This is really great programmatic news!

Congratulations to colleagues in our Department of Electrical and Computer Engineering in the College of Engineering and Applied Sciences on the final New York State approval and registration of **Master of Science (M.S.) and Doctor of Philosophy (Ph.D) Degree Programs in Electrical and Computer Engineering!** Formal State approval correspondence is attached for your reference, along with the program proposals. The faculty are now authorized to promote and deliver these new programs to students.

I ask that responsible colleagues receiving this notice, as appropriate to responsibilities, take actions as warranted to establish the new M.S. & Ph.D. program listings in the Grad Bulletin and University administrative systems. Thank you and successful implementation to all involved.

Jon Bartow
