CSEA Wins Bout With Automation; Saves More Than 200 Jobs

ALBANY, May 14—Four tabulating machine operators in the Albany Division of Employment, whose jobs were feared lost to automation, will be retained by the Division in comparable clerk titles, it was announced at a meeting of Civil Service Employees Assn. officials and DE and Civil Service Department representatives here last week.

The four machine operators were the remainder of a group of more than 200 employees whose jobs were in jeopardy as the result of the pending installation in 1959 of electronic data processing (EDP) systems in the Division of Employment.

CSEA headquarters staff and members of the Albany DE chapter began formal negotiations with the Division and the Civil Service Dept. at that time and were able to pare the original estimate of more than 200 dismissals to the four machine operators.

How It Was Done

These four—two principals and two seniors—will be kept on in principal clerk and senior clerk titles respectively with one reduction in grade. They will go on a preferred list of their former titles and will be eligible for openings that occur in all state agencies. Their new appointments are effective May 17.

The Division, which had cooperated with CSEA since the prospective effects of EDP on employees was first known, was able to whittle the layoffs by elimination of overtime and, with the approval of the Civil Service Dept., by holding off permanent appointments to titles which the Department felt would be affected by installation of the EDP systems.

Joseph F. Felly, president, led the CSEA contingent at last week's meeting. He was accompanied by Joseph F. Lochner, CSEA executive director; Harry W. Albright, Jr., CSEA counsel, and F. Henry

Arthur Miller In Race For Suffolk Prexy

Arthur Miller of Sayville, a former president of the Suffolk County chapter of the Civil Service Employees Association, is again a candidate for that office. The Leader learned last week.

In a story submitted to The Leader earlier, Miller was not listed. He is opposing Thomas B. Dobbs, president of the Islip Town CSEA. There are no contests for the other officers.

Miller was an original member of the Suffolk chapter and served as its president from 1955 to 1960. He is director of the Division of Assets and Resources for the Suffolk County Welfare Department.

The new officers are to be installed at the Suffolk County chapter's annual dinner meeting May 26. Miller wrote The Leader last week saying "I'm running for that office (president) against Tom Dobbs and have no plans to concede before the ballots are in and counted."

DeLong, Walker Head West Conf. Election Slate

George DeLong and Raymond Walker will head the slate for the next election of the Western Conference, William Rossiter, incumbent president, announced last week.

Other candidates are John Hennessey and John Dee, first vice president; Melba Binn and Elmer Ellis, second vice president; Irene Lavery and Irene Kohl, secretary; Kenneth Tice and Sam Seuer, treasurer. Nominations can also be made from the floor at the next interim meeting of the Conference in Batavia.

The next general meeting of the Conference will be held at Craig Colony and Hospital, Sonyea, on June 9. Registration will start at 12:30 P.M. in Shanahan Hall. Dr. V. I. Bonafede, hospital director, will speak at 1 P.M. A tour of the buildings and grounds will follow. The State group and County delegates will then have separate meetings.

Reservations for the dinner session—at \$4—must be made by May 25 and can be arranged by writing to Paul J. Hally at the hospital.

More than 100 delegates attended the last session of the Conference in Buffalo an dreviewed CSEA gains and goals of the past few months. Improvements in salaries, retirement benefits and working conditions were discussed by representatives of more than 29 Conference chapters.

Galpin, assistant executive director; John Wolff, CSEA's Department of Labor representative; Robert Gaudette, president of the Albany DE chapter and Edward Haverly, chapter vice president.

The Rockefeller Election—Victory Or Containment?

WHO WILL BE ROCKEFELLER'S opponent in the New York gubernatorial race this fall?

THE ANSWER IS OF AS MUCH concern in the White House as it is in New York State Democratic circles. Why? Because President Kennedy must be thinking about two states in particular whose election results could lead directly to naming the GOP candidate for president in 1964. It can be reported that Kennedy feels Nixon out in California will not be too hard to beat. The thinking on Rockefeller, however, is not in terms of defeat — although this is the goal — but containment.

IF ROCKEFELLER'S plurality in the next governor's race falls far below his 1958 mark, Kennedy will see the New York Republican as either a weak candidate for the GOP nomination or out of the picture all together. A strong showing, however, would mark Rockefeller as the man to lead his party in 1964 and a man Kennedy will have to think about every day until 1964.

THE MEN AROUND THE President are happy with the current feeling among voters concerning Kennedy's leadership of the nation. The recent steel clash with Blough of U.S. Steel over price raises in the industry ended in Kennedy's favor mainly because of Blough's inept handling of the situation.

The Veteran's Counselor

By FRANK V. VOTTO

Director, New York State Division of Veterans' Affairs
Questions on veterans' and servicemen's rights will be answered in this column or by mail by the State Division of Veterans' Affairs. Address questions to Military Editor, The Leader, 97 Duane Street, New York 7, N. Y.

Veterans' Questions Answered

I am still on active service and am being transferred to another section of the country. Since I must sell my GI-loan purchased home due to this move, may I have my VA entitlement to a new GI loan restored?

Only if VA is relieved of responsibility on your present mortgage. The purchaser of your home may assume the responsibility.

Who gets the money allowance from VA where a child is taking courses under the War Orphans Education program, the student or the parent or guardian?

Usually the allowance is paid to the guardian of the young man or woman going to school. There are, however, cases where the money may be paid to the young person directly.

I understand children of some deceased peacetime veterans may now be eligible for schooling under the War Orphans Education Act, as a result of a new law. What determines the eligibility of the child of a deceased veteran who served in peacetime?

The peacetime veteran parent's death must have been caused by the actual performance of military duties or by extra-hazardous service, and eligible children must generally be between 18 and 23 years of age.

Now that the right to apply for a GI loan has been extended for World War II veterans, I may want to get a loan to go into business with a friend who is not a veteran. Is this possible.

Yes. You may join with a non-veteran in obtaining a loan. However, the amount of the loan on

which VA guaranty or insurance can be based will be in proportion to your interest in the loan. VA cannot guarantee any part of the loan which represents the non-veteran's contribution to the business.

I'm about to start on-the-job training under the Korea GI Bill. How many hours a week are considered to be full-time training?

Full-time training is considered to be the standard workweek of the firm where you are taking your training. However, it generally may not be less than 36 hours a week.

My husband died in active service and I receive monthly checks from his GI Insurance. If I remarry, will I lose the balance of the insurance or am I still eligible to receive it?

You are still eligible. A widow's remarriage in no way voids her entitlement to the insurance proceeds.

Is it true that VA hospitals welcome volunteer workers, and what do they do?

Volunteers are welcome. They serve the veteran patients in many ways—reading to or writing letters for the bedridden; pushing wheelchair patients to and from libraries, chapel, etc., doing errands or just improving patient moral by chatting with lonely individuals. See the director of any VA hospital for further information.

Although I was only married to a veteran for two years, we had twins shortly before he died. Is it true that I cannot be considered his "widow" for VA benefit purposes unless I had been married to him for at least five years?

Police Conference To Present Awards To State Legislators

Plaques and certificates of appreciation will be awarded several senators and assemblymen of New York State for their active support in the Legislature to improve law enforcement in the state, according to Al Sgaglione, President of the Police Conference of New York, Inc.

The mementos will be presented to the legislators during the Police Conference's 37th annual convention May 21 through May 24 at The Laurels, Sackett Lake, Monticello.

More than 600 delegates from 200 Police Benevolent Associations in the state will attend the annual convention. The Police Conference represents 50,000 professional

career policemen in New York State.

Governor Rockefeller, Lieutenant Governor Malcolm Wilson, Attorney General Louis Lefkowitz and Comptroller Arthur Levitt will be among the guest speakers at the convention banquet on May 21.

Bill Signed Allowing Retirees To Earn \$7,000 Teaching

ALBANY, May 14—Retirees who are employed or may be hired as substitute teachers in publicly-supported schools and colleges will be able to earn up to \$7,000 a year without loss of pension, under legislation signed by Governor Rockefeller.

The bill was introduced by Assemblyman Louis Kalish, Brooklyn Democrat, and was approved by the Governor.

In signing the Kalish bill, Rockefeller voted two similar bills as unnecessary.

He said the third bill, which he signed, extended the terminal date of Section 151 of the Civil Service law to June 30, 1963, and in addition increased from \$6,500 to \$7,000 the maximum annual compensation earnable by such public pensioners.

The present maximum salary for substitute teachers is \$6,810.

Your Public Relations IQ

By LEO J. MARGOLIN

(Mr. Margolin is Adjunct Professor of Public Relations in the New York University School of Public Administration and is Vice President, Public Relations, of A. J. Armstrong Co. Inc., nationwide financial-organization.)

The P.R. Bank

GOOD PUBLIC relations can be "banked" and saved for emergencies as readily as money. Just as savings can be drawn upon when the economic going gets tough, so can good public relations be tapped from the "bank" to achieve an emergency objective.

WITHOUT passing judgment on the right or wrong of the action itself, we can tell you that President Kennedy was able to impose a price rollback on the U.S. Steel Corp. only because of the sizable good public relations balance he had "banked" during 17 months in office.

IT IS A sound public relations lesson, which anyone in the public service or in business can memorize profitably.

THE FORMULA is simple: When things are running smoothly, build up as large a reservoir of good public relations as possible. Make it the tallest, broadest, most substantial stockpile of good public relations that can be stored.

PERFORM with maximum efficiency in the public interest, making certain that this excellent performance is effectively communicated. Don't look for medals, blue ribbons, awards, or scrolls. Just do the job superlatively.

THEN IF a storm breaks over your agency's or corporation's head, you will have a huge stockpile of good public relations to draw from the "bank."

REGARDLESS of one's political persuasion, communications experts will tell you that President Kennedy is too astute a public relations practitioner to have attempted a "big stick" treatment on U.S. Steel, unless he was 100 per cent certain that his "banked" reserve of good public relations was tremendous. Thus he could make a withdrawal from the "bank" without jeopardizing his

public opinion standing.

ANY ALERT citizen, whether Republican or Democrat, knows the tremendous pressure that only the prestige of the President of the United States can exert. Before applying this pressure, the President carefully checked the public opinion polls concerning his own popularity. He tapped his personal public sources throughout the country to determine how tough he could really get, and still keep a safe margin of good public relations in his "bank."

WHEN HE was absolutely certain that he had a huge public relations "credit" in his PR "bank," he moved.

WHETHER history will prove him right or wrong, his success is now public relations history.

Over 150,000 HIP Members Get Vaccine

Bill to Allow More Unclassified Jobs In Towns Is Vetoed

ALBANY, May 14 — A bill that would, if approved, have permitted municipalities to add "unlimited positions" to the unclassified service was vetoed by Governor Rockefeller during the 30-day bill-signing period.

The measure provided that the unclassified service should include all heads of departments created by the Legislature or by local law. Rockefeller noted that the courts had upheld such classification under existing law, and added:

Called "Unsound"

"The bill, as worded, however, would have the further effect of permitting municipalities to add unlimited positions to the unclassified service simply by declaring that a newly-created office is a 'department,' regardless of its size of function."

The Governor concluded: "Such a result would be unsound and contrary to well-established Civil Service principles."

Federal Employees Can Reduce Auto Insurance Costs

As a result of a recent change in the Federal Tort Claims Act, Federal employees no longer will have to carry and pay for liability insurance providing coverage while they are using automobiles on U. S. Government business.

This announcement was made recently by the National Bureau of Casualty Underwriters on behalf of its 250 affiliated companies.

The NBCU explained that an amendment to the act, which became effective March 21, 1962, makes suits against the United States the exclusive remedy for bodily injury or property damage resulting from the operation of a motor vehicle while acting within the scope of his office or employment.

Formerly the employee could be held liable for damages and usually carried insurance protection against this liability, the NBCU said.

Governors Island Aide Saves Time, Earns Money

A civilian employee of the U. S. Army on Governors Island has turned in a suggestion for saving the Army's time, and has earned a cash award for it.

Hugh J. Kane, an administrative assistant in the Advisory Services Division of the First U. S. Army Finance and Accounting Section, suggested eliminating a round trip between First U. S. Army installations and the Army Finance Center in Indianapolis for certain travel vouchers.

Formerly these vouchers were applied for to the Center, came back to be signed, were returned to the Center, whereupon payment was made. Now applications go to the Center and payment is returned, cutting down mailing time, paper work and improving service.

Presentation of the award check and Department of Army Suggestion Award Certificate was made by Colonel Laurence T. King, First Army Finance and Accounting Officer.

Postal Employees Meet in Washington With U.S. Officials

The United Federation of Postal Clerks met in conjunction with the American Federation of Government Employees, the National Association of Special Delivery Messengers and the National Federation of Post Office Motor Vehicle Employees at the Department of Commerce auditorium in Washington recently.

The meeting was a joint legislative and labor-management conference, and was attended by 4,000 delegates from the various organizations.

The principal speakers were George Meany, president of the AFL-CIO; Postmaster General J. Edward Day; Secretary of Labor Arthur Goldberg; Senator Olin T. Johnston, chairman of the Senate Post Office Committee; and Congressman James H. Morrison, author of the postal pay bill.

Presiding at the meeting was Roy Hallbeck, president of the Clerks. He is also chairman of the 700,000-member Government Em-

ployees Council.

Sol Schiffer and Joe Masiello of New York City Branch 1, Local 10, of the clerks group, condemned the Post Office "guide lines" practice as creating sweat shop conditions and urged passage of the Morrison pay bill, plus level 5 for all clerks.

Shipyards Employees Get \$2,500 In Suggestion Awards

Fifty-one employees of the New York Naval Shipyard, Brooklyn, shared \$2,500 in regular monthly awards last week for adopted beneficial suggestions.

The employee ideas are credited with saving the Navy a total of \$34,560.

Two machinists, Henry Weber, 30, and Anthony Vivone, 29, teamed up to earn the top award of \$750. This rates as the second highest in Shipyards history.

In their joint suggestion effort, Weber and Vivone proposed that balancing of oil purifiers be done by the Shipyards rather than by the manufacturer. This is now being done with an estimated annual saving of \$18,844.

Another top award winner was leadingman machinist Max Hechtman, whose adopted idea netted him \$240. Hechtman suggested a method for machining keyways and securing keys in catapult covers for the aircraft carrier Constellation. As a result, he is estimated to have saved the Navy \$4,743.

BRIEFS COMMISSIONER — A few days before research pilot Joe Walker, right, made his record-breaking 46.7-mile ascent in the X-15 rocket plane at Edwards Air Force Base, he briefed visiting Civil Service Commissioner Robert E. Hampton, second from left, on experiments with the X-15. Now chief of the Research Pilots Branch at NASA's Flight Research Center, Walker entered Federal civilian service as a physicist with the National Advisory Committee for Aeronautics in 1945 and has been flying experimental planes since 1951. Also pictured are Peter Risty, left, of CSC's Los Angeles branch office, and Philip Walker, Personnel Officer of NASA's Flight Research Center.

Shipyards Plans Open House For Armed Forces Day

Ships, exhibits, a guard mount and music will all play a major role in this year's Armed Forces day observance at the New York Naval Shipyard, Brooklyn.

The huge Brooklyn installation will hold an open house for the public Sunday, May 20. Visiting hours have been set from 10 to 4 p.m.

During this period, visitors will be permitted aboard three vessels berthed at the Shipyards. These are the experimental ship Compass Island, which has a key role in the Navy's Polaris missile program; the Coast Guard ice breaker Westwind, a veteran of many Arctic voyages; and the destroyer Joseph P. Kennedy Jr., recently modernized by the Shipyards and named for President Kennedy's brother who was killed in action with the Navy during World War II.

In addition, the aircraft carriers Constellation and Essex may be viewed, although urgent work on both precludes actual visiting aboard.

Health Plan Downed By Election Politics

ONCE again the public employee is learning that campaign promises are about as usable as Confederate money.

When running for office last fall, Mayor Wagner assured New York City employees that, among other things, they would have a choice of health plans, filing fees for City jobs would be dropped and job benefits would be increased.

After stalling on the health plan choice for months, Deputy Mayor Edward Cavanagh announced last week at a Board of Estimate meeting that the matter was being laid over without date. He declared that "the Mayor has the problem of inadequate funds during the coming year and needs additional revenue."

Well, the Mayor can get additional revenue if he wants it but you can be sure that he won't seek it with an election in the offing this fall. This means that not only the health plan choice might as well be forgotten for the time being but any action on filing fees, salary adjustments, etc.

Some vetoes by Governor Rockefeller, originating more from politics than the merits of the legislation that he killed, hasn't helped the situation any.

Any way you look at it, the public employee is being unjustly stalled until politics are out of the air. The moral of the story is to get your promises turned into action BEFORE an election takes place.

How To Win A Bout With Automation

Automation need not be the unemployment spectre it has become. A way of avoiding the depressing effects of the technical age was illustrated last week by the Civil Service Employees Assn. Its answer? Think ahead.

Back in 1959, the Employees Assn. learned that more than 200 jobs in the Albany Division of Employment offices would probably have to be eliminated as the result of new Electronic Data Processing equipment, the installation of which was decided upon that year. It started work at once to save those jobs and, with the cooperation of the Division of Employment and the Civil Service Department, managed to keep every single person affected by automation in State employment.

This was done through transfer, putting the affected personnel in new jobs and trimming overtime work in the Division. But none of this could have been accomplished without intelligent planning and action right from the beginning. The CSEA was not fighting automation—it was battling unemployment.

We congratulate all concerned for thinking of humans while installing machines.

Calls 'Federal Wife' Wrong, But Claims An Injustice Exists

Editor, The Leader:
"Federal Wife" (Leader, May 1) is incorrect if she thinks that war veteran's status is only given to those who have served in active combat.

However, to be recognized a war veteran, you must have served in war time, and if you have served only in peace time, then you are clearly not a war veteran, even if this service was after a war in an army of occupation.

If the Federal Government has slightly different rules, and her husband, by qualifying under these rules, was able to get a federal job and now reaches retirement, that does not mean that New York State must now follow suit and extend to her husband the same privilege.

I can only answer her question "Yes, this is fair!" However, in my own case the situation is much less fair.

I am a New York State Civil Service employee and a veteran of World War II, having served from 1942 to 1946, from 1944 overseas. Yet on a promotional examination I am not entitled to veteran's preference, because, for a brief period prior to entry into the Army, I was not living in New York State.

I have asked my State Senator to introduce legislation to change this discriminatory law, but he refused. He is afraid that to allow veterans like myself veterans preference would entail an influx of job seeking veterans into New York State.

This is outright ridiculous. Nowadays residence in New York State is no longer a requirement for a job with New York State, and many commuters living in other states are employed by New York State. Yet I, a New York resident, a real war veteran, and a Civil Service employee, am denied Veteran's preference.

Civil Service LAW & YOU

By HAROLD L. HERZSTEIN

Herzstein is a member of the New York bar (The views expressed in this column are those of the writer and not necessarily constitute the views of this newspaper or of any organization.)

Where Do You Live?

WE TEND to think that all changes in civil service are found in the Civil Service Law. Of course, most of them are. However, every now and then we find an important civil service provision elsewhere. Did you ever hear of the Public Officers Law? Well, in the last few years there have been some important changes in it on the subject of where firemen and policemen must live.

ON APRIL 30, 1960, a new provision was written into the Public Officers Law. Up to then, a policeman had to live where he worked. The new law provided, as to policemen only, that an office should not be deemed to have been vacated if the incumbent ceased to be a resident of the political subdivision provided that he resided in the county in which the municipality of whose force he was a member is located, or in a county of the State contiguous to that county or in a county contiguous to that municipality. (Section 30.)

IN OTHER words, if a man were a policeman on a force in City A or Village B, he did not have to live in that city or village. He could live in any county which adjoined the county in which city A or village B was located, or in any county which adjoined the city or village.

Sentiment For It

THERE WAS a lot of sentiment for the new legislation. Let us see what was happening.

WHEN THE bill was pending before the Governor, he received a memorandum from the Department of Civil Service in which it wrote, as follows:

We feel that local residence requirements reflect an outdated provincialism which operates to the detriment of the public service and is no longer justified.

THE GOVERNOR responded warmly. In approving the bill, he wrote:

The bill will permit police officers of a municipality to reside in county contiguous to the municipality, or to reside in a county contiguous to the county in which the municipality is located.

I believe that our laws must be updated to recognize present living patterns. The fact is that our living patterns have changed substantially.

More Than Sentiment

THERE IS a growing desire for the growth of this legislation. I give you a quick idea of it.

DURING THE 1962 legislative session, the new law has become very popular and was extended. For example, it was made applicable to firemen of New York City, and permits them to live in counties not more than fifteen miles from New York City, by a bill introduced by Assemblyman Bonom (Ch. 976). Assemblyman Nowiski's bill, which became law also, provided that a patrolman's residence might be in a county which is contiguous to a county which is less than ten miles from the city or village in which the employment occurs (Ch. 248). Mr. Barrett's bill extended that mileage to fifteen (Ch. 969).

THE LAW has been and constantly will be extended. The idea is to spread the place where policemen and firemen may live. I am for that and for bills affecting other employees too. I hope that the right people start to think about them.

Social Security Questions Answered

Below are questions on Social Security problems sent in by our readers and answered by a legal expert in the field. Anyone with a question on Social Security should write it out and send it to the Social Security Editor, Civil Service Leader, 97 Duane St., New York 7, N. Y.

Is it true that a worker, regardless of his age, may qualify for a monthly disability benefit as early as November 1960 even though he delays filing his claim until sometime in 1962?

False. For a disabled worker under age 50 to become entitled to a monthly benefit beginning with November 1960, he must have filed a claim no later than November 30, 1961. A delay in applying beyond June 30, 1962 may result in a loss of all rights to present and future disability benefits.

I plan to continue working this year at a lower rate of pay. My earnings in 1962 will be under \$2,000. Will I have to wait until

1963 before I am eligible for payments?

If you can give us an estimate of your 1962 earnings, some payments may be due this year. You can estimate the number of payments due you by applying the following rule. For each \$2 of yearly earnings above \$1,200 and up to \$1,700, \$1 is deducted from the social security payment due you; for each \$1 over \$1,700, \$1 is deducted.

I am a car dealer and hire 20 people. One of the employees is my father, who works full time as an office manager. Do the 1960 changes in the social security law make it possible for him to get credit for his work now?

Yes. Starting January 1, 1961, his work is covered by the social security law since he is working for you in the operation of a business. Beginning January 1, 1961, either a mother or a father can get social security credit for work done in the business or trade of a son or daughter. The work done by a parent in or about a son's or

daughter's house, however, is still not covered by the social security law.

I am thinking about signing up for my social security when I reach 62 in October. If I find a job and decide to go back to work later, how will this affect my checks?

Any checks due you before age 65 will be paid at the same reduced rate. When you reach age 65, your checks will be refigured to include your additional earnings. However, there will still be a slight reduction. You must, of course, notify us as soon as you return to work.

When and where does an employer file the social security tax return on wages paid to a domestic employee?

The returns are filed within one month after the end of a calendar quarter with the District Director of Internal Revenue. For example, the return covering cash wages of \$50 or more paid a household worker during January, February, and March 1962, is due by April 30, 1962.

Filing Closing Sunday For School Crossing Guard Jobs, \$1.75

Filing will close on Sunday night for part-time jobs as school crossing guards, according to the Police Department's School Crossing Guards Bureau. The exam to fill these positions, which pay \$1.65 an hour to start, will take place on May 26.

School crossing guards are responsible for protecting children at designated traffic spots. The work is part-time during a five-day week throughout the school term. An average day involves an hour of duty in the morning and in the afternoon, with a two-hour tour at noontime.

It is desirable that guards live no further than one third of a mile from their assigned crossing, since duties require them to commute from home three times a day. Successful candidates for these positions will receive training course at the Police Academy prior to a regular assignment.

Requirements

Applicants must be U.S. citizens between the ages of 25 and 50. Female candidates may not be less than 5 feet 1 inch tall; males not less than 5'5". Weight should not be abnormally out of proportion to height. Other prerequisites are good hearing, a grammar school diploma or the equivalent, 20/40 vision with glasses, and good character. It is stressed that anyone presently employed by the City of New York is not eligible. Interested persons may apply now at their local precinct station house. Candidates may select as many as four school crossings at the time of application, provided each is within one-third of a mile of his residence.

The examination will consist of a medical examination, character investigation, and oral interview, along with the previously mentioned written test. Applicants will be notified by mail concerning the exact time and place.

The Department gives all guards a uniform allowance of \$15 after six consecutive months of service within a fiscal year.

CSEA & Reform Assn. Cooperate In Defeating Bill

Albany, May 14—The Civil Service Employees Association joined hands with the Civil Service Reform Association to defeat legislation that would have placed urban renewal directors in the exempt class of civil service.

Governor Rockefeller, in vetoing the bill, noted the two groups had urged disapproval of the measure and added that the bill contained defects, saying:

"... It imports a novel concept into local governmental acts, which could serve to invite selfish efforts to obstruct and delay urban renewal activities undertaken in the public interest."

City Motor Vehicle Operator Jobs Open For Filing in June

The big New York City exam for motor vehicle operator, which was scheduled to open for filing in March and then was canceled, is now set for filing in June.

The jobs are in almost all departments of the City government. They pay a top salary of \$102 a week.

There were no education or experience requirements for the last motor vehicle operator test, and there is no reason to expect any change in the exam particulars.

There was no age requirement for that last test. And candidates were required to have a valid chauffers license by the time of their appointment.

The current eligible list for motor vehicle operator was set up in February of 1959 and will expire in February, 1963. Thus by the time the list from this exam is established the other will be nearly expired.

The written test, to be held sometime in the fall, will be designed to measure candidates' knowledge of motor vehicle operation, judgement and ability to follow direction.

There are 70 provisionals serving in the title now, and there are 200 budgeted vacancies. This means that 200 more jobs may be filled during the year, pending the budget director's approval.

During June, official announcements and application blanks will be available from the Applications Section of the New York City Department of Personnel, 96 Duane St., New York 7, N.Y.

Social Investigator Trainee Jobs Set; Immediate Placement

Successful candidates for positions as social investigator trainees can expect almost immediate placement.

The New York City Department of Personnel is offering examinations for these \$4,850 positions on a continuous basis.

After a year of satisfactory training, social investigator trainees will receive regular appointment to the title of social investigator at \$5,150 to \$6,590 a year.

A baccalaureate degree issued upon completion of a four-year course in an accredited college is required for the position. A college series application form must be filed by the applicant.

Under close supervision, a social investigator trainee receives training and performs beginning level work in investigating need and determining eligibility for public assistance.

A written test will count for all of the total grade and 60 is the passing mark. The test will be of the multiple choice type and will include questions on general in-

telligence, dealing with people, cepts and general background in psychological and sociological conformation.

Applications can be filed, in person only, on each Tuesday between 8:30 and 9:30 at 241 Church St., second floor. The test will be given on the same day. Candidates who have failed a test in the title in the preceding six months will not be eligible to take the written test.

Applications are available at the Applications Section of the Department of Personnel, 96 Duane St., New York 7, N. Y.

Stockholders aren't uncommon today, either! Surveys show the majority of stock in our nation's corporations is owned by plain, everyday folks.

Con Edison, for instance, has over 194,000 owners — and more than 90% of them are individuals. People like schoolteachers, firemen, nurses, clerks, businessmen, homemakers who have invested part of their savings in Con Edison.

It would take three Yankee Stadiums to hold all Con Edison stockholders. That's a lot of owners. But it takes a big company and a big investment in plants and equipment to serve New York City and Westchester.

Coney Island Hospital Needs Staff Nurses

Dr. Ray E. Trussell, Commissioner of Hospitals, made an urgent appeal this week for professional registered nurses and licensed practical nurses to accept positions in the modern, 280-bed public home infirmary connected with the Coney Island Hospital in Brooklyn. This infirmary has been operating on a limited basis and cannot be expanded to serve the very large number of elderly persons sorely in need of care, due to a lack of nursing staff.

The hospital needs nurses for all tours of duty. Annual salary for the staff nurse begins at \$4,550 and goes to \$5,990; a head nurse starts at \$5,150 and receives a maximum of \$6,590, and a supervisor of nurses begins at \$5,750 and goes to \$7,190.

The licensed practical nurse salary starts at \$3,500 and reaches maximum of \$4,580. In addition, the professional nurse receives \$400 annually, pro-rated monthly, for evening duty or \$250 for night duty. At this time, practical nurses receive \$180 additional per annum for the evening shift and \$90 for the night shift. Benefits include a four-week vacation, 11 legal holidays, and an annual sick leave allowance of 12 days.

There are a limited number of modern living-in accommodations available in the main building of the hospital for those nurses who prefer to live in, Dr. Trussell said.

Applications should be made to Mrs. Mary Joyce, Director of Nursing, Coney Island Hospital, Ocean Parkway and Avenue Z, Brooklyn, New York, or to Dr. Eva Vandow, senior medical superintendent of the hospital. The telephone number is SHEEPSHEAD Bay 3-4100.

Chemung Sets Installation For May 22

Clifford H. Gridley of the State Building Department has been elected president of the Chemung County chapter of Civil Service Employees Association.

Other newly elected officers are: vice president, Mrs. Helen Weale; second, vice president Edgar S. Chapman; third vice president, Donald L. Marvin; recording secretary, Mrs. Rita Powell; corresponding secretary, Mrs. Gladys Aston; treasurer, Mrs. Helen Decker; representative, Mrs. Ruth Golos.

Gridley and the other officers will be installed at a dinner meeting on Tuesday, May 22, at Lib's Supper Club.

Mrs. Isabel Lynch, chairman of the installation dinner, has announced that all employees who have retired from service during the past year are to be honored at the installation dinner. Allie Quatrano, city recreation director is co-chairman of the dinner. Judge John D. Frawley, recorder, City of Elmira, will serve as master of ceremonies.

DON'T REPEAT THIS

(Continued from Page 1) BUT THE BUSINESS MEN advisors around Kennedy are pointing out to him another factor that the President's theorists have overlooked. The stock market is no longer the province of 50 or 100 men sitting around the old Waldorf-Astoria Hotel. It is the domain now of some 16,000,000 Americans and their families who own stock directly, and millions more through mutual fund shares, and Kennedy is being told that the current state of the market—tumbling for months—can work against him. Some have declared that the President might not have beaten Nixon in 1960 if Nixon had had a good stock market in the September before the election. It's all guess work but this is what the President is hearing.

In Senate races Kennedy has to win for cabinet member Awo Ribicoff in Connecticut, brother Ted in Massachusetts,—both important to his prestige.

THE KENNEDYS, BOTH THE President and brother "Bobby," who is unquestionably Number Two man in the country today, won't wait until this fall in making their presence felt in this state. Unlike old time politicians who worry about winning elections two months before the occur, the Kennedys like to win their points each month. This column predicts, therefore, that the Kennedys will move in some fashion to strengthen the business atmosphere and the market before November and to give strong aid to the Democratic state candidates. This is necessary in New York to reduce Rockefeller strength among the voters and eliminate him as a strong contender for the Presidency in 1964.

DEMOCRATIC CANDIDATES for the state's top offices are in abundance, but at present writing the lead appears to be held by Paul Screvane, president of the New York City Council. The "poor

boy" who made it on his own running against a billionaire's son for the governorship presents an attractive picture to many Democratic bigwigs. Coupled with his street cleaner-to-top-official rise is his Italian, Catholic background. The upstate area could be taken care of by putting "hopeful" Sam Stratton of Schenectady on the Lieutenant governor spot. Many would like to see the UN's Ralph Bunche run for senator, but in a conversation with this writer last month he was very firm about the necessity for him to stay with the United Nations. DA Frank Hogan wouldn't mind another crack at the job.

IN THE ATTORNEY GENERAL post, Robert Morgenthau, U.S. District Attorney for the southern district of New York and son of FDR's treasurer, Henry Morgenthau, Jr., is a favorite of many of the younger leaders, and Llewellyn P. Young, of Westchester, SEC regional director, could be picked over vote-getter Arthur Levitt in the Comptroller's post unless Levitt is OK'd by Mayor Wagner. This hasn't been decided yet.

Utica Officials Clash Over Appointment Of Three Police Eligibles

(From Leader Correspondent)

UTICA, May 14—City administration officials will ask the state for help in a move aimed at disqualifying three names on a Civil Service eligibility list for police patrolman.

Safety Commissioner J. Carroll Hamlin says two of the men on the list had juvenile and traffic records and third had an unsuitable background involving bad conduct.

However, the Municipal Civil Service Commission has denied Hamlin's request to disqualify the trio.

Rocco F. DePerno, chairman of the commission, said: "We are not going to contaminate three young people for the rest of their lives for some minor infraction."

He said, after what he called a thorough investigation of the cases, that the charges were "minor."

But Hamlin, supported by Mayor Frank M. Dulan, said he would ask the State Civil Service Commission to appeal to the Utica commission to reverse its position. The state unit can not reverse the ruling, but could appeal to the Utica agency, he said.

The safety commissioner said two of the men had replied "no" when asked on their applications whether they had any record.

Dulan said that because of the answers the applications should be "thrown out."

The three applicants are in the top three positions on the eligibility list. As a result, Hamlin plans to name two temporary patrolmen because, as he put, he is "stymied" in making permanent appointments.

Under the law, permanent appointments must be made from the top three on the list.

Hamlin said he would make no permanent appointments until the state took a stand on the local commission's ruling.

The names of the three men were not disclosed.
