We didn't have to do much poring this week before we found something that we are sure will Here it is, in toto, from the University Daily Kansan:

There is a tendency at the Uni-

versity for two students to fall in love with each other, and since one of these may be a girl and the other a boy, it sometimes happens that they decide to get married. Recognizing this situation, Kansas experts on love and marriage have prepared a quiz to show if two people are really in love, believing that emotion is an essential to a happy marriage.

Here are the questions: 1. Do you sit together at movies? If you don't, it may be that you are drifting apart. On the other hand, the theater may be crowded. 2. Do you go out as often as seven nights a week? If you do, it's possible that you're in love. It's also possible that you're going
