## CSEA Board Votes to Recommend Dues Rise; Special Session of Delegates to Be Convened

### CSEA Condemns Salary Results

#### Board's Action Is Unanimous

ALBANY, June 13 — "Dismay" is the growing response of State employees to the recently-revealed reallocation to salaries: this was told the Board of Directors of the Civil Service Employees Association by board members from all parts of the State.

A resolution unanimously adopted, reads:

"Resolved, that the Board of Directors of the Civil Service Employees Association express its complete dissatisfaction with the activities of the Director of Classification and the Budget Director in their recent salary actions; and

be it recommended that power over such salary actions be vested in a group rather than in one man."

The Association, now making a thorough study of all the reallocations and reclassifications, will take strong action. A letter has already gone to the Governor.

#### D. G. HERZBERG NAMED TO BUDGET DIVISION POST

ALBANY, June 13—Budget Director Paul H. Appleby announced the appointment of Donald G. Herzberg, 30, of Pittsburgh, as administrative deputy, Division of the Budget, to succeed Grant F. Daniels, who has been named to the State Liquor Authority. Mr. Herzberg will assume his duties June 15. Salary for the post is \$12,000.

### More State Salaries Changed

ALBANY, June 13 — Through reclassification, effected in conjunction with title changes, six State jobs have been upgraded. Three other titles have been re-allocated upward.

Reclassification involves title change, with or without change of grade; reallocation is change of grade without change of title.

There were two downgradings, but incumbents' pay will not be reduced.

#### Six Raises and Titles Changes

The six title changes, with upward reclassification, and the new pay range, follows:

Associate statistician (insurance), grade 23, to associate insurance examiner (statistics), grade 26, \$7,800 to \$9,340.

Chief, bureau of physical education, grade 24, to supervisor of physical education and recreation, grade 25, \$7,300 to \$8,890.

Property manager, grade 20, to senior property manager, grade 23, \$6,590 to \$8,070.

Senior office machine operator (inserting), grade 7, to senior inserting machines operator, grade 8, \$3,020 to \$3,880.

State laboratory administrative officer, grade 23, to finance office, grade 23, \$6,590 to \$8,070.

Supervising insurance examiner (rates), grade 31, to chief of insurance rating bureau, grade 33, \$11,030 to \$13,140.

The former titles have been eliminated, with other titles for which there has been no substitution made.

#### Three Upward Reallocations

Higher pay results from the following reallocations, additional to those announced by the State on May 18 last (new pay range listed):

Deputy superintendent and counsel, from grade 34 to grade 35, \$12,230 to \$14,490.

General manager of Thousand Islands parks, from grade 22 to grade 23, \$6,590 to \$8,070.

Secretary, Department of Civil Service, from grade 14 to grade 16, \$4,580 to \$5,730.

#### Title Changes Only

The title of administrative officer, Rent Commission, was changed to finance and personnel officer, and left in grade 25, while that of associate pathologist became assistant director of plant industry, and left in grade 23.

#### Two Downgradings

The two instances of downgrading under the reallocation, additional reallocations follow:

Assistant general manager, Niagara Frontier parks, from grade 24, \$6,940 to \$8,470, down to grade 23, \$6,590 to \$8,070.

Principal mental health consultant, from grade 33, \$10,470 to \$12,510, to grade 27, \$8,090 to \$9,800.

### Based on Higher Costs, Increase in Services

ALBANY, June 13—An increase in the annual membership dues of the Civil Service Employees Association will be recommended to the organization's delegates at a special meeting to be called for purpose of considering a dues rise.

The Board of Directors last week approved a motion to recommend a dues figure not in excess of \$10 per year per member. There was substantial agreement among the Board members on the need of an increase, but diversity as to the exact amount. Figures of \$7, \$7.50, \$8, and \$10 were suggested as "right," and some board members felt that public employees would accept even a higher dues figure for services rendered. A few of the county representatives, on the other hand, suggested that only the dues of State division members be boosted, to \$6, so that it could equal the amount now being paid by county members.

The final motion, passed by a narrow margin, included the phrase "not to exceed \$10."

#### Few In Opposition

Significant, however, was the fact that many of those who voted against the motion as it stood requested the secretary to record their "No" vote with a qualification: it did not mean that they opposed the principle of a dues increase. They wanted it clear they were not in opposition.

Each member of the Board spoke on the important issue. And it became apparent that however they felt with respect to amount, or timing, or the calling of a special delegates meeting, there was near-unanimity on the basic problem itself: the need for an increase in dues.

#### Arriving at \$10

The \$10 figure was arrived at through a computation of tentative costs in a document entitled: "Increased present service and new services to members proposed by Association committees, chapter and members during recent years." Among the proposed new services and costs are:

Fund to provide legal advice or representation to protect members against illegal or unjustified dismissal from service.

Additional field representatives. A branch headquarters in New York City.

An assistant to the Director of Public Relations.

An enlarged educational program, for field and headquarters staff so they could more adequately assist employees.

Distribution of an information handbook to chapter officers and committees.

#### Building Up Reserve

Building up of a reserve for an emergency.

Publicity material to educate the public on services rendered by public employees.

Additional staff for membership section of headquarters.

Installation of machine accounting system for insurance accounting, membership recording, billing, IBM equipment.

#### Expanded Legislative Service

Mr. Powers emphasized the fact that this program was tentative, based on recommendations by official CSEA units. In data which he himself has issued, President Powers has also expressed the need for expanded representation before the Legislature, and the need to be ready for strong campaigns to raise pay and improve retirement provisions.

During its debate last Thursday, the Board of Directors did not bring into serious question any of the proposals. Mr. Powers pointed out some of those who objected to certain of the proposals had their own "pet" proposals which they didn't want to have expunged. Several board members did suggest, however, an evaluation of CSEA activities, with the possibility of savings. In reference to this, it was pointed out that all CSEA expenditures were subject to approval by the Board itself.

Increase in cost of Civil Service LEADER, unanimously approved by Board of Directors in contract renewal.

Office space to house additional staff and records connected with expanded program of service.

Purchase of offset printing equipment to enable the issuance of more attractive informational material.

#### Explanation "Sells" It

A number of the Board members commented that their experience so far had been this: when the need for a dues increase is explained, and the new services which it will bring, then members show a readiness to accept it.

#### Delegates Meeting

On the question of postponing the special delegates meeting, and permitting consideration at the regular meeting in October, Mr. Powers said: "If this were voted on October 15, it would take a month to get the new bills printed and distributed. Last year we collected 31,258 memberships in that month."

No date for the special delegates' meeting was set. It will probably be held in the latter part of July.

# THE PUBLIC EMPLOYEE

By JOHN F. POWERS

President

Civil Service Employees Association

## Whenever Dues Went Up, Membership Gained

"I HOPE this Association will go on to ever-greater strength, ever-greater numbers. I would like to see this organization include in its membership all of the civil service employees of the State; you would help yourselves, and the efficiency and effectiveness of the State service would be enhanced."

The above is an excerpt from a speech made at an Annual Dinner of the Association in March, 1935. The speaker was the then Governor of the State — the Honorable Herbert H. Lehman.

At that time there were only about 12,000 members in the Association. The dues were \$1.00 per year. Within six years, approximately 25,000 State employees had joined the Association. One of the important growth stimulants during this period was the abolition of the 72-hour work week in the State institutions. The Association had been struggling for a long time to accomplish this. Before the passage of the Desmond bill in 1936, establishing the 8-hour day for all institution employees, the Association had for many years actively supported this bill in the legislature.

It was in 1943 that the Association again raised its dues to \$1.50. About 28,000 employees were then members. Between 1941 and 1943 many employees had left for service in the armed forces. However, by 1945 the rolls had increased to 29,000, and from that point on the growth upward has been very steady, despite the fact that the dues have been raised twice since 1943. In 1946 they went to \$3.00 per year — the membership was then 30,000, and in 1948 they went to the present \$5.00 and \$6.00 per year, with a corresponding membership rise to 48,000. Since that date to the present — the Association has increased to over 62,000.

It should be noted that whenever the dues were increased, membership gained. With the added income, the Association was able to expand its services.

It could do more for its members.

It could take a more active role in the affairs of government.

It could more adequately represent the employee in his many problems.

It hired a research staff, it started a public relations unit, it established legal counsel in six different parts of the state, it increased its field service staff to handle the problems of 180 chapters.

It could represent the employees before local government boards whether they be in Buffalo or Suffolk County. It could produce more literature on employee and other problems for dissemination to members and public.

These are only a few of the expanded services. Each service was in response to a need and started at the insistence of the membership.

### Room for Growth

Thus in part, Governor Lehman's hope for the Association in 1935, has been realized. There is still room for great growth. There are approximately 200,000 employees, State and local, eligible to join. In the complex government structure of today, a great need exists for employee organization. The greater the strength of the Association, the greater are its accomplishments. By the same token, the expenses of running the organization have increased because of the greater demand for service.

Your Association has had many years of experience — it has officers, committees, and staff which know quite a lot about employee organizations and employee problems. Its list of accomplishments for public employees is long — its failures have been relatively few. Surely now that the Association finds that its income can no longer adequately service its expanding rolls, no one could deny the validity of an increase in dues. The Board of Directors, meeting last Thursday, voted to recommend an increase to the delegates, who will be assembled in special meeting.

This action is the beginning of decisions to make of the CSEA a greater, stronger, more vigorous organization — with financial resources to perform what the employees want and ought to have: more assistance on individual problems; legal protection in the event of unjust disciplinary action; a mighty effort to obtain better pay for each individual employee, at the State and local levels; and an equal effort

to gain an overhand of our antiquated, inadequate retirement system.

As a member of the Civil Service Employees Association, ask yourself this question: "What is a dues increase worth to me, personally?"

I'm sure you'll come up with only one answer. You will say: "I want my organization to have the means to protect and make more secure my own future and that of my fellow-employees. And I'm willing to do my part by accepting the increase in dues to make these things possible."

# MENTAL HYGIENE MEMO

## NEW JOB AT HUDSON RIVER

A NEW POSITION, director of volunteers at Hudson River State Hospital, has been officially set up in the 1955-56 budget of the Mental Hygiene Department on the hospital payroll.

Included for the first time in the personal services budget, the position represents a new policy for the department, recognizing the need for organized volunteer services in a mental institution under a full-time director. Establishment of the position on the state payroll is the result of an 18-month demonstration program carried on at Hudson River State Hospital with the cooperation of the New York State Society for Mental Health.

Duties of the director of volunteers, under the supervision of Dr. O. Arnold Kilpatrick, director of Hudson River, consist of planning, organizing and directing the services of volunteers at the hospital. Another aspect involves acting as liaison between the hospital and the community, recruiting volunteers and interpreting the hospital program.

Experience shows, Dr. Kilpatrick declared in reporting on the demonstration, that a program conducted by a full-time volunteer director "provides new outlets and pleasures in a variety of therapeutic endeavors vital to patient care and recovery."

The experimental program was initiated at Hudson River in October 1953. At that time Barbara Griffiths, a former American Red Cross worker, was named full-time paid director of volunteers at the hospital to carry on a demonstration program. Her appointment, first of its kind in the New York State mental hospitals, was made possible by a grant from the Doris Duke Foundation, NYC. The grant was obtained by the State Society for Mental Health, which sponsored the program.

Miss Griffiths contacted local organizations, explaining the proposed program to over 150 community groups. Volunteers were recruited from schools, homes, industry, business, military and professional groups. They were oriented and assigned to specific projects under the supervision of Miss Griffiths and hospital staff members.

Besides helping on regular services, volunteers assisted patients who the doctors thought would benefit from individual attention. Six months after the program was initiated, there was only one service in the hospital on which volunteers were not being used.

Experience indicates that, as a result of using organized volunteers under the supervision of a full-time director, such activities as recreation, occupational therapy and library services can be considerably expanded.

## NEW SCHOOL FOR RETARDED CHILDREN

GOVERNOR HARRIMAN announced last week that the Department of Mental Hygiene will construct a school for retarded children in the Town of West Seneca, Erie County. Eventual cost of the project will be in excess of \$30,000,000.

A site of from 500 to 600 acres will be required for the school.

The new school will be constructed on a modified cottage plan in which all buildings will contain dining rooms, making it unnecessary for the children to leave their home buildings for meals. The kitchens will be centralized.

The school will also include a hospital to care for the acutely ill, classrooms and vocational training facilities for the educable, a training center for the more severely retarded, facilities for a rehabilitation service for the physically handicapped and a special building for very young children. It is also planned to provide small units for a special psychiatric program for children who show transient emotional disturbances.

It is proposed to develop a large garden to meet the institution's need for fresh produce and to provide truck-farm training.

The new school will serve the counties of Erie, Niagara, Orleans, Genesee, Wyoming, Allegany, Cattaraugus and Chautauqua.

## Milton Schwartz Killed In Automobile Accident

Milton Schwartz, associate attorney in the State Insurance Department, was killed in an automobile accident on the Merritt Parkway, Saturday evening, June 4.

Mr. Schwartz, a NYC resident, joined the department in 1933 as a junior insurance examiner. In 1940 he became assistant insurance examiner, in 1945 senior at-

torney, and last April became associate attorney.

He is survived by his wife and two sons.

Mr. Schwartz, an attorney and certified public accountant, was a past president of the New York City chapter, Civil Service Employees Association. He was widely known to State employees.

### Bendet Lauds Him

Sol Bendet, current president of the NYC chapter, speaking for his chapter, made this comment:

The untimely, tragic death of Milton Schwartz leaves a vacuum that can't be filled. He was one of those rare human beings beloved by all — by his fellow employees, by those whom he met in the course of his work, and by all who knew him. The employees of New York State owe him an eternal debt of gratitude for his labors in their behalf — at a time when the conditions of work were much worse than now, and when the difficulties in obtaining improvements in conditions of work were much greater than now. It is with sadness that I record the feelings of this chapter. To Milton's survivors go our utmost sympathy.

## Court Trial Held on Clerks' Protest Against Promotion Exam

ALBANY, June 13 — The case of clerks in the Division of Employment, State Department of Labor, in NYC, who were failed in an aptitude test for promotion to unemployment insurance examiner, and seek a rerating, was tried by Attorney H. Elliot Kaplan before Supreme Court Justice Isidor Bookstein, who reserved deci-

son. The clerks, many of whom were serving provisionally in the promotion title, objected that a promotion test should attempt to apprise the aptitude of employees who already had proved their aptitude on the job, as evidenced additionally by satisfactory or better service ratings.

The State Civil Service Commission contends that the test is standard, equally applicable to open-competitive and promotion exams, and has proved its validity. The only existing eligible list for unemployment insurance examiner is an open-competitive one. The promotion list, as established as the result of the exam, has been exhausted. No permanent appointments have been made from the open-competitive list, pending the outcome of the case, although it is reported that one or two provisional appointments have been made.

The open-competitive eligibles, although they don't figure directly in the case, are rooting for the Civil Service Commission, because if the petitioners win, all vacancies will be filled first from the promotion list, before any appointment is made from the open-competitive roster.

### Newark, Willard Are Victors in MH Softball League

The Newark State School softball team swamped Craig Colony 26 to 5, on May 26, the latest report of the Mental Hygiene league reveals. By comparison, the Willard-Rochester game the same day was a "sneaker," with Willard winning 6 to 2.

The previous week, Rochester walloped Craig Colony 20 to 8.

Buffalo and Willard are tied for first place, both with 2 and 2 records, followed by Newark, 1 and 1; Rochester, 1 and 2, and Craig Colony, 0 and 3.

Joseph Kieta, league secretary-treasurer, asks that teams send him their rosters, in accordance with Rule 6. Roster changes must be submitted to the office of the secretary as they occur. Please send in your game reports promptly, Mr. Kieta adds.

### WCB ASKS EXEMPT STATUS FOR SECRETARY

ALBANY, June 13 — The Workmen's Compensation Board has requested exempt classification for the position of secretary to the chairman. The request is before the State Civil Service Commission.

### Commerce Chapter Discusses CSEA Policy

ALBANY, June 13 — Demands to know "what's what" as to a proposed paid executive, increased dues and "fringe benefits" featured the annual meeting and election of Commerce chapter, May 24. As a result of demands from the floor, a special meeting of the chapter will be held in the near future.

Edwin Roeder was re-elected chapter president. Other new officers: Maurice Schawron, re-elected vice president, and Jeanette Lafayette, secretary. George Cooper was elected treasurer.

Mildred Meskil, Commerce representative to the Capital District Conference and representative to the Association's Board, warned against the inroads of competing organizations. She said a united front is imperative.

A request was made from the floor for information concerning the activities and works performed by CSEA attorneys.

Commerce chapter was reported as having a paid-up membership of 209, the highest in its history. Treasury balance as of May 24 was reported as \$134.40.

The insurance committee report was presented by Harold Rubin, in the absence of chairman Walter Willetts. It indicated no noticeable progress.

Candidacy of Jeannette LaFayette for secretary of the Capital District Conference was endorsed.

At the conclusion of the business session the newly-elected officers were installed by Lawrence Kerwin, president of the Capital District Conference.

The committee in charge of the luncheon consisted of Gloria Goldstein, chairman, Janice Crawford, Anne Bianchi, Connie Crystal, Robert Humes, Virginia Catalano, Abble Perrin, Joyce Merrill and Marlon Kirby.

# CORRECTION CORNER

This column is for employees of the State Correction Department. It is written by Jack Solod, himself an employee of the department with intimate knowledge of worker problems in his agency. Mr. Solod has been given a "free hand" in writing his material, and his views are his own. Members of the department who would like Mr. Solod to discuss matters of especial importance to them are urged to write him in care of the Civil Service LEADER, 97 Duane Street, New York City 7.

By JACK SOLOD

American labor was given a great shot in the arm with the signing of the new Ford contract. This contract is being lauded as a new Magna Carta for the working man. Millions of words are being written of the new principle whereby management has agreed to add its own private unemployment insurance benefits to those of the State.

### The State Pension Lag

Generally speaking, in civil service we have no guaranteed annual wage problem.

The outstanding gains in private industry, from a civil service viewpoint, are the so-called fringe benefits: first .045 cents for increased pensions. Six years ago the first pension plan in the automotive industry called for a \$100-a-month pension. The new agreement calls for an average pension of \$232 a month! Small wonder that the employees at River Rouge cheered loudest and longest for the pension plan.

Compare this pension with the miserly pension granted retired New York State employees. Many State employees with 30 years' service and a \$5,000 final average salary are retiring on \$1,800 a year. I know of a particular case where after 33 years work and contribution of \$10,000 to the State Retirement Fund an employee whose salary is \$8,500 a year can just about attain this \$232-a-month retirement allowance, which all Ford workers will get. The pension plan for State employees is years behind and should be greatly liberalized to reflect today's living standards.

Compared to triple time for holiday work, State employees who work holidays are either paid straight time or given compensatory time off.

### A Spur to Employees

Although the principle of prepaid health insurance is recognized in NYC, where the cost is equally divided between the employees and the City, the State employee pays the entire cost but, with the "privilege" of payroll deduction.

Night shift differential is unheard of in State service. Generally speaking the night shift employees earn less than those working on the day shift.

With great gains being made in private industry, the State employees have new goals for the next legislative session. The Civil Service Employees Association must embark upon a broad, bold program in 1956. The State employees must not be permitted to keep falling behind. We have been told a "labor" administration is in Albany now. Well, let's see the proof.

### EMPLOYEE NEWS

#### Pilgrim Aides Fele Mrs. Atkins

WEST BRENTWOOD, June 13 — The dining room of Building 24 was a bower of white and purple lilacs as 70 fellow employees honored Mrs. Elizabeth Atkins, staff attendant, with a retirement party recently. The guest of honor received an orchid corsage and a watch.

Employees and staff wish many happy years of retirement to Mrs. Atkins, and to Allie P. Baker, staff attendant at Edgewood; Joseph H. Brown and John Machek, carpenters, and Frank Hora, assistant cook.

Mrs. Muriel Virag, hospital aide, received nation-wide attention by winning the Psychiatric Aide Achievement Award.

Sympathy is extended to the family of Mrs. Johanna F. Bonnyman, principal of the School of Nursing at Kings Park. Mrs. Bonnyman had been a frequent visitor at Pilgrim for many years.

Edgewood patients now have a softball league. Much enthusiasm is being displayed by both patients and employees.

## Human Side Of the Tax Dept.

JOSEPH L. CALLACI, a clerk in the application examination unit of the Bureau of Motor Vehicles New York office, last week received an award from the State Employees Merit Award Board. Mr. Callaci's recommendation was the addition of wording to the motor vehicle registration form which would assist the Bureau in determining where the vehicle was last registered.

The \$25 award was presented him by State Tax Commissioner Bragallini.

A \$100 award was won by Harold B. Stone, a clerk in the Albany BMV office, for suggesting revision of procedures used in processing abstracts operating records for metropolitan area residents. The suggestion, said the Merit Award Board, has resulted in time and money savings.

To Mrs. Isabella M. Riedel, a principal account clerk in the Brooklyn office of BMV, went \$25 for a suggestion which improved transmittal of road test results from local officers.

"MY FAVORITE STORY," say Tax Commissioner Edward H. Beed, "is found among the epigrams of Sir Thomas More."

While attending a reception, Sir Thomas decided he would have a spot of punch. As he was about to ladle the punch into his glass, he saw the punch was filled with flies. Deliberately, he removed the flies, ladled out his drink, and just as deliberately returned the flies to the bowl, with the comment, "Personally, I don't like flies with my punch, but then there may be others who do."

MOTOR VEHICLE BUREAU Commissioner Joseph Kelly is about ready to institute a courtesy program in his agency. The tough, pleasant MVB head feels that the direct contact which his people have with the public puts them in a peculiarly sensitive position, to accomplish good or ill for the department, and for public service altogether. He'll crack down hard on any employee who is snippy, discourteous, or uncooperative with persons who come to the agency. On the positive side, he'd like to announce a specific program of "How to be courteous" hints. And you'd better take the hints, or else... Recent rash of public revelations about some instances of collusion between MVB inspectors and auto schools hasn't dimmed the Commissioner's views about the courtesy drive. He feels it's needed now more than ever.

Best wishes to Mrs. Mildred Parsell, R.N., who has resigned... Mrs. Fryling is wished "the best." She's on leave awaiting the arrival of the stork.

wishes are extended to him, and to John McGarr, Alexander Stevenson and Lorraine McAus, who were on the sick list.

## Guaranteed Annual Wage For Hourly Workers?

**P**ART-TIME workers in at least three U. S. communities are getting something that resembles a guaranteed annual wage.

The Civil Service Assembly says a plan for guaranteed annual wages, while common in private business, is not frequent in public service. Plans now in effect in Dearborn, Mich., Lincoln Park, Mich., and Milwaukee County, Wis., assure the man who works by the hour that his pay check will be the same every two weeks even if seasonal lulls or bad weather mean he cannot work for several days. Time lost is made up during peak seasons of work.

All 500 hourly workers of Dearborn come under its plan for a stable paycheck. The Lincoln Park plan affects part-time workers in public works, sewer, and park departments. Uniform pay checks are guaranteed for park employees in Milwaukee County.

The move for a guaranteed annual wage is spreading.

Shouldn't employees and officials in towns and counties of New York State, as well as the State itself, start thinking about the possibilities involved in such a plan?

## Supreme Court's Loyalty Decision

**U**NDER the present Federal loyalty program, the Loyalty Review Board attempted to assume jurisdiction it did not possess, and reached the wrong conclusion, according to the United States Supreme Court, in the case of Dr. John P. Peters. Concerning him the board, relying on unidentified informers who did not even swear to their statements, found there was reasonable doubt as to his loyalty to the Government of the United States. The court ordered that finding expunged from the record.

The Federal loyalty program, bungled from the start, and now receiving national attention because of the Supreme Court decision, needs more than mere revision. It needs total replacement. Who shall do the difficult job? Since the executive branch failed, it might fail again. Congress may be reluctant to assume the responsibility for enacting a new security program, but its duty to do so is clear. Congress alone may even have the power to institute such a program. The President has no legislative power. Much of the security program smacks of legislation.

The program, as it has been administered, has resulted in the punishment of innocent persons. The evidence on this is now quite substantial. An employee may not even be told who his accusers are, much less have the right to cross-examine them. Dr. Peters contended that, in being denied the right of confrontation, he was being deprived of constitutional rights. The court did not pass on the constitutional question, because the case could be decided on other grounds.

A loyalty program is necessary, in the interests of the safety of the United States. No less important is a loyalty program free of menace to the innocent, one as fair to the employee as it is to the Government, and administered in such a way as to avoid miscarriage of justice.

**WHAT IS** the farthest back date at which service counts toward increments under the Career and Salary Plan of NYC? L.O. Answer — No service prior to July 1, 1954 counts toward increments.

# COMMENT

### REALLOCATION PLAN CALLED A FARCE

Editor, The LEADER:

We, who are clerks, in Local Office 535, Division of Employment, note with keen interest, press releases which indicate blanket increases for Federal and NYC workers this year. We note that the clerks in both Federal and City government will get increases that will put them greatly ahead of State clerical workers. (State, \$2,320 to \$3,140 and City, \$2,750 to \$3,500.)

Already the talk throughout the division is that perhaps one would be better off working for the City. State salaries have shown no inducement to stay.

The State reallocation plan has developed into a great farce. We feel that the Association was too easily deluded last year and this year. We ask for a fighting organization and a chance for our families to live as well as Federal and NYC civil service workers. We need a general salary increase.

ANNA WEINER

Brooklyn, N. Y.

### STATE FALLING BELOW NYC IN PAY

Editor, The LEADER:

I liked your editorial, comparing State and NYC salaries, and as the NYC proposals came rolling in here, you can imagine our consternation.

I had one of my firmest convictions of all time that the maximum of \$3,040 for clerks, when we first knew about it two years ago, was wholly inadequate, and it could be proven. So I get some vindictive satisfaction at least, "and proving I was right."

Your editorial pin-pointed probably the most serious single deficiency in the pay plan. One other major occupational area wherein there is such a substantial difference is at the entrance professional level. NYC is allocating these positions in their grade 7 with a minimum of \$3,750 and a maximum of \$4,830. The State minimum is \$4,280, a difference of 13 per cent. The NYC allocation confirms our file data on current college graduate hiring rates. I think it is a fair question to ask what decile of the graduating class the State will attract.

Generally speaking, the differences between NYC's new allocations and those of the State are so great and so serious that I can not help but feel that the State of New York is following one kind of a wage policy and the City of New York another. A specific in connection with the entrance professional personnel would be the NYC position of junior scientist, grade 7, \$3,750 to \$4,830, and State junior chemist or junior bacteriologist, at grade 10, \$3,360 to \$4,280.

### GRATEFUL FOR COVERAGE

Editor, The LEADER:

This is not just a "Letter To The Editor," but a letter to you personally.

I want to thank you for the fine coverage of all civil service matters which you have given in the pages of The LEADER.

The important thing to most persons is a proper classification and compensation plan. State employees are still looking forward to the establishment of just such a plan. I would appreciate it if you would give this point as much publicity as possible.

All State employees should be

grateful to you for the help you have given to them in their fight to obtain necessary benefits. I have made, and will continue to make, every effort to bring to their attention the assistance you have rendered in their behalf.

I also want to thank you for the coverage given to news of the Psychiatric Institute and its personnel. Everyone looks forward to reading about the Institute in The LEADER.

### THIS SHOULD 'STARTLE' STATE'S LAWYERS

Editor, The LEADER:

I have read with interest the article in The LEADER of May 24, describing the arguments made by representatives of the State administration in a case involving the dismissal of war veterans by the State Tax Department, without charges or hearing. You reported that the Tax Department contended that lawyers employed by the State have an attorney-client relationship and are subject to discharge at will by their superiors.

This argument should startle lawyers who are employed by the State and who hold positions in the competitive class and who are under the impression that they may not be removed except upon charges and after a hearing, under the new amendment which was passed this year. The ease in which this unique approach has been made involves two war veterans who hold exempt class positions at salaries much lower than many attorneys employed by the State in competitive positions. Their duties are similar to those of other attorneys employed by the State and, so far as the matter under consideration is concerned, whether they are in the exempt class or competitive class is im-

material because, being war veterans, they are protected against removal except upon charges and after a hearing, in the same way as non-veteran attorneys in the competitive class are protected under the recent amendment.

I wonder whether this is putting a foot in the merit system door and whether the same argument will be made hereafter with respect to other professionals employed by the State, such as public health doctors, psychiatrists, dentists, engineers and architects whose counterparts in the business world also have the relationship of professional to client.

Furthermore, if the Tax Department's position is carried to its implied conclusion, it would place in jeopardy the positions of all professionals, including those in the competitive class (both veterans and non-veterans) as well as those in the exempt class who are veterans.

In view of the potential far reaching effects of this case upon the civil service structure of our State and upon the fundamental rights of public employees, the progress and outcome of this litigation bears careful scrutiny by those interested in the protection and preservation of the non-political civil service system.

### LOWER AGE FAVORED FOR POLICE-FIRE CANDIDATES

Editor, The LEADER:

Age qualifications for competing in the coming NYC patrolman exam are likely to be 20 to 29 years. I do not think this is fair to the younger men who are looking to plan and better their life's work.

I believe that if 18 year olds were again allowed to take exams such as those for patrolman and fireman, there would be less juvenile delinquency.

### NUMBER OF POLICE VEHICLES VARY WIDELY

THE NUMBER and kinds of vehicles used on police patrol vary widely among U. S. cities over 10,000 population.

The 1955 Municipal Year Book shows that the number of police patrol cars in U. S. cities ranges from 889 in New York City to 208 cities with one or two patrol cars. Other vehicles used in police work are two-wheel and three-wheel motorcycles. Los Angeles reported the highest number of two-wheel cycles — 420 — and Chicago reported the most three-wheel cycles — 153.

In 198 of the 1,000 reporting cities, one-man patrol cars are used exclusively for police patrol. A combination of one- and two-man cars is used by 569 cities, and 233 cities use two-man cars only. Of the 198 cities using one-man cars exclusively, 129 are in the 10,000 to 25,000 population group. Three-fourth of the reporting cities use one-man patrol cars part or all of the time.

The type of shifts when one-man patrol cars are used — day, evening, and night — also differs from city to city. A total of 345 use them on day, evening, and night shifts; 129 use them on day and evening shifts; and 271 use them on the day shift only.

### SURVEYS SHOW ATTITUDES TOWARD PUBLIC EMPLOY

Surveys by two U.S. cities of their workers' feelings about their jobs showed that for the most part the employees are satisfied but could see room for improvement. A survey of a different kind — asking private citizens what they think of government employment — revealed that 58 per cent would rather work for the city than a private firm if the pay was the same for both jobs.

# Dr. Peters' Hollow Victory Puts Loyalty Program Right Up to Congress

WASHINGTON, June 13 — The decision of the United States Supreme Court, declaring that Dr. John P. Peters, senior professor of medicine at Yale University, was illegally dismissed on grounds of doubtful loyalty from his part-time consulting job with the U.S., puts squarely up to Congress the necessity of safeguarding Federal employees by legislation.

Much as Congress would like to avoid the controversy, a statement by Associate Justice Hugo Black, in a separate opinion concurring with the majority, questions the legality of the Presidential Executive Order under which the Loyalty Review Board obtained Dr. Peters' removal.

"That (Presidential) order, and others associated with it," wrote Justice Black, "embody a broad, far-reaching espionage program over government employees."

Another reason for the need of legislation is that the court split on the authority of the Loyalty Review Board to take jurisdiction over cases that a departmental loyalty board decides in the employee's favor.

A third reason for legislation would be the continuance of the policy of investigative branches of government of protecting informers by keeping them anonymous. The Federal Bureau of Investigation and other agencies insist that unless they keep the identity of informers secret, they lose informers, and the prospects of obtaining any others, hence such accusers do not face the accused. In Dr. Peters' case they did not face him, and their accusations were not even made under oath.

While nobody disputes effect of disclosing informers' identity, the clash of objectives goes to the very root of constitutional guarantees of liberty. As Associate Justice William O. Douglas said in his separate concurring opinion:

"Confrontation and cross-examination under oath are essential, if the American ideal of due process is to remain a vital force in our public life.

"If he were condemned by Congress and made ineligible for government employment, he would suffer a bill of attainder, outlawed by the Constitution . . . An administration agency—the creature of Congress—certainly can not exercise powers that Congress itself is barred from asserting."

### Big Issue Avoided

The reference is to the regulation attempting to bar for three years employees dismissed on loyalty grounds.

Fourth, opinion of one judge raised doubts about the President's authority to institute a loyalty program by executive order, saying that was a legislative power that only Congress possesses. If Congress sees the issue in the same light it will have to adopt a loyalty program itself.

All of the opinions rendered either stated or implied there was no proof that Dr. Peters should be regarded as a loyalty risk. Accused of having been a member of the Communist party, he denied it, and the accusation was unsupported by proof. Also accused of association or sympathy with subversive or dubious groups, he explained all his connections with associations.

The departmental loyalty board had found in his favor: the Loyalty Review Board assumed jurisdiction, unlawfully, the court held.

While Dr. Peters sought vindication on constitutional grounds, the majority opinion avoided that issue, stating that since Dr. Peters was being vindicated on other

grounds, the constitutional question need not be decided.

Associate Justice Stanley Reed dissented from the majority (voted to sustain the dismissal) and was joined by Associate Justice Harold E. Burton.

"The executive branch is traditionally free," wrote Justice Reed, "to handle its internal problems of administration in its own way. The legality of judicial review of such intra-executive operations as this is for me not completely free from doubt."

### Constitution versus Expediency

The majority opinion, written by Chief Justice Earl Warren, avoided the constitutional issue without casting any doubt on the legality of that issue, but confined itself to reasons of expediency:

"In this court, petitioner urges us to decide the case solely on the constitutional issue. This issue, if reached by the court, would obviously present serious and far-reaching problems in reconciling fundamental constitutional guarantees with the procedures used to determine the loyalty of government personnel . . . We find, however, that the case can be decided without reaching the constitutional issue.

"From a very early date, this court has declined to anticipate a question of constitutional law in advance of the necessity of deciding it . . ."

### Finds Review Board at Fault

The majority found that the Loyalty Review Board's action in assuming jurisdiction over a cleared employee, and inducing his dismissal, was so patently in violation of the Executive Order—in fact, beyond the board's delegated jurisdiction under the order—that the constitutionality of the order itself does not come into issue.

Dr. Peters, though gratified over being sustained on the merits, deplored the court's failure to pass on the constitutional issue. Justice Douglas did pass on it, in concurring with the decision, holding that the constitution protects the

## Awards Made By NYU To Graduates

There is a great need on both the national and international scene for trained public administrators, J. Donald Kingsley told a gathering at New York University last Thursday.

"An administrator need not be a specialist in the particular field in which he serves," said Mr. Kingsley, executive director of the NYC Welfare and Health Council. "A good administrator knows how to administer, and that is all that is required of him."

The occasion was the annual party of the Graduate School of Public Administration, at which awards were presented to outstanding students at the school, and to officials in public administration.

### Cited for Personnel Work

Joseph Schechter, NYC Personnel Director, and James P. Googe, director of the Second U. S. Civil Service Region, were cited for their personnel work.

The Jerry Finkelstein Award, for the outstanding master's thesis, was presented by N. H. Mager, for the Civil Service LEADER, to Dr. Herman Wirth, for 1953-54 and to Thomas M. Whalen, for 1954-55.

The James E. Russell Prize, for outstanding contribution to the study of public administration by a Federal employee, was presented to Able Carder, by Mr. Russell, former director of the Second U. S. Civil Service Region.

## The Welcome Visitor...

If you've ever had a nurse visit your home, you'll remember how quickly and efficiently she "took over." Calm and poise... the very look of her restores the patient's confidence. The rest of the family relax... find themselves suddenly capable again of getting on with their normal business.

The nurse's knack for "taking over" is hard-won. Her professional training included three years in an accredited school of nursing. At least one year's experience as a graduate nurse on a hospital staff and special college courses in public health nursing. But it's worth it—for her care often spells the difference in saving lives.

modern medical team required to guard your health today.

**VISITING NURSE SERVICE** and private ambulance service are provided at no extra cost as an integral part of H.I.P. teamwork medical care. Whenever you need a doctor, surgeon or specialist... as often as you need a doctor, surgeon or specialist... the entire H.I.P. medical team is at your service. Yet you'll never see a doctor's bill! \* You pay a single, moderate premium: the cost of H.I.P. comprehensive teamwork medical care for a family of three or more is just 35¢ a day! H.I.P. now serves over 420,000 New Yorkers and suburbanites, many of them union members. Why not ask your employer or union officials today how you and your co-workers can join!

**Employees Back Dr. Peters' Plea For Safeguards**

(Continued from Page 7) employee, but the majority opinion is the only effective one.

Dr. Peters said that older men, like himself, can stand the blow of alleged suspicion of loyalty, but younger employees can not, and that all employees deserve the full protection of the Constitution. In this he had the full support of employee organizations.

**'Badge of Infamy'**

The prevailing opinion frankly said: "This court has recognized that 'a badge of infamy' attaches to a public employee found disloyal."

The victory proved hollow to Dr. Peters because his term has expired, but the Eisenhower administration could have the term extended, and reappoint him, or could appoint him to some other consulting job.

Dr. Peters began the action in the District Court, District of Columbia, which granted Mrs. Oveta Culp Hobby, Secretary of the Department of Health, Education and Welfare, where he was a consultant, judgment on the pleadings. The Court of Appeals for the District of Columbia Circuit affirmed the decision. The case went to the U.S. Supreme Court on a writ of certiorari (to search the record). The highest court not only held that Dr. Peters' removal was invalid, but ordered the finding of the Loyalty Review Board, that there was "a reasonable doubt as to Dr. Peters' loyalty to the government of the United States" stricken from the record.

Fire Chiefs Hear Levitt Pledge Aid

SCHROON LAKE, June 13 — State Comptroller Arthur Levitt made the opening address at the meeting of the State Association of Fire Chiefs.

He traced the development of the fire service during the last 10 years and the corresponding growth of the Fire Chiefs Association.

"We owe a debt of gratitude to industry for producing our modern fire-fighting vehicles, apparatus and communications systems," he said. "We are also indebted to those who lead in the development of laws and training, and those firemen and officers who helped to bring the fire service in this State to its present high level. Persons are now living and homes and factories are now standing because of the recent advances in fire service."

Fraiser C. W. Potter

He pledged the resources of the Department of Audit and Control to further all possible improvements in fire-prevention and fire-extinguishment.

The Comptroller paid tribute to Charles W. Potter of the legal staff of the department for his special knowledge of fire laws. Mr. Potter has served on leave of absence as counsel to the Temporary State Commission on Fire Laws.

### PER-DIEM PAY RULING

When a per-diem rate of pay is reduced, it is not necessary to conform the pay of incumbents to the lower rate, but the agency must decide whether it is in the public interest to continue the present higher rate, the Comptroller General has ruled. Another opinion he issued restates the rule that a veteran unjustifiably demoted, and ordered restored to his former job, is entitled to back pay in full, for the period between removal and reinstatement. Any gainful income obtained meanwhile would be deductible.

## Dongan Guild Presents Two Scholarships At Its Annual Dinner

The Dongan Guild of State Employees honored their moderator, Monsignor John E. Reilly, on his silver jubilee, at the Guild's annual dinner held at the Hotel Piccadilly in NYC.

A skit on sidelights in the life of Monsignor Reilly was directed by Thomas F. McEvily, Sr., a personal friend of the Monsignor for years.

A scholarship award to a Catholic high school and another to a Catholic college, both given by the Guild, were presented by William Seidl, chairman of the scholarship committee, to the winners of competitive exams.

### The Winners

The winner of the high school scholarship was Daniel Weiscopef, a nephew of Veronica Kelly of the Motor Vehicle Bureau's Jamaica Office. Mr. Weiscopef, who is being graduated from Sacred Heart Elementary School will enter St. Joseph's Normal Institute in September for preparatory study before going to Barrytown to study for admission to the Christian Brothers. The Guild's college scholarship award, given for the first time this year, was presented to John J. Cullen, a nephew of Thomas J. Mahoney of the Department of Agriculture and Markets. Mr. Cullen is being graduated from St. Nicholas of Tolentine High School and will enter Fordham University in September.

Catherine C. Hafele of the Workmen's Compensation Board, president of the Guild, announced that the Guild soon will receive a full four-year scholarship grant, which will be awarded to a relative of a member of the Guild in 1956. Details will be announced later.

### Large Attendance

The Guild's annual dinner was

attended by more than 400. Many more had to be turned away.

Carmine DeSapio, Secretary of State, acted as toastmaster. The Glee Club of the NYC Fire Department entertained.

John J. Hannigan of the Workmen's Compensation Board was the general chairman, assisted by Mary Broderick of Manhattan State Hospital and Kay Dwyer of the Motor Vehicle Bureau. The committee chairmen were Katherine Whalen, arrangements; James Bowles, reception; Daniel Farnan, tickets and Lawrence Cluen, gifts.

Speakers included the Monsignor James Wilders, Thomas J. Curran, former Secretary of State and past honorary chairman of the Guild; Morris Gimpelson, president of the Jewish Association of State Employees, and John F. Powers, president of the Civil Service Employees Association. Guests included Tax Commissioner George Bragalini, Joseph A. Caporale, James J. Carroll, Joseph DiFede, Edward Dillon, the Rev. John P. Kelly, Rev. John Manning, Joseph P. McMurray, Angela R. Parisi, Gladys Snyder, the Rev. William J. Griffith, and Patrick F. Mackin.

### Two Reminders

Miss Hafele said a Day of Recollection for all members is to be held at the New York Foundling Hospital on September 17, and the annual corporate Communion and breakfast will be held on October 30 at the Waldorf Astoria Hotel. She advised early reservations.

The officers of the Guild besides Miss Hafele, are Patrick J. Ricci of the Division of Employment, vice president; Gertrude Murphy of the State Insurance Fund, treasurer, and Edith May of the Division of Employment, secretary.

## Statues Dedicated At Rockland State

ORANBURG, June 13—More than 200 Catholic patients at Rockland State Hospital, accompanied by employees, attended ceremonies on Memorial Day dedicating three statues at Hill-Top Cemetery. The white marble statues were brought from Italy some years ago, and were formerly at the altar of the old chapel at Manhattan State Hospital.

Father Cox thanked Dr. A. Stanley for suggesting the memorial placement; Mr. Blaisdell for obtaining the statues, Mr. Wild for his management of the clearing, Homer Alexander for the beauty of the cemetery, Mr. Schwind for his aid in caring for the memorial, and Mr. Rooney and Mr. Housman for the physical work necessary to erect the monument.

**Successful Penny Sale**  
More than 500 people participated in the penny sale for the Catholic Chapel Fund, and a total of \$4,500 was realized, almost a half-million pennies. Socially, the sale was a success, too. And at least 120 people went home bearing gifts. The event was held in the hospital's auditorium.

This is a pioneer venture, Father Cox told the gathering. For the first time a chapel for the mentally ill is to be erected by voluntary contributions of every day folk.

## Metropolitan DE Unit Plans June 22 Social

NEW YORK CITY, June 13 — Division of Employment chapter, metropolitan area, has thought of many ways in which to say Hello to its new members, and those who have recently joined the unit from Unemployment Insurance and Payroll, and the chapter has come up with what it thinks is a pretty good idea.

On Wednesday, June 22, at 1 East 19th Street, ground floor, at 6:30 P.M., the chapter will hold a get-together social, to give everyone a chance to get acquainted. Because the Division is so widespread throughout the City, it is often hard to meet people that you want to. This is your chance, and at a price that will fit everyone's pocketbook — nothing! The more that attend, the better time will be had. Let your Local Office representative know that you are coming. See you on the 22nd.

As has been published earlier in this column, the chapter has made plans for its annual dance September 30 at the Beekman Tower Hotel, NYC. The dance committee plans to distribute tickets at the June 22 social. A table will be set at which all LO representatives may get an estimate of how many tickets will be needed for their particular office. The price, \$2 per person.

It is the sort of social the chapter believes will be enjoyed by all who attend. This year, larger quarters have been secured, and a night club atmosphere will prevail. So, for a night out on the town, don't forget September 30.

## Miss Fruchthendler Named PSG Unit Prexie

NEW YORK CITY, June 13 — At a special meeting of the executive board of Metropolitan Public Service chapter on June 6, the election committee presented the tally, which showed the officers-elect to be: Edith Fruchthendler, president; Herbert Kampf, vice president; Grace O'Brien, secretary, and Nathan Elgot, treasurer. Department representatives elected: Harold M. Olmsted, Zella Mitchell, W. F. Adams, Joseph McAndrews, Richard Powers and Charles Kenny.

Installation will take place Tuesday, June 14 at 6 P.M. at Gasner's Restaurant, 76 Duane Street, NYC.

The election committee—Mannie Lieberman, chairman, Richard Powers and Sol Silverstein—was discharged, with thanks expressed for its fine work.

## Sing Sing Aides at Communion Breakfast

OSSINING, June 13—Sing Sing Prison employees had an excellent turnout for the eighth annual Communion breakfast at Hotel Ossining, following 8 A.M. Mass at St. Augustine's Roman Catholic Church.

The Rev. Joseph T. Clune, chaplain of Rosary Hill, Hawthorne, was principal speaker. He

discussed the spiritual and physical care extended to those afflicted with cancer, and the care extended to patients of all faiths and creeds by Rosary Hill and five other "free homes" operated throughout the country by the Society of Servants for the Relief of Incurable Cancer, founded by Rose Hawthorne.

Warden W. L. Denno, Principal Keeper Louis J. Kelley and the Rev. Thomas J. Donovan, prison chaplain, also spoke briefly. Success of the event was due in large measure to the industrious arrangements committee: George J. Muller, chairman; Sam DeDio, Fred J. Rieker, Richard Wagner, Thomas W. Wilson, Earl Schrader and Patrick Canavan.

## Slate for Rockland Chapter Office

## Biggs Memorial Plans Picnic on June 16

ITHACA, June 13 — Twenty members were on hand May 19 for the monthly business meeting of Biggs Memorial Hospital chapter which started at 7:30 P.M., as promised. Yep, 7:30 is the time. The nominating committee got

back 51 of the 109 individual nomination slips passed out but had not completed questioning nominees for acceptance or declination. The date to return ballots in the double envelopes will be June 10.

The election committee is composed of: Marie Lilla, chairman, Carolyn Case and Joan Pollio. Tellers will be Richard Remley, Elmer Horton and Robert Brown.

### Picnic June 16

What promises to be a bang-up picnic was enthusiastically voted and discussed. Catherine Gazley is in charge and is looking for helpers. June 16 is the picnic date. Stewarts Park is the spot. Please remember that date and bring your family or boy or girl friend and — oh yes — bring a dish to pass, rolls and butter and table service. The ham and soft drinks are on the chapter. It's for members and non-members, too. See you there? Any time after 4:30 P.M. will be good. We eat when the dietary folks arrive. All with appetites, singing voices, good stories and game-playing muscles are asked to put your names on the slips soon to be distributed. That's to aid the committee to make arrangements.

Think you'll all agree that the May business meeting was worthwhile. It was closed with fine refreshments donated and served by dietary members. They proposed that the \$5.31 collected be put in the treasury to help out on the picnic.
