long. They believe the war effort might actually benefit if the present restricted list of holidays were again expanded.

That, of course, is a debatable

viewpoint. However, it is interesting to note that Britain has pretty well restored the holidays which were in effect before the war.

In fact, British officials claim that more holidays resulted in more production.

At present, Federal workers get only one holiday per year—Christ-

mas. Not only that, but they receive no pay whatever for working on other holidays.

Private employees, by contrast, get overtime pay for holiday work. Most of them, however, presumably would be willing to give up extra pay in exchange for more time-off.

At one time, Government observed seven holidays. They were Christmas, New Years, Washington's Birthday, Memorial Day, Fourth of July, Labor Day, and Thanksgiving.

Continuous Schedule Hinted for NYC Firemen

By FRANCIS KELLY

Coercion by Mayor LaGuardia and an implied desire by the administration to go back to the system of continuous duty in the NYC Fire Department were charged openly during the recent budget hearings.

The fact that the Fire Department does not avail itself of the temporary civil service lists, that the Municipal Civil Service Commission, after consultation with the Fire Department, called off a test for promotion examination to the rank of Fire lieutenant, modification of the 3 platoon system by adding 8 hours in each week's service of the uniformed force, and the policy adopted by the Department of not asking deferment from the draft for any of its members regardless of length of service or indispensability, added fuel to the fire of the existing feud between the uniformed force and the Mayor.

The charge of "coercion" was made in the course of a heated appeal made by Vincent J. Kane, president of the Uniformed Firemen's Association, in his appearance at the budget hearing of the Board of Estimate. Mr. Kane repeated the charge, among other things, that city firemen were denied an annual cost of living increase of \$420 per year because of their law suit in which they challenged the right of Fire Commissioner Patrick Walsh to increase the hours of duty by modifying the three-platoon system.

The Figures Look Bad

Everything in the present set-up seems to point towards a gradual building down of the strength of the uniformed Fire Department and a return to the system of continuous duty.

Figures revealed by officials of the Fire Department show the following picture:

Normal strength of the uniformed force	8710 men
Unfilled vacancies in the department	984 men
Men in the armed forces to date	1074 men
Under 26 and subject to induction	69 men
Between 26-38 yrs. and subject to future inductions into the military service	4800 men

If only half of these latter, in the 26-38-year class, are inducted into service, it will leave the department with around 4,000 men, or less than half of its normal complement. And, since there are no eligibles available, this might form a basis for a return to the system of World War I, when continuous service of the uniformed force was the order of the day.

"A lengthening of the hours for the firemen in accordance with the schedules which were in effect in World War I is the only alternative", a spokesman for Commissioner Walsh stated.

No one, however, wanted to commit himself how soon another modification of the three-platoon system might become necessary. While some of the leaders of the uniformed force claimed that some new charts for the uniformed force were already in preparation, others seemed to feel that unnecessary since the old charts are still in existence and could be revived for application "over night."

Up to the first of this year the uniformed force worked under the three-platoon system, which operates as follows: six 8-hour tours (48 hours) with the seventh day as off-day. Under an order promulgated by Fire Commissioner Walsh and effective as of January 1st, 1944 this schedule was changed into what the Department officially designated as a "Modified Three Platoon System" which added another 8 hours to the second day of each 6 day shift, thus (Continued on page 16)

Governor Vetoes Merit-Killing Bill; State Association Suggests Better Plan

ALBANY—Although Governor Dewey last week vetoed the so-called "transition employment bill" (Senate Intro. 1703), the Public Works Department will go ahead with its plans anyway to hire a vast army of temporary employees.

The vetoed measure would have permitted the department to hire engineers, architects, and other technical help without respect to any civil service examination. It was aimed at giving the department unhampered leeway in selecting such personnel.

With that method scrapped, the department will invoke instead Rule 8-A of the Civil Service Department. (This rule provides for duration appointments—Ed.) This was the method suggested by the Association of State Civil Service Employees which opposed the "transition bill." The Governor vetoed the bill without comment, but this is what the Association wrote to Mr. Dewey:

"We know of no useful purpose that can be served by this bill. Everything that is authorized by this bill can now be done under Civil Service Rule 8-A relating to war duration appointments.

"We are in sympathy with the desire of the Superintendent of Public Works to defer competitive examinations during the war and we think that such deferment is justified because so many architects and engineers are in mili-

tary service and would not be eligible to compete in examinations held during this period.

Special Laws a Mistake

"We think it is a mistake, however, to enact special laws creating special statutory exemptions, because experience has shown that the adoption of one such law gives rise to the introduction of numerous other bills of the same type.

"The present provisions of the civil service law and rules are flexible enough to meet the problems of the Department of Public Works as well as the temporary problems confronting other departments in the present emergency. The Department of Public Works would not be hampered in any way by adhering to the rules that are applicable to other departments."

Under Rule 8-A employees may be hired without examination for the duration of the war and for six months thereafter.

Civil Service Will Have a Hand

The Superintendent of Public Works will receive applications on civil service forms for appointment in the engineering, drafting, architectural and other construction positions and these will be

sent to the Civil Service Commission for inspection and appointment under 8-A.

Representatives of the department who advocated enactment of the "transition bill" hoped under that measure to build up a temporary organization paralleling the established line organization. Permanent employees could have taken leaves of absence to fill better-paying jobs in the "transition" set-up under the bill, they said, returning later to their former jobs. The bill, it was explained, would have strengthened rather than weakened civil service for the reason that after the construction peak had passed and lay-offs began there would be a better chance of the older employees retaining their jobs. Officials also argued that if the State votes for veteran preference, as now proposed, veterans will have first claim on all jobs not only for original appointment but for retention in service, when lay-offs come.

Warning: They're Sniping at U. S. Overtime Pay

WASHINGTON—While Government employees are shooting for pay raises, potent members of the powerful House Appropriations Committee apparently have other ideas.

In fact, there is every indication that some members of this committee would actually like to reduce Government pay!

Specifically, observers have noted a growing drive in the committee to cut out Federal overtime compensation.

Agency representatives who have appeared before the committee in the last few weeks have been sharply questioned about overtime work. Again and again, they have been asked if extra hours have meant extra production—and if overtime pay is, in their opinion, really justified.

Some Congressmen Not Convinced

The agency officials consistently have answered that overtime pay is justified. However, there is good reason to believe that some elements in Congress still are not convinced.

The anti-overtime movement, so far as can be learned, has stemmed principally from Rep. John Taber (R., N. Y.), ranking minority member of the committee, Rep. William Lambertson (R., Kans.), and Rep. Richard B. Wiglesworth (R., Mass.).

Postal Men Start New Drive

Meantime, postal worker unions are getting ready to spearhead a drive for increased salaries. These groups expect to take their case to Congress before it adjourns (or recesses) for the coming political campaign. They will ask: (1) That their present \$300-a-year wartime bonus be made permanent. (2) That they be granted a full time-and-one-half for overtime work—instead of their present straight time.

Park Employees Get a Break

Four Parks Department employees got a break from the NYC Civil Service Commission last week.

They had been on the list for Assistant Gardener, and were appointed as military substitutes at \$1,700, plus \$120 cost of living bonus.

On March 20, they were certified for indefinite (seasonal) positions at \$5.50 per day, and didn't feel like giving up the regular salaried posts for the per diem jobs.

The Commission allowed them to decline the daily work, keep their jobs, and still retain a position on a preferred list for permanent positions as Assistant Gardeners.

Govt. Work Cailed War Activity In the New Draft Regulations

'All Government service will be considered a war supporting activity by Selective Service'. This fact was learned at New York City Headquarters of Selective Service. To men over 26 in government work, municipal, state, or Federal, it means that their induction into the armed forces should be postponed, pending action from Washington to clarify their status. Some areas, New York City, for

instance have temporarily halted all inductions of men over 26. In others, local boards are applying their own interpretation of what constitutes a "war supporting activity." It was believed at New York Selective Service Headquarters that a more exact order defining the type of men over 26 to be deferred would shortly be issued, and that government service would be included among the services in which workers would be considered deferrable.

"Pre-Pearl Harbor father in gov-

ernment service (over 26 years old) will receive the same consideration as other men in the same situation in private industry, even though no government request for their deferment is made," says Colonel Arthur V. McDermott, New York City Director of Selective Service.

Chances of Men Under 26 As for government employees under 26, their chances of being deferred are very small. The State Director of Selective Service in

each State, and in New York City, will have the final say on granting occupational deferment to them. The first step except in cases listed below—is for the employing agency to file Special Form 42-A. Some Government agencies (one is New York City) have refused to ask for the deferment of any single men under 26, and are only seeking deferment of absolutely irreplaceable and essentially needed married men under 26.

Deferment For Men Under 26 National Selective Service headquarters has issued a long list of activities in which deferments may be granted men under 26, even though they do not bear the endorsement of a government agency or its Selective Service representative.

Dental Hygienists, Stenos Needed

The NYC Health Department has again asked the LEADER to help it find people to fill its jobs.

First call is for 20 dental hygienists, who must have their State registry papers. Starting salary is \$1,260, and the positions are offered on a provisional basis—without examination.

Stenographers at \$1,201 are also needed. The work week is from 8:30-5:15 Monday to Friday, and out of the four Saturdays of each month, one and a half days of work will be required.

Applicants should call in person at the Health Department offices, 2nd Floor, 125 Worth St., New York City.

NYC Eligible Lists Released By Commission

These NYC lists of eligibles have recently been announced by the Municipal Civil Service Commission, and may be examined at the offices of The LEADER during business hours:

Office Appliance Operator, Grade 2, National Cash Register Accounting Machine.

Promotion to Assistant Supervisor, Cars and Shops, IND, Board of Transportation.

Promotion to Stationary Engineer, Board of Higher Education.

Promotion to Claim Examiner, Torts, Grade 3, Office of the Comptroller, Administrative Unit.

Promotion to Stock Assistant, Male, Board of Transportation.

Promotion to Senior Stationary Engineer, Department of Water Supply, Gas and Electricity, New York City Division.

Bonus Checks Late in Welfare

NYC Welfare employees who are waiting for the cost of living checks for the period from January 1 to March 15, got a notice from their fiscal office last week.

It wasn't an invitation to come down and pick up their slips, but an explanation that because of the days-off during the religious holidays, there would be a slight delay.

Some checks came through last week; others are expected this week. When they come, the time-keepers will be notified, and will pass them out.

Naval Supply Depot Needs Workers 80c-99c Per Hour

The U. S. Civil Service Commission announced last week that 200 packers, craters (men and women) and laborers (men) are needed at once at the U. S. Naval Supply Depot, Bayonne, New Jersey. Starting pay is 93c per hour for packers and craters with a later increase to 99c per hour. Starting pay for laborers is 80c per hour with promotions to 86c per hour and eventually to the positions of packers and craters. Laborers may also be promoted to the position of chauffeur. The usual work week is 48 hours with time and one-half over 40 hours and additional overtime may be worked if the individual so desires. There are no particular requirements for the position of laborer, and persons with some experience in woodworking, store-keeping or shipping will qualify as packers and craters.

Since the moving of supplies to the fighting fronts is vital to the success of our Navy's efforts, these jobs provide an excellent opportunity for U. S. citizens to aid in bringing victory nearer. Those interested should apply immediately at Room 544, 641 Washington Street, New York, N. Y. or at the Labor Board, Foot of East 33rd Street, Bayonne, New Jersey or at the Naval Supply Depot, Bayonne, New Jersey. There is a 5c ferry service from Slip No. 6, South Ferry direct to the Naval Supply Depot. Applicants must be between the ages of 18 and 55.

New Draft Rules Don't Hit Employees Too Hard

Most of the New York City Departments don't feel too excited about the fact that deferments of men under 26 have been tightly restricted.

Water Supply

In the Department of Water Supply, Gas and Electricity it was explained that practically every man under 26 physically fit for service was already in uniform.

Public Works

"We have never asked for the deferment of a man under 26," says David I. Shivitz, of the Department of Public Works. "So about all the ruling means to us is further delay in the induction of our older employees."

Budget Bureau

The City Budget Bureau has been running a tug-of-war with local draft boards. There it was indicated that deferments had been handed out for limited periods, and that the plea "We have to get the City Budget out" had won deferments, but that after July, there would be a general exodus in the direction of the training camps.

Subways

The War Service Bureau of the Board of Transportation felt that the new ruling would be most helpful. The Board has only 475 available men under 26 who are now being processed for mili-

tary service, and believes that fully 50 percent of these will be rejected at the induction center. Another 130 men in the agency are under 26, but have been placed in 4-F, and 41 have been returned from the service—some after overseas duty—and have come back to their transportation jobs. The Board, however, has decided that it will not file form 42-A, and ask deferment for any employee under 26.

Hospitals

The City Hospitals Department has only about 100 male employees left under 26 who aren't in 4-F, or otherwise deferred from the draft. Deferment may be asked for a "very few" of these who are performing very highly skilled technical work and cannot be replaced.

Sanitation

At Sanitation headquarters, it was believed that the new ruling would help, by enabling the department to hold on to the older men, but they have already lost so many men to the draft boards that the manpower situation is very bad.

Mayor LaGuardia's Draft Order Affects New York City Employees

TO HEADS OF ALL DEPARTMENTS AND AGENCIES:

I want to call your attention to a change in the procedure of the Selective Service Administration. It now requires that all applications for deferments of men under twenty-six years of age be presented on Form 42-A-Special and must go to the New York City Director of Selective Service and not to the local boards as heretofore. That is the Federal regulation.

Now here is the City policy.

1. No one under twenty-six years of age, unmarried, is to apply for deferment no matter what he is doing or how valuable he may be.

2. All under twenty-six years of age who apply for deferment must submit same to the head of his department and if the head of the department disapproves, it ends there. If he approves, it will be submitted to the Chairman of the City Manpower Committee, Honorable Newbold Morris, and if the Committee disapproves, it will end there. If approved it will then be submitted to the Mayor. If the Mayor disapproves, it will be returned to the head of the department and not submitted to the City Director. If the Mayor approves, it will be duly forwarded.

The policy is that in these days when married men with families are being taken into the service as are men in their middle thirties, there is no justification for seeking deferment unless it is of such vital importance as to justify such special and extraordinary consideration.

It must also be remembered that men in the service of the City of New York will have their jobs when the war is over.

For further detailed information concerning the procedure, please apply to Honorable Newbold Morris, Chairman of the City Manpower Committee.

Lax Protection for NYC Employees Under Compensation Law Is Charged

A paragraph in Mayor LaGuardia's recent message has raised the question: "Are all NYC municipal employees covered by Workman's Compensation Insurance on the same basis as coverage is compulsory by private employers?"

Said Mayor LaGuardia in his message:—"The budget contains an appropriation of \$1,000,000 to meet the cost of Workmen's Compensation for injured City employees who come under the classification. I have given careful study and consideration to suggestions that more classifications of employees should come under the Workmen's Compensation Act. I do not believe the subject has been sufficiently studied. . . . In the first place, employees of the City, not covered by Workmen's Compensation, if injured in line of duty, are invariably carried on the payroll. If they were to come under Workmen's Compensation they would receive only a part of their pay while incapacitated.

"Then I believe we should wait to see if there is any improvement in the administration of the Workmen's Compensation Act, after the law is amended following the revolting details disclosed by the investigation of that department. I also believe that it might be well for the City to administer its own compensation department rather than to be compelled to submit to the same procedure and control required of the private employer.

"Disability retirement must also be taken into consideration when studying the subject of bringing additional classifications of employees under the State Act. Of course, with any national or state system of health insurance, the question would become practically academic."

Isaacs Dissents

Councilman Stanley Isaacs, former Manhattan Borough President, dissatisfied with conditions as he found them, appointed himself a committee of one, and after various contacts with State Industrial Commissioner Edward Corsi, brought out facts which should be of tremendous interest to municipal employees:

1—That it is definite that there are a number of groups of municipal employees who presently are not covered by the Workman's Compensation law and who cannot, under any circumstances

Mayor LaGuardia Says:

Compensation they would receive only a part of their pay while incapacitated.

Stanley Isaacs, Councilman Says:

required to give them. If these people fall victims of accidents in line of duty, they are not

Edward Corsi, State Industrial Commissioner, Says:

might raise questions as to coverage.

In the first place, employees of the City not covered by Workmen's Compensation, if injured in line of duty, are invariably carried on the payroll. If they were to come under Workman's Compensation they would receive only a part of their pay while incapacitated.

Every worker in private industry, under State law, is covered by Workman's Compensation. . . . Most city workers are likewise. But it seems that a large number of them still lack the protection that private employers would be required to give them. If these people fall victims of accidents in line of duty, they are not taken care of by Workmen's Compensation.

It is true that some City employees are not covered by Workmen's Compensation. For instance an interne in a City hospital is. A resident physician is not. A hospital nurse is. A visiting nurse, is not. Hospital orderlies are. Hospital kitchen employees are not. And in addition, the type of employment in itself

collect Workmen's Compensation in case of injury while in service.

2—The fact that employees injured while at work and not covered by Workman's Compensation "invariably receive their full payroll if injured in line of duty" is subject to a multitude of legal interpretations. Among these is the question whether such payment while incapacitated is compulsory under existing laws (which it seems not) or whether it is a gesture of "good will" by a city administration.

3—That even those who should be covered at present may lose the benefits of Workman's Compensation coverage because the work they are assigned to does not correspond with the title of the position they hold.

Cases In Fact

State Industrial Commissioner Edward Corsi pointed out that not alone is coverage for groups of municipal employees lacking completely but in addition referred to the case of hospital orderlies, who are entitled to Workman's Compensation. But since the kitchen employees who lift heavy food kettles and are constantly subjected to additional hazards inherent to their type

of work are not covered, what, for instance, would happen if the orderly would be assigned to a moving steam table in the hospital kitchen or elsewhere? Would he, under the law, be construed as an orderly, a position under which he is certified and paid, or as a kitchen-worker, in which capacity he was injured?

There are more inadequacies in the existing laws. For instance the nurse who is employed in the city hospital service is covered by Workmen's Compensation, yet no coverage whatever is extended to the visiting nurse employed by the City Health Department.

A market inspector of the City of New York is denied the application of Workman's Compensation because, in the opinion of the Courts, the City of New York is not engaged in the operation of markets and therefore the protection which applies to market workers under the State compensation law does not apply to the city workers.

Says Commissioner Corsi of the situation:

"The highly selective coverage of city employees is not conducive to a satisfactory employment relationship."

19 Days of Work Without a Single Day of Rest

One interesting fact brought out at the Board of Estimate Hearings last week was that Bridge Tenders and Bridge Operators in the Department of Public Works regularly put in 18 or 19 days without one day off.

"That's true," says a department spokesman, "but we haven't been able to remedy the situation.

"We're working on the problem, but it's hard to find men to fill the jobs that are open. Besides that, they are credited for time-off when they put in extra days."

The City Budget Bureau says that it is trying to help out DPW and honors requests to fill vacancies as soon as they come through. But the Civil Service Commission hasn't any list of men who can be certified for the jobs, so that doesn't help much. Any man with experience on bridges can probably land a job by applying at the DPW, 16th Floor, Municipal Building.

Court Cases Affecting Civil Employees

Following are a group of recent court decisions in New York City which are of interest to civil service employees:

City May Hire Privately
Civil Service Technical Guild vs. LaGuardia . . . The Court of Appeals sustained lower court decisions. This court approved the employment by the City of private engineering firms for the planning of engineering and architectural projects.

Nurses Lose
Kneale vs. McGoldrick . . . The petitioners had been reclassified into the competitive class from non-competitive positions as trained nurses performing medical social work in the Department of Hospitals. The court denied their claim to the title of medical social worker, grade 2, and explained that the salaries of these employees at the time of reclassification were below the \$1,800 level established for that grade. The court also indicated that the duties of these nurses were not supervisory in nature. (Supreme Court, N. Y. County.)

Court May Review Discipline
Tiernan vs. Walsh . . . The petitioner, a New York City Fireman, was fined several days pay and reprimanded on various charges. The court held that, under a recent amendment to the Civil Service Law, disciplinary proceedings, though not resulting in dismissal, are reviewable in court. (Supreme Court, N. Y. County.)

Bring a Case in Time!
Graef vs. Maltbie . . . The petitioner sought reinstatement to the position of assistant electrical engineer in the Public Service Commission and alleged that the position had been abolished in bad faith. The court, however, sustained the Commission's plea that the failure of the petitioner to bring action within four months after the abolition of the position required dismissal of the action. The Court ruled that the petitioner's continuance in the department as an assistant clerk, after the abolition of his position as engineer, did not extend his time to bring the action. (Supreme Court, N. Y. County.)

Civil Service Is Out
Guastoferrri vs. Board of Education of the City of New York . . . Under a so-called modified indirect system recently instituted by the Board of Education, the Civil Service positions of elevator operator in various schools had been abolished and school custodians empowered to employ persons for such work without reference to civil service lists. The court held this practice improper.

Bad Faith
Conroy vs. Savarese . . . The petitioner's competitive position as Executive Clerk in the Surrogate's Office of Queens County had been abolished and the salary appropriation transferred to a newly created position of Law Assistant in the same agency. The petitioner contended that the abo-

Dr. Edward Bernecker, Commissioner of NYC Hospitals Dept., helped out of a dilemma by the Civil Service Commission.

He's Got to Tell How Good He Is

Each NYC employee's superior fills out his service rating each year and passes on his work. Sometimes a situation comes up in which an employee, as top man, would have to decide just how good his own work is.

Commissioner Edward M. Bernecker, as Commissioner of Hospitals Department ran into this fix. As a civil service employee (he was General Medical Superintendent when he was made Commissioner) he is entitled to receive a rating each year. But as head of the department he would have to send in his own decision on himself.

So the Civil Service Commission last week decided to give him "satisfactory" ratings rather than make him submit reports. Another City official in a similar status is Thomas J. Patterson, City Budget Director.

St. George Assn., Correction Dept.

St. George Association, Department of Correction, is planning a Communion breakfast for the near future. At a recent meeting of the organization, the entire slate of officers was retained. They are: President, E. Hintze, Brooklyn; first vice-president, Robt. Waltenberg, Bronx; second vice-president, Miss Minnet Beck, Brooklyn; treasurer, William Bryant, 8th District; financial secretary, Mr. Lessek, Rikers Island; corresponding and recording secretary, Frederick T. Rabens, Rikers Island; marshal, Fred Schmidt, Rikers Island; historian, H. Needham, Rikers Island; delegate to national committee, T. Orchard, Rikers Island; alternate delegate to national committee, Mr. Webner, Central Office; chaplain, Rev. H. van Couden Haven.

lition was in bad faith and a political maneuver. In the absence of proof by the petitioner that the duties of the two positions were similar, the court dismissed the petition. (Supreme Court, Kings County.)

NYC Employees Tell Estimate Board Their Present Earnings Aren't Enough

By CHARLES SULLIVAN

"Patience and Fortitude" is a pet slogan of Mayor LaGuardia, but representatives of the 150,000 New York City employees who appeared before the Board of Estimate last week to protest against the Mayor's executive budget strongly suggested that it takes fortitude to manage on a City salary, and that patience is wearing thin.

The Mayor's admission in his budget that the cost of living had increased "far more rapidly" than the average City employee's salary gave the employee spokesmen fuel for argument.

Pleas for an increase in the cost of living bonus to approach the actual cost of wartime living took up a good part of the session.

CIO, AFL, Forum Ask Rise

An increase of \$400 to each City employee was the request of the State, County and Municipal Workers of America, CIO, which cited a rise in living costs of 43.5 percent, and stated that the proposed tax rate of 2.79 is the lowest since 1937, which benefits the large real estate owner, but prevents giving the City employee a living wage. The cost of living bonus, James King of the CIO brought, out had been paid for by the employees themselves through delay in promotions, refusal to fill vacancies, and extra hours of work. The \$400 adjustment, he said, would cost the City \$21,000,000, which could be met if the real estate tax rate established last year were maintained.

Pointing out that the present increase to City workers totals only 67 cents a day, the American Federation of State, County and

Municipal Employees, AFL, asked that another \$120 be added to the present City cost of living bonus of \$240.

The Civil Service Forum made a request that a general increase of 15 percent be granted.

Minimum Wage

The present City minimum wage of \$1,200 was assailed as totally inadequate by the SCMWA, which requested the Board to increase this minimum to \$1,500, pointing out that large numbers of Hospital workers were at the minimum rate, and that this low scale of pay prevented recruiting of enough help to meet minimum service requirements.

Overtime

The "overtime" situation also came up. Now the City allows time-off for overtime work, but both the AFL and CIO asked for overtime pay, citing cases where employees amass huge totals of overtime work, but are unable to take the time off, and cannot be paid for their work. Both the AFL and CIO employee unions made a special plea for the restoration of overtime pay in the Department of Sanitation, and of Sunday pay, which was provided last year, but not in the 1944-5 budget.

Among other budgetary requests were:

That the cut in working days for pavers and rammers in the Borough President's Offices be rescinded. . . . By AFL, and Forum speakers.

That the recently extended working hours in the Department of Public Works be reduced. . . . By the Forum.

An increase in the appropriation for child care from \$150,000 to \$350,000; and provision for all-day operation of 345 playgrounds by the Parks Department. . . . By the SCMWA.

Vincent Kane, President of the Uniformed Firemen's Association, AFL, made a plea to the Board for a \$420 bonus similar to that being received by the police. He asked the Board members not to penalize the firemen because they are engaged in litigation. John Carton, Vice-President of the Patrolmen's Benevolent Association, put in an appearance to plead that the firemen be granted the \$420.

Highlights

Among highlights of the hearing. . . . The Board members talking among themselves while employee representatives spoke. . . . The repartee when one impassioned City employee, speaking of the large families of men in his department, said, pointing to the Board, "You are the fathers" . . . meaning of the City. But Newbold Morris replied, "Hey, wait. It's you who are the fathers. We're just Board members."

Edward Corsi, head of State Labor Dept., thinks all is not well with compensation set-up for NYC employees (story on page 3).

NYC Laborers See More Men For Less Work

The Budget which came before the NYC Board of Estimate last week contained an item which reduced the days worked each year by 130 laborers (pavers and rammers) from 210 to 160 days. As these men work, and are paid, by the day, it means a big cut in their salaries.

What peeved them even more was the fact that a group of men doing the same work for the Department of Public Works were kept on the old 210 day schedule. Here are the latest developments:

Public Works Will Be Cut

The fact that the DPW employees were kept on at 210 days was just an "oversight" according to a spokesman for the Budget Bureau. They'll be cut down too.

However, more men will be hired—each will work fewer days a year.

Lower Salary?

Another analysis of the situation is this: There has been a movement to put these per diem workers on an annual basis. That would give them a regular yearly salary, and mean that they will work a full week each week. But, by reducing the days they work each year, that will enable the City to put them at a lower yearly salary by saying "That's what you are earning now." According to some of Mayor LaGuardia's critics, that's what's behind this move.

Lone Streetcar Conductor Certified For NYC Service

Other Certifications by NYC Civil Service Commission

A multitude of certifications for employment in all branches of the city service were issued last week by the Municipal Civil Service Commission, among them a lone one for the Board of Transportation. It involves employment of a Street Car operator for the Brooklyn street car system at the rate of 75c per hour. The number on the eligible list which was certified in this case is 4790.

Playground Director

There were 14 women and 1 man on the list certified for the position of Playground Director. The positions to be filled are temporary (seasonal) for a period not to exceed six months. The pay is \$4 per day. Last numbers reached are on the list of women, 126; on the list of men, 200.

Laborer

There is also only one certification for the position of laborer in the Department of Water Supply, Gas & Electricity, which is listed as probably permanent at \$1500 per year. The number reached with this certification is 1033.

Claims Examiner Torts

Nineteen names were certified on the list of Claims Examiners, Torts, of the Board of Transportation, a position which is indicated as temporary military replacement at \$1500 per annum. The last number reached on the eligible list is 558.

Clerk, Grade One

Three are on the list, with 4455 as last number, for part-time employment as clerk grade 1 in the Department of Welfare. The position covers 30 hours work per week at \$900 per annum and is regarded as permanent.

In the same grade, but for night

work with rotating shift at \$1200 per annum seven names, ending with number 4793, were certified for the Department of Hospitals.

Two names, ending with 4505, are on the list of the Department of Hospitals, \$1200, night work and rotating shifts.

Cleaning Women

On the regular list, at \$1200 per annum, 21 names were certified as cleaning women (temporary) at City College, the last number being 557.

For the same position at \$1040 in the Department of Public Works 57 names are certified, the last number 739.

Jr. Bacteriologist

Sixteen names were certified for one position as junior bacteriologist in the Department of Health at the rate of \$1681 per annum. The last number certified is 33.

Mortuary Caretaker

At a salary of \$1560 or less, probably permanent and temporary, military substitute, one name only was on the list, bearing number 11.

Janitor Custodians

With salaries varying between \$3,972, \$3,876, \$3,084, \$2,892 and \$4,248, the Board of Education is seeking to fill five positions as janitor-custodians for the public school system. The Commission has certified 32 applicants for these positions.

Asst. Train Dispatchers

All municipal subway systems received lists with certifications of men from within the system who successfully passed promotion examinations and are eligible for asst. train dispatchers. These positions pay \$2,280 per annum. There are twenty names on the list certified to the Independent division of the Board of Transportation, with number 159 as the last number reached; fifteen names on the list certified to the IRT division with 48 as last number; four on the list certified to the BMT division with 33 as the last number.

Clerk, Grade 2

For a "probably permanent" position as Clerk Grade 2 with the Board of Higher Education at \$1440 per annum, the certification of eligibles reached Number 605 on the list.

Correction Officer (Women)

The Department of Correction wishes to fill nine positions in all boroughs bearing the title correction officer (Women), at the rate of \$1,769 per annum. These positions are listed as "probable permanent and temporary (leaves of absence of regular employees)". The Commission submitted a certified list of 29 names. A list for

the same position in the Sheriff's office at \$1890 per annum, with twenty-four names certified and 24 as the last number included, has likewise been released by the Commission.

Fireman

Another list comprising one lonely certification covers a Fireman, "probably permanent," for the City's Fire Department. The number of the last and only name certified is 1547.

Park Foremen

There are fifty names on the promotion list of park foremen. These are eligibles for promotion from within the department to fill ten existing vacancies in all boroughs. The rate of pay is \$7 per day for a period not exceeding six months.

40 New Health Jobs in Budget

Mayor LaGuardia's New York City budget for the new fiscal year makes provisions for forty new positions in the Health Department. These positions include a total of 39 veterinarians and health inspectors, with salaries ranging from \$1,200 to \$2,100 per annum, and one of Director of the Food & Drug Division at \$6,500 per annum, a position which the Department of Health has tried to establish for a number of years, but which has been inserted in the Mayor's budget for the first time.

Whether or not this latter position is to be filled through Civil Service examination or by appointment could not be ascertained.

The Department has suffered materially through loss of experienced medical men and dentists as well as nursing help, but has been able, through partial substitution, training of nurses aids, and volunteers provided by the Red Cross, to keep its services reasonably up to date. This fact is best illustrated by the Department's records that less than 4 percent of its 120,000 sessions had to be abandoned by reason of help shortage.

22 Unfilled Police Jobs

How far will the Police Department of the City of New York be affected by the manpower shortage resulting from war needs? This question becomes acute in light of the following figures: peacetime maximum strength of force 18,790 military service 848 actual vacancies in Department 2,522 This means that before 200 more members of the Police Department under 26 years of age and 26 and 38 yrs. are inducted into military service, the actual departmental strength as of to-day is about 90 percent of normal peacetime strength.

While it is true that the budget 1944-45 makes provisions for filling 1200 of the 2522 vacancies existing in the uniformed force, there are only 108 temporary patrolmen now in training, and the eligible list of about 700 more now available will, according to the office of Deputy Commissioner Vincent Finn, scarcely yield more than additional 200 eligibles, at the very most.

It has been the department's policy to ask deferments for all uniformed men who have seen two or more years of service. While the figures of the Military Service Bureau of the Police Department as to the number of successful city appeals for deferments are not available for publication, it is conceded that the percentage of the force in the age group over 26, but subject to military service is substantial. Single men under 26 in the department are subject to the draft.

According to well-informed sources, the Commissioner has but one remedy to overcome this situation, and that remedy lies in the lengthening of the service hours of those of the force not affected by the draft.

Inquiry at Police Headquarters revealed that while the Military Service Bureau, at the request of the Federal draft authorities, has compiled a list of all members on the force under 26 years of age, no such record exists as yet with relation to men over 26 years of age and up to 38.

Pavers Will Get Chance to Advance

Pavers who work for the Borough Presidents of Brooklyn and Manhattan are taking a licking in the Mayor's budget, but some of them will have a chance to become foremen soon.

The NYC Civil Service Commission last week ordered a promotional examination to Foremen of Pavers, open to employees of these two offices.

Approved in NYC

The following examinations were approved by the NYC Civil Service Commission and will be held in the near future—unless cancelled. Dates, when announced, will appear in The LEADER:

Technician, — X-Ray — House Painter; Office Appliance Operator, Grade 2 (Micro-film). A promotion examination to Senior Chemist, Department of Hospitals was also ordered.

Other promotion examinations, under consideration by the Commission, but not yet approved: Inspector of Licenses, Grade 3, Department of Licenses; Tractor Operator, Department of Sanitation; Inspector of Housing, Grade 4, Department of Housing and Buildings; and Inspector of Carpentry and Masonry, Grade 4, Department of Housing and Buildings.

Here's a Real Raise in Pay!

An increase of \$540 a year isn't hay, and that nice plum was handed to 31 employees of the NYC Board of Transportation.

A group of Assistant Train Dispatchers on the IRT were promoted to Train Dispatcher, and their salaries jumped from \$2,400 to \$2,940.

The new promotees: Carroll B. Cox, George Schram, John Dastig, Irving Ginsberg, William Jarrows, Edward J. Dunne, Otto J. Fritson, Lloyd A. Ayer, Nathan Kollander, Weston H. Fletcher, Morris Levofsky, Charles Munroe, John E. Schwartz, John J. Felleman, John F. Flynn, Richard C. Cullom, James A. Frye, Patrick J. Coffey, Henry S. White, Michael J. Hickey, Charles E. Buland, Thomas F. Mabey, A. J. Zemionieski, William Williamson, James P. McGuire, Leonard R. Kilmer, James J. McClintock, Patrick Cummings, Benjamin T. Chlois, Jeremiah F. Murphy, Stanley J. Urban.

Exams Cancelled

Two pending NYC open competitive examinations were ordered cancelled by the Municipal Civil Service Commission last week.

The examinations: Medical Consultant (Epidemiology); Senior Bacteriologist (Sanitary).

MEMBER AUDIT BUREAU OF CIRCULATIONS

Make Yourself Clear, Mayor LaGuardia

MAYOR LaGuardia is at it again. He apparently can't resist the impulse to badger New York City's employees.

Now he's got a probe under way to find out which of them are holding outside jobs, "in violation of departmental regulations," he told reporters last week. The Mayor carefully refrained from telling the reporters certain important facts. One of these facts is that the issue of outside work for City employees was decided by the courts (Natilson v. Hodson) in a decision which denied to the City the right to interfere with the employee's own time. Secondly, he didn't tell the reporters many employees would be unable to hold their City jobs if it weren't possible for them to supplement their incomes by outside work. Third, he didn't tell the reporters that City employees are helping the tight manpower situation, helping the war effort, by taking on outside employment. Fourth, he didn't tell the reporters why he keeps poking his nose into what is obviously the private life of the employee—the right to do what he pleases in his own time, whether it is going to church or working on the railroads.

If the Mayor was referring to those few individuals who hold down full-time jobs in addition to their City jobs, and actually fall asleep while at work, he may have had some justification, because nobody can long stand up under such a schedule and do a proper job for the City. But if Hizzoner is trying to strike out at those individuals who work three or four hours a day, or part of their week-ends, on victory shifts at employment important to the war, he is acting illegally. The Mayor's statement that he had received protests from unions against outside work by NYC employees doesn't stand up in view of the statements by both CIO and AFL employee-leaders strongly favoring the right of City workers to outside employment.

What the Unions Really Say

Said Ellis Ranen, regional director of the American Federation of State, County and Municipal Employees (AFL): "The investigation of employees holding outside jobs is another example of the Mayor's labor strategy. When the City employees begin to ask for more money, LaGuardia looks around for ways to persecute and discredit them."

James V. King, of the State, County and Municipal Workers of America (CIO), says: "Our union has fought for the City employee's right to use his own time for his own purposes. The Courts in the Natilson case upheld the legal right of a City worker to hold an outside job which does not interfere with his performance of satisfactory work for the City. We are against any interference with this legal right by the Mayor or any department head."

A number of the borough presidents and other City officials have publicly recognized the right, indeed the justice, of a City employee's utilization of his spare-time to earn additional moneys and have so stated publicly.

The only occasion a City department would have for disciplining an employee who holds an outside job is in a case where the outside employment adversely affects his work with the City, or where there is a statutory reason for forbidding extra employment.

The Mayor's present witch-hunt will lead only to attempts by employees to hide as deeply as possible the fact of their extra-curricular employment. Some of those who will be scared enough to give up their outside jobs will be driven, by the sheer pressure of financial necessity, to patronizing the haunts of loan-sharks.

Does it make you happy, Mr. Mayor?
We'll have more to say on this later.

Letters

Welfare Worker Liked The Letter

Sirs: Relief employees in Welfare Center 84 wish to thank you for publishing the letter on conditions in our department making for low morale. It was a superb analysis, long overdue, and we enjoyed every word of it. Let's have some more letters and fewer handouts on what's happening at Central Office. W. C. 84.

Pension Fund For U.S. Temps

Sirs: Why must temporary war workers make monthly 5% payments to a Pension Fund that does not exist for them? Why

must they pay a tax of \$1 a month for every month they have been "members" of this so called Retirement Fund, if they resign from their uncertain, temporary jobs? Whoever is responsible for such injustice ought to see to it that correction is made. A.B.C.

Shipyard Clerks Want Overtime

Sirs: The Shipping Division, which is actually the stepchild of the Brooklyn Navy Yard when it comes to overtime, is beginning to blossom forth. The laborers, after protesting for months, are finally getting the 10-hour shift they've been asking for, and more power to them, they certainly deserve it. Now, the poor per annum storekeepers and clerks are way behind the blackball. How about the

Yard loosening up and putting them on an equal 10-hour basis with receiving and storehouse. They've got to make a living too. How about it, Capt. McManus? I know you'd like to see fair play. What do you say Cap? Give us a break, too!! J. V.

Number, Please!

Some of the employees in the NYC Municipal Building are angry with the phone gals at the Worth 2-5600 switchboard.

They say that by the time a voice asks for the number, it takes so long that it's too late to make the call. Then they claim they get wrong numbers, and that incoming calls are balled up.

All the phone gals have to say is, "Number Please."

Don't Repeat This!

Politics, Inc.

Don't let it surprise you if the next step in the criss-cross political career of Wendell Willkie is an ALP nomination for Mayor of New York City. The right-wing leaders of that party have been quietly considering this move as a means of rehabilitating their political fortunes. They argue that such a move would catch the left-wing flat-footed, would appeal to liberals, and would bring to their side the conservative strength mustered by Willkie in the City. David Dubinsky heads this school of thought. . . . As for the La Guardia future, your guess is as good as anybody's. But when you make that guess, just remember that Fiorello has often extricated himself from tight spots before. Don't count him as all washed up just yet. . . . Brilliant Stanley Fuld, Assistant Manhattan D.A., is leaving to enter private practice. Among the judges, he is one of the most respected lawyers. . . . Incidentally, that \$120 which finally went to District Attorney employees in all the boroughs except B'klyn, has resulted in an odd tangle. Employees earning \$3,000 will now be getting higher pay than those earning \$3,060. Because only those employees earning up to \$3,000 get the \$120 added to their salaries. . . . "Painfully harmonious" is the way one oldster described the GOP convention in Albany. . . .

Odds 'n' Ends

As soon as the 25-year-olds all get into the Army, watch for an announcement discharging thousands of soldiers on medical grounds—long overdue. . . . Higher-paid Federal employees who are worried about that McKellar killer-diller requiring Senate confirmation of their jobs, have some hope this week: Insiders say the Senator may abandon his fight to have the Senate place its OK on all employees earning \$4,500 or more. However, there's a gimmick attached. He'll abandon the proposal provided Congress will agree to approve his restrictions on the Tennessee Valley Authority. . . . Howard G. Smith, one of the State Civil Service Commissioners, used to be a Shakespearean actor. . . . Peggy Lehman, widow of aviator Lieut. Peter Lehman, has been doing a magnificent job—without pay—for the War Manpower Commission in New York City. . . . There's a dead ringer for Mayor LaGuardia in the NYC office of the State Division of Licenses. His name is Abraham Wechsler. . . . Memo to NYC Municipal Court Judge Keyes Winter: Isn't it a fact, Judge, that there are 8, not 10, Clerks in the 9th Dist. Municipal Court? Isn't it a fact that an investigation conducted by Senator Buckley showed this to be the best-run municipal Court in the City, the only one with complete records? Don't you think, Judge, that not only was Judge Wecht entitled to an apology from you (which he received) but also the employees who work in that Court? . . .

POLICE CALLS

PBA Pulls in its Wartime Belt

Well, the PBA retrenchment program is in effect. But the inside story has it that plenty of difficulties are in the way.

We'll give you the facts and the story behind the facts.

At the delegates' meeting last Tuesday, a resolution was passed doing two things:

1. Stopping cash payments to retired PBA members.
2. Slicing in half the "expense money" of the officers.

Back in 1934, the by-laws of the PBA were amended providing a cash surrender value of \$275 for any member who had been in for 25 years or more. The money came out of the benefit fund. In 1940, the by-laws were again amended, providing cash surrenders for those with less than 25 years as members. The scale went like this: 25 years—\$275; 20-25 years—\$210; 10-20 years—\$150; less than 10 years—\$70. Now, with the huge number of retirements, with the lessened funds from dues, with the virtual stoppage of new members, the PBA officialdom decided it was high time something be done to conserve the funds of the organization. The most recent financial statement issued by the organization showed about \$800,000 in the treasury. If everybody who is eligible to receive the cash were to ask for it now, it would cost the PBA some \$300,000. Of course, there is no such probability. With no replacements of members, such a drain would hit hard. The big flow of cash had to be stopped. That's the reason for the resolution.

However, some questions come up. How about the men who are already retired? Are they—who paid in their dues in good faith over the years, expecting this little nest egg at the end—are they now to be denied the money? Is it legal to make such a resolution retroactive? There is some evidence that a court case may be brewing on this score.

Still another angle concerns some of the sergeants and lieutenants who have maintained their dues payments into the PBA sim-

ply because they wanted to get the money out when they retired. Since they had no other reason for contributing dues to the PBA, and had no voice in the affairs of the organization, they may well have a legitimate beef. It is known to Police Calls that at least one lieutenant plans a court case on the issue.

Payroll Down

The second part of the resolution is one which caused widespread commendation. It calls for a cut in salary from the President right down to the delegate who collects the dues. The percentage of dues that went to delegates has heretofore been 10 percent; from here on out it will be 5 percent.

Harnedy's expense account was always \$3,000. But it has been customary for the delegates by special resolution to add another \$3,000 to the pay of the organization's head, bringing the sum up to \$6,000. That is now cut in half.

The new pay for the officers will look like this:

1st Vice President	\$1,500
2nd Vice President	1,000
Treasurer	1,500
Recording Secretary	800
5 Fin. Secretaries	1,200 ea.
5 Trustees	600 ea.
Sergeant-at-arms	400

The vote on the resolution was not unanimous. But the opinion among delegates questioned by Police Calls was: "We have to do this now. We don't know how long the war will last. We better pull in our belts before it's too late." One delegate, speaking on the first part of the resolution, pointed out that \$275 is just about the total sum a patrolman pay in as dues over a 25-year period. He made the point that there was no good reason for the return of dues in this fashion.

The State Employee

By HAROLD J. FISHER
President, The Association of State Civil Service Employees

In writing "The State Employee" as a regular weekly feature of The LEADER, Harold J. Fisher discusses all and any matters of interest to employees of the State of New York. He is writing this column with complete leeway to express his own views.

THE WHOLE BODY of State employees was shocked to learn of the decision of the Salary Standardization Board to allocate the attendants at the institutions for the criminally insane at Matteawan and Dannemora to a salary grade of \$1500-\$1900. The decision is the more deplorable in that it seems to have had the approval of the Governor and of the Director of the Budget.

The institution attendants at Matteawan and Dannemora were previously allocated by the Board on an equality with prison guards; i.e., to receive a salary range of \$2000-\$2600. In the opinion of the State Association, this was an initial allocation, and under the provisions of the Feld-Hamilton law was not subject to rejection by the Budget Division. The allocation was not accepted by the Budget Division, however, and apparently the Classification Board felt inclined to erect new titles for the positions to which the employees were already allocated. The Prison Safety Bill, to which reference was made in this column in the LEADER of March 28th—a bill which was introduced during the last few days of the Legislature—established three lower salary grades than had been previously provided in the prison salary schedules; and these new lower scales have served as a convenient means for new lower allocations.

THE ASSOCIATION of State Civil Service Employees cannot but believe that the new allocation is at complete variance with the facts as they relate to the service in question. The workers at these institutions, and at institutions generally, have waited with more than ordinary patience since 1938 to receive the humane treatment promised in every sentence of the career service law which became effective that year. They now feel that they have been grossly wronged in the discretion exercised by the budgeting authorities in connection with the application of this law.

EVERY ATTENDANT at each institution had conscientiously signed a petition addressed to the Governor asking that they be accorded prison guard pay. Committees from each institution appeared before the Salary Standardization Board and detailed the duties and responsibilities of their positions clearly and truthfully. The heads of each of the institutions had stated that the duties and responsibilities of the jobs in question were as difficult as, if not more difficult than, those of prison guards. Representatives in the Assembly from each of the Districts where the institutions are located, appeared before the Board and urged the granting of prison guard rates. Counsel for the Association, John T. DeGraff, appeared at the hearing and spoke the opinion of the 30,000 members of the Association as to the justice of the claim of these State workers.

Queries by members of the Salary Standardization Board at the preliminary hearing granted by the Board might well be interpreted as indicating that the decision was based not on the principle of equal pay for equal work but upon the pay scales in effect in the Mental Hygiene hospital service, where the pay scales have likewise been condemned by the thousands of attendants and nurses involved. If the consummation of a second wrong makes the first wrong right, then the judgment of the Board was a great triumph.

FOR OVER TWENTY YEARS, the workers in institutions of this State have asked for fair play in salaries. For years, the employees have been the victims of a crazy quilt pattern of compensation for their work. The basic scales have been bolstered by a scheme of maintenance values, time service, and pension lures—all resorted to in order to attract and maintain a force of competent workers. With the inauguration of the Feld-Hamilton law, employees had a right to expect just classification and adequate pay scales. Thus far, with few exceptions, they have been granted neither. It is true that hearings are proceeding, but the Matteawan-Dannemora salary decision is discouraging, disappointing and disillusioning.

THE GOVERNOR'S COMMITTEE to investigate the management and affairs of many of the institutions of the State is a clear-cut indictment of the salary scales provided for institutional workers. References in the Dawson report to seeming failures of civil service recruitment procedures and the application of the Feld-Hamilton law are an unhappy alibi for the real trouble, which lies in the withholding of fair pay and good employment practices.

NEVER IN THE HISTORY of any public or private services have there been more loyal or devoted workers than those who have cared for the unfortunates in the various institutions, and during the war period, thousands of employees, in a truly patriotic spirit, have remained to service in the care of the insane and the otherwise afflicted 140,000 wards of the State.

How long will they go unrewarded? The answer seems to be until the State recognizes the propriety and social honesty of close employer-employee cooperation. The present spirit indicates a desire to disregard the appeals of workers as though they were selfishly inspired, to treat employees with suspicion, as in the continuance of charges for meals not desired or taken by many employees who handle foodstuffs, and to ignore the recommendations of duly chosen representatives of organized workers.

The intolerable delays in correction of apparent wrongs and the obvious weakening of employee morale are disturbing occurrences at a time when the upbuilding of sound personnel administration in institutional affairs is more needed than it has ever been. Complete unity of employees and strong appeals to the officers of State government and to citizens generally constitute the only avenues leading to satisfactory adjustments; the welfare of State civil government and of civil service employees points definitely and directly to the necessity for a continued use of these ways.

Dewey Disapproves Volunteer Firemen Preference Bill

The Sherman Bill (Int. 1670), which the LEADER has editorially criticized by reason of the fact that it intended to saddle civil service lists with preference standing for "volunteer fireman" at the same time as it extends the preference privileges to veterans of World War II, has been disapproved by the Governor on constitutional grounds without passing on the merits of the leg-

islation. The LEADER stated editorially after questioning the constitutionality of the bill:

"The merit system cannot operate effectively if it is whittled down by preference of one kind or another by special groups trying to horn in on the backs of the veterans. If volunteer firemen are to be given special preference in filling civil service vacancies, by what process of reasoning can similar credit be denied Red Cross workers, air raid wardens, fire wardens, block leaders, USO workers, and other citizens who likewise volunteer to perform a public service?"

Classification Board Grants 50% Of Appeals Heard

ALBANY—Four State institutions — Wassaic, Utica, Harlem Valley, and Binghamton—have had their employee classification—appeals weighed, and conclusions drawn.

These conclusions show that (1) 50 percent of the appeals for upward classification have been granted; (2) a large percentage of the changes are in the lower categories. Here are the actual figures:

Wassaic—155 appeals considered; 103 changes recommended by the Classification Board.

Harlem Valley—96 appeals heard; changes recommended in 48.

Utica—56 appeals heard; changes recommended in 29.

Binghamton—106 appeals heard; changes recommended in 53.

Night Workers Upped

Among those much affected by the appeals are attendants, ward service workers, maintenance and power plant employees. Many attendants in the night service did not appeal their status. However, the Classification Board has not hesitated to extend the titles of night attendants upward to the position of staff attendant.

The Classification Board, headed by J. Earl Kelly, spent much time at these four institutions, because precedents were set to indicate what can be done elsewhere. The hearings for the entire State are not expected to be finished before September 1. However, all employees who receive upward reclassifications will get their salaries paid retroactively as of October, 1943. Sufficient moneys have been appropriated to take care of the back pay.

Carpenter Is a Carpenter

One of the grievances which the Classification Board has rectified is the desire of craftsmen to work in the titles of their craft. Now, a carpenter is a carpenter, not an attendant or a clerk or something else which gives no indication of the actual job he does.

Last week, the Classification Board finished its work at Newark and Syracuse. This week, the Classification representatives are at Central Islip.

The Board acts fast on its recommendations after holding its hearings. At the four schools mentioned above, notices have already gone out to employees telling them of their changed status.

NYC Employees From Citywide List Ok'd for Their Jobs

ALBANY—After a full year, a wrong done to employees who passed last April's N. Y. C. promotion examinations, or who were laid off because their promotion from the lists established at that time were construed invalid, has been righted in the adoption by the legislature and the signing by Governor Thomas E. Dewey of the Halpern bill, Senate Introductory No. 578.

This law will have a three-fold effect. It will validate the position for those who have remained in the city's employ, after coming off city-wide eligible lists. It will put the names of those who have been laid off on the preferred lists and give them credit for seniority. In both cases, however, such seniority won't start except from date of April 14, 1943, the date of the original City examination, for the purpose of future promotion examinations.

Mrs. Harvey's Battle Isn't Finished; Catherwood Appeals

ALBANY—No, Helen Harvey isn't yet restored to her job in the Commerce Department. Commissioner M. P. Catherwood, who fired her to the tune of voluminous charges, has appealed his case, after losing it in the lower court. In the Albany Supreme Court, Justice Bergen referred to the charges as "multiplied trivia." The case may come up before the Appellate Division in May; if it doesn't, it will likely be held over until September, according to John T. DeGraff, attorney for Mrs. Harvey. Should the higher courts affirm the decision of the Supreme Court, Mrs. Harvey will be reinstated with full back pay from the date of her dismissal.

STATE CIVIL SERVICE BRIEFS

By THEODORE BECKER

Reporting For Duty

PERSONS APPOINTED from State eligible lists are entitled to fifteen days in which to report for duty, according to a memorandum issued last week to all State appointing officers by Charles L. Campbell, Administrative Director of the State Department of Civil Service.

Explaining that the State Civil Service Commission has reaffirmed its long standing policy in this regard, the memorandum makes the following points:

Declination v. Acceptance

1—Under Civil Service Rules, an eligible who fails to accept an offer of appointment by mail within four business days next succeeding the mailing of notice of appointment is deemed to have declined.

2—An eligible who accepts an offer of permanent appointment with the stipulation that he will be able to report for duty within fifteen days of the notice to him of actual appointment must be considered as having accepted.

3—An eligible who is unable to report for work within fifteen

days after date of notice of actual appointment may be passed over on the eligible list. This fifteen days is from the date when the eligible is definitely offered employment and not from the date when inquiry is made as to his willingness to accept employment.

Two Week's Notice

The fifteen day period allowed by the State Commission affords the appointee an opportunity to give two weeks' notice to the employer he is leaving. Until an eligible is actually notified of his appointment, it is inadvisable for him to give such notice. A canvass letter, merely inquiring as to the eligible's availability, is not an offer of appointment, and an eligible should not resign his job on the strength of it. Inability to report for work within fifteen days after receipt of such canvass letter does not result in any loss of eligibility. It is only where the eligible cannot report within fifteen days after receiving notice of appointment that the appointing agency may consider such inability to report as a temporary declination.

Word from Joe Lochner

Joseph D. Lochner, Executive Secretary of the State Association, and now in the armed forces.

Joseph D. Lochner, LEADER Merit Man, and Executive Secretary of the Association of State Civil Service Employees, now in New Guinea as a member of Uncle Sam's Army. Among his many activities, he acts as contributor to the area weekly paper.

Writing home to his wife Annette, Joe tells about the trip over, and how he was awarded the Order of Neptune when he crossed the equator. In New Guinea, he says, life is composed of insects, rain, radio. The treat of the day is a glass of tomato juice.

"A place like this develops your patience," he says. "When I get back, the problems of the Association won't bother me as much as before."

Writes Joe: "We see some weird insects here, some of them very pretty. They say there are many unusual freaks of nature in this vicinity. I sleep well—it rains frequently—the boys have a radio going, enjoying themselves in a simple way—that's the only way enjoyment may be had." He usually closes his letters with this: "Let's pray that this war gets over soon so that we and many others may be able to pick up life where we left off."

In all his letters he asks about the affairs of the Association. Friends may write to him by addressing their mail to:

Willard State Employees Go to Town for Blood Bank

A pat on the back to the employees of Willard State Hospital. When the mobile blood bank of the American Red Cross visited the hospital recently, the employees really went to town with their blood. Here's a listing of the employees who've contributed. When you look over these names, notice that the number who have contributed three times is greater than the number who have contributed once or twice. That's some kind of a record. If any other group of State employees has a better record, we'd like to see it!

The names:			
Five	Marguerite Pamphilon	Wilma Brockway	Edwin White
Edwin Pemberton	Arthur Schaaf	Daniel G. King	Elizabeth Deane

5,000 Appeals Await Salary Board; 'Doc' Tolman Asks Justice for Employees

ALBANY—Facing a backlog of more than 5,000 appeals filed in behalf of employees in the Mental Hygiene Department, the State Salary Standardization Board last week got underway in its efforts to review the petitions and pass on their recommendations to the Budget Division.

It is estimated that more than half of the employees in that one department are dissatisfied with their present salary schedules. This situation arose, it was said, when the Budget Division last year cancelled the initial recommendations made by the Board which had recommended salary allocations covering more than 200 job titles.

Accept Budget's Findings

Instead of fighting, the Board's majority accepted the Budget Division's findings, compromised on some allocations, and—rescinding its own recommendations—accepted the lower schedules advanced by the Budget. Now the whole terrain is once more a battlefield with the odds heavily against the employees, with the Budget Division virtually in control of the situation, and with the Board allegedly an ineffective instrument so far as the employees are concerned.

The Board has opened new quarters in Room 437, State Capitol, where hearings are being conducted. On Tuesday, April 18, representatives of the pharmacists, variously classified, are scheduled to appeal for reallocation of their titles to higher salary grades. Occupational therapists presented their case a few days ago and it is reported the Hygiene Department officials look with favor upon their claims. Nurses and attendants are among other groups whose cases are yet to be heard.

Tolman Explains Budget Power

"It is important to remember," said Dr. Frank Tolman, who, with Marjorie W. Arnold represents employees on the Standardization Board, "that the Board has power only to make initial or original allocations. Changes thereafter have to be approved by the Budget Division."

"We on the Board," Dr. Tolman continued, "are desirous of giving the case of every appellant the most careful consideration but it must be realized that the Board has no power to change allocations, once made, and can only recommend to the Budget Division which has the final decision."

Dr. Tolman has been a tower of strength on the Board for employees. With his amazing knowledge of State service, Dr. Tolman has fought with facts in the interest of more proper salary schedules. His power has been stymied, however, by the majority members, who act for the administration and are apparently under the Budget Director's thumb.

But Dr. Tolman isn't giving up. He says he is prepared to fight for justice in every case.

Since three of the Board's five members are more or less personal representatives of the Governor or the Budget Division, no action is likely to be taken by the Budget on any recommendation that does not meet with the approval of the Governor.

Typical Appeal

Typical of appeals constantly piling up before the Standardization Board was the petition of three cooks employed in a mental hygiene institution in the vicinity of New York City a few days ago. All three have threatened to resign unless early action is taken to give them relief. They have appealed in vain for changes in title and now ask that their salary schedules be changed. They contend the wages paid them by the State are completely out of line with other salaries in the service and with salaries paid cooks in private employment.

ployees are frankly disheartened over progress of employee claims before the Board. This is less criticism of the Board than of the dominant position of the Budget Division which has life and death power over salary adjustments.

Time Extension for Servicemen Legalized

Albany—Civil Service employees who fall into the category covered by the Public Officers Act, who serve in either Army or Navy are given thirty days from the time they receive notice of either election or appointment in which to file their official oath or undertaking under Assembly Bill 1768 signed by Governor Dewey. This time extension is for the purpose of giving men, either appointed or

electd, who are abroad in the service of the country, an opportunity to file without forfeiting their position through failure to file in time.

The grave question remaining for civil service employees under the law as it was passed is, however, that while it is true that policemen and court officers are covered by the law, it is questionably whether other civil service employees fall into the same category, and if not what protection remains for them under similar circumstances.

State Employees—Act Fast!

Low-Cost Life Insurance Without Examination

Life insurance without examination! And at low cost! Excellent protection for State employees—but there's only a very little time left. So, advises the Association of State Civil Service Employees, the thing to do is to act now. Because the offer will be over at the end of April. And that doesn't leave very many days.

Here are the details: The Association announces that during April, 1944, employees of the State of New York may obtain Group Life Insurance without examination. This offer is open to all Association members under age 50 except those employees who have been rejected previously for this Group Life Insurance on the basis of a medical examination. Any State employee may apply for Group Life Insurance during April. Any State employee who is not already a member of the Association may fulfill this requirement for insurance by becoming a member during April.

Plan Started in 1939 On June 1, 1939 the Association Group Life Insurance plan was started. It is underwritten by The Travelers Insurance Company. Since that time over \$900,000.00 in claims have been paid. These claims have been paid promptly, usually within twenty four hours of the time reported to the Insurance Company.

The cost of this Group Life Insurance is low. Payments are made easy by small payroll deductions. Any State employee can arrange to pay for the insurance by authorizing the deduction of small sums each pay day.

Amount of Insurance The amount of insurance is based on annual salary in accordance with the following schedule: Insurance Class Annual Salary Amount of Insurance I—Less than \$900 \$500 II—\$900 but less than \$1,400 1,000 III—\$1,400 but less than \$1,700 1,500 IV—\$1,700 but less than \$2,100 2,000 V—\$2,100 but less than \$2,700 2,500 VI—\$2,700 but less than \$3,500 3,000 VII—\$3,500 but less than \$4,500 4,000 VIII—\$4,500 and over \$5,000

Cash salary only is considered in determining the amount of insurance to which each member is entitled; maintenance, or commutation paid in lieu of maintenance is not considered.

Female employees whose annual salary is less than \$900 are eligible for \$500 of insurance; those whose annual salary is \$900 or more are eligible for \$1,000 of insurance, which is the maximum.

Due to the low premium rates for this insurance and the privilege given to secure it regardless of physical condition, the rules governing this form of insurance do not permit the selection of amounts other than those determined by annual salary as indicated above.

Cost to Members The cost to insured members during the first 5 years of the plan is based on the following table:

Table with columns: Age Group, Attained Age (Nearest Birthday), Semi-Monthly Cost for Each \$1,000 of Insurance. Rows A through G.

This insurance plan is considered tops—in every respect—low cost, full protection, easy handling. State employees who do not already participate in this excellent plan, should rush immediately to take advantage of it. Remember—April 30 is the deadline. Employees who wish further information can obtain it by writing to the Association of State Civil Service Employees, Room 156, State Capitol, Albany, N. Y.

State Promotion Examinations

The State Civil Service Commission has announced the following promotion examinations, open to employees of the Department named. Remember Wage Appeal State Association Warns

ALBANY—The Salary Standardization Board has announced tentative dates for hearings on the appeals filed by various employee groups of the Mental Hygiene and other institutions.

It is of the utmost importance that employees, through sub-committees appointed by delegates to the State Association meetings, appear at these hearings. Association headquarters in Albany suggests that these delegates prepare in advance, in clear, detailed manner, the reasons for any change in their salary allocations.

A tremendous wave of dissatisfaction followed the establishment of many of the salary grades on October 1, 1943. Unrest has prevailed in many institutional services. "Changes in the scales of pay, to reflect the true value of the services rendered, is of vital importance to the upbuilding of morale in the institutions generally," says William McDonough, Executive Representative of the Association. "This goal should be stressed by those who represent the employees at the hearings. It is obvious that the services to patients will deteriorate unless the State recognizes the need for properly compensating institutional employees. The low scales of pay which have prevailed for many decades has been a real deterrent to efficient operation of the institutions. The Feld-Hamilton law requires that employees be paid in accord with the work performed; and if the full value of this statute to the people of the State is to be gained by the people, the salaries of workers must be adjusted to the proper levels."

The Dates

Below are tentative dates for the hearings. Each appellant will be notified by the Salary Standardization Board of the date of the appropriate hearing. Unless there is notice to the contrary, the tentative dates here noted will prevail.

The hearings will be held in the State Capitol. Following is the schedule of services and dates:

MARITIME CIVIL SERVANTS GET RIGHTS UNDER NEW BILL

ALBANY—Civil service employees who enter the Merchant Marine now have the same rights and privileges under State law as are granted to members of the armed forces. Governor Thomas E. Dewey signed a bill to that effect last week. The measure affects not only State employees, but workers in municipalities as well.

Recent NY State Eligible Lists

Recent lists of eligibles issued by the N. Y. State Department of Civil Service follow. They may be examined at the offices of the LEADER during business hours.

Assistant Bacteriologist, Division of Laboratories and Research; Senior Identification Officer, Correction Department; Senior Laboratory Technician, Bacteriology, Department of Health; Senior Laboratory Technician, Serology, Department of Health; Head Cook, State and County Departments and Institutions;

Governor Vetoes 2-Year List Extension

ALBANY—Governor Dewey has disapproved Assembly Bill 280 "an act to amend the civil service law, in relation to emergency extension of eligibility for reinstatement of persons on preferred lists," because he was doubtful of its constitutionality. The bill was intended to extend all civil service preferred eligible lists for a period of two years, but the Courts have held repeatedly that such an extension of civil service lists is only legal if possible while these lists are still in full force and effect, and that no extension can be voted by the Legislature after a list has already expired.

Government Openings

This is general information which you should know about United States Government employment. (1) Applicants must be citizens or owe allegiance to the United States; (2) Applicants must be physically capable of performing the duties of the position and must be free of defects which would constitute employment hazards. Handicapped persons who feel their defects would not interfere with their ability to perform the duties of the positions, are urged to apply. (3) Veterans preference is granted to honorably discharged members of the armed services. Wives and widows of honorably discharged veterans are also entitled to consideration for preference benefits; (4) Appointments are made under war service regulations, which means they will generally be for the duration of the war and in no case will extend more than six months after the war's end; (5) Persons now employed in essential occupations must receive statements of availability in order to be eligible for Federal jobs. An offer of a position will be accompanied by instructions advising what steps to take in order to secure the necessary clearance; (6) unless otherwise noted, application forms are available at the Second Regional Office, Federal Building, Christopher & Washington Streets, New York 14, New York.

Last Can Be First

You may be top person on an eligible list for a New York City job, but someone at the bottom of the list may be appointed to a job paying more than the one which you will be offered.

That seems to be the situation which the New York City Civil Service Commission has approved—at least for one appointment in the Board of Transportation.

On the Commission's weekly calendar appears this item: "O.K.'d . . . Board of Transportation request for permission to appoint at a salary in excess of \$1,201 an incumbent provisional whose name is certified from the existing eligible list and who is presently receiving as a provisional salary in excess of \$1201, regardless of standing on the existing eligible list."

The Explanation
But as the Commission explains the situation, it's a case where red-tape had to be cut in the interests of justice.

This is what happened: Provisional employees in the Board of Transportation receive regular annual increments. Then some of them came up on eligible lists for appointment to permanent jobs. According to rules, they would have had to take a cut, in some instances, of \$300 to obtain the permanent positions; so the Commission decided that they could be appointed at the starting salary, and be increased immediately to the salary they had been earning.

Truth Will Out

New York City doesn't like to hire people with a blot on their records—especially if they omit to mention the fact on their applications for municipal jobs.

Last week, the Board of Transportation discharged some employees when investigation disclosed facts which disqualified them from working for the IND Subway System.

"Terminations of Provisional Employment" reads the report of the Board and then:

- "Hyman Binnick (Conductor) . . . Failure to admit arrests.
- "George Reno (Conductor) . . . Criminal Record.
- "Calvin Surgin (Railroad Porter) . . . Failure to admit arrests."

The general partners are Kenneth R. Schaaf, 27 Red Oak Lane, White Plains, New York and A. T. Donnelly, 64 Watson Avenue, East Orange, New Jersey, and the limited partner is Dorothy V. G. Schaaf, 27 Red Oak Lane, White Plains, New York. The general partnership began business June 1, 1943 and the limited partnership began business on March 25, 1944 and the term of said partnership is from June 1, 1943 to June 1, 1947 and thereafter until terminated by mutual consent. The amount of cash contributed by the limited partner is \$15,000.00 and is to be returned June 1, 1947 unless the partnership is sooner terminated. The limited partner shall receive 30% of the profits from January 1, 1944. No right is given to the limited partner to substitute an assignee. No right is given to admit additional limited partners. No limited partner shall have any priority over other limited partners as to contribution. The right is given to general partners to continue business on death, retirement or insanity of a general partner as set forth in copartnership agreement dated June 1, 1943. The limited partner is given the option to take property in kind or in cash at time when limited partner is entitled to return of capital.

BUCKMAN, GEORGE L.—Supplemental Citation—The People of the State of New York, by the Grace of God Free and Independent, to JESSIE MacRAE; THOMAS W. TRIMBLE and DAVID GLASSFORD, as executors of the estate of Alexander Glassford, deceased; EMILY W. MacCORMACK, EDITH M. MacCORMACK and ROBERT S. MacCORMACK, JR., as executors and trustees under the will of Robert S. MacCormack, deceased; MARIE HEGEMAN WARNOCK, individually and as surviving executor of the estate of Henry B. Hegeman, deceased; being the persons interested herein, as set forth in the supplemental petition dated March 8, 1944, in the Estate of George L. Buckman, deceased, who, at the time of his death, was a resident of New York County, SEND GREETING:

Upon the petition and supplemental petition of Robert C. Brown, residing at No. 4 Park Lane, Mount Vernon, New York.

You and each of you are hereby cited to show cause before the Surrogate's Court of New York County, held at the Hall of Records, in the County of New York, on the 28th day of April, 1944, at half-past ten o'clock in the forenoon of that day, (a) why the account of proceedings of Robert C. Brown, executor of the estate of George L. Buckman, deceased, should not be judicially settled, (b) why an adequate reserve should not be provided, or other proper provision made, for the payment of any Federal or State income taxes which may be due for the period commencing January 1, 1943, (c) why your liability, if any, in respect to the allocation and proration of taxes under Section 124 of the Decedent Estate Law of the State of New York should not be adjudicated herein, (d) why the sums, if any, found due from any of you, should not be paid by you to such persons and in the manner as may be directed by the Surrogate, (e) why recovery over in favor of any person making payment of such taxes or any part thereof should not be allowed as against any other person who may be found liable therefor by the Surrogate, and (f) why such other, further and different relief should not be granted as to the Surrogate, may seem just and proper.

IN TESTIMONY WHEREOF, we have caused the seal of the Surrogate's Court of the said County of New York, to be hereunto affixed.

(L.S.) WITNESSES, HONORABLE JAMES A. FOLLEY, Surrogate of our said county, at the County of New York, on the 9th day of March, in the year of our Lord one thousand nine hundred and forty-four.

GEORGE LOESCH, Clerk of the Surrogate's Court.

CERTIFICATE OF PARTNERSHIP The undersigned do hereby certify that they now conduct or transact business under a partnership agreement under the name and style of HENRY LEWIS COMPANY, at 401 Broadway, in the County of New York, State of New York, and do further certify that the true or real full names of all the persons conducting or transacting such partnership, with the residence and business addresses of such persons, and the age of any who may be infants, are as follows:

Name—Sophie Lewis. Residence—196 Lockwood Avenue, New Rochelle, N. Y. Business Address—102 Maiden Lane, New York, N. Y.

Name—JACOB J. AVNER. Residence—40 Monroe Street, New York City. Business Address—401 Broadway, New York, N. Y.

IN WITNESS WHEREOF, We have this 30th day of March, 1944, made and signed this certificate.

(Seal) SOPHIE LEWIS, JACOB J. AVNER. Duly sworn and acknowledged by all parties hereto.

No. 16568—State of New York, County

of New York, ss.: I, ARCHIBALD R. WATSON, County Clerk and Clerk of the Supreme Court, New York County, DO HEREBY CERTIFY, That I have compared the preceding with the original certificate of partnership filed in my office March 31, 1944, and that same is a correct transcript therefrom and of the whole of such original.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal, this 31st day of March, 1944.

(Signed) Archibald R. Watson, County Clerk and Clerk of the Supreme Court, New York County

This, too, is Dunkirk . . .

MR. WINSTON CHURCHILL

The shadow of death has now reached out to Europe's Jews in their last precarious asylum. As the Nazis move into Rumania, Hungary and Bulgaria, the hope of escape for 2,000,000 remaining Jews is dimmed.

To maintain the present "Nuremberg Laws", barring the doors of nearby Palestine to escaping Jews, and to Jews only, Mr. Churchill, whatever the reason, is to sign their death warrant.

The time has come for straight speaking, Mr. Prime Minister. There may be those who hesitate to speak the truth lest they create disunity.

What unity exists for the 2,000,000 Jews—all anti-Nazis, who are already dead?

What unity is in prospect for the 2,000,000 who are trapped in the Balkans as much by the inhuman blockade from without as by the hand of the murderer within?

The government of the United States, your ally, Mr. Churchill, has committed itself to save the Jewish remnants of Europe. The War Refugee Board is the legitimate offspring of the Four Freedoms.

To aid this humane effort is allied unity.

To implement the "Nuremberg Laws" of Palestine today—is to offset the efforts of your staunchest ally. That is disunity. No,—this is no time for mincing words.

It is not easy to forget that while Jews were being tortured to death by hundreds of thousands in Tremblinka, "Death Forest," and Warsaw, your government's sympathy manifested itself in strange ways.

At a time when to champion the Jewish rights to survival might have given pause to the Nazi hangmen, the Palestine Colonial Administration responded with bullets and imprisonment for escaping Jews who reached the shores of the Promised Land. It is not easy to forget Mauritius, Sakarya and the Struma.

Then there is the mystery of the 30,000 unused entry permits into Palestine.

For the last few years now the Palestine Colonial Administration has dangled this arbitrary quota before the eyes of the several million dying Jews of Europe.

Why were these not used for the 769 Jews who drowned when the ghost ship "Struma" was sent back from the shores of Palestine toward Hitler's Europe?

Why were these not issued to the refugees who managed to escape into Palestine and whom your government exiled instead to the disease-ridden island of Mauritius?

Why, as hope of escape fails—in this eleventh hour—are they not being used NOW—this very minute?

These are facts, Mr. Prime Minister. No issue of politics, no questions of the post-war status of Palestine, of Zionist demands must be raised at this time to obscure the desperate situation. Jews about to die seek only refuge, not political assurances.

Today Palestine is to Balkan Jews what the British coast-line was to Dunkirk.

The United States has pledged itself to speed the evacuation of all who are fortunate enough to reach a friendly port or a friendly border.

If your government cannot actively help in the work of rescue, Mr. Prime Minister, for God's sake let it stand aside—let it cease to bar the pathway to safety.

To open the gates of Palestine in this last hour is to follow in the best traditions of England.

To bar all Jewish escape into Palestine, in this last hour, is to betray these very traditions.

WHERE DO YOU STAND?

In this hourly fight against extermination the enemies fight with poison gas and torture with every brutality. The weapons of humanity are more limited. They are your determination and your good will—and every small contribution of time and money that you can possibly spare.

We operate solely through voluntary contributions. By your support will be determined the speed, scope and effectiveness of our fight to save the Jewish people of Europe.

making the weekly service schedule 54 hours. This modified plan is the issue of a court battle between the Uniformed Firemen's Association and the Commissioner, the Association claiming that the Commissioner is without legal right or authority to compel an increase in the hours of service.

Continuous Hours

The court decision in this legal battle will have far reaching effect, for if it goes against the Uniformed Firemen's Association and for the City, there seems to be indication of a sudden return to the continuous service schedule which was in effect in World War No. 1, under which the uniformed men serve continuously for 9 days in stretches of 24 hours and have each tenth day off.

Fire Department circles seem to feel that 3500 to 4000 men is sufficient for the proper manning of all fire houses under the old system in which almost one hundred years of progress will be lost to the city's firemen.

\$1,000,000 in Accruals

An interesting sidelight in the entire situation is the fact that in view of the vacancies which exist in the department there were accumulated accruals from unexpended salaries of more than one million dollars in the fiscal year. It is reasonable to expect that these accruals will increase with the increasing numbers of vacancies.

HOLY COMMUNION FOR STATE FUND EMPLOYEES

A large attendance of State employees featured the seventh annual corporate Holy Communion and breakfast of the Catholic employees of the State Insurance Fund, held Sunday, April 16. Mass was celebrated at the Church of the Holy Innocents and the group breakfasted at the Hotel Piccadilly. Robert Hurley, senior methods examiner, is president of the organization.

MAIL BAG

Dear Vets Column:

Under what circumstances will the Civil Service Commission take steps to confer a classified civil service status upon an employee about to leave for the armed services? I expect to leave for service shortly and am employed with the V. A. at 346 Broadway.

VET EMPLOYEE

Dear Vet Employee:

From Civil Service Rule VIII, Section 5, the Commission may upon the request of the employing agency confer classified status in the following instances . . . temporary employee, who became eligible for probational appointment (that is, temp. appointees who were within reach on a list of eligibles, for probational appointment) and permanent employees who were reached for probational appointment prior to March 16th, 1942. For further data on this topic, the Commission has published a pamphlet entitled "From Military Service to Civil Service" which may be obtained by writing
