Basketball Starts The season starts again as practice for one sport in which most of the college is interested, begins. We are, of course, talking about the basketball tournament in which there is usually so much keen competition. Last year, approximately sixteen teams participated in the league and the rivalry spirit evident from the beginning was carried throughout the season. It is expected that as many teams, if not more, will again enter this year. The schedule would go along faster, if the teams would have all their players present on time and if they could avoid postponing games. These were the main faults in the play-offs last year. The commuters are also planning on having a team participate in the league this year. If so, it will be the first time. For our money, this shows more spirit than some of the houses that are "on campus." It seems like a difficult project as most of the games are played at 7:00 in the evening and the commuters either have to go home rather late or in some cases arrange to stay in some group house or at the dorm. There are many commuters that have also come out for sports this year. So far, the commuters have shown spirit, at least in this department and we wish them a lot of luck with their basketball team.

Before he can say "Jack Rabbit," the hunter has him, little baby rabbit slung over his shoulder. So the rabbit, who is nobody's fool, catches his furry rabbit's foot in the gun, accidently pulls the trigger, and "bing," the hunter is lying flat on his back on the ground. And if you don't believe it, you can go down to the Louisville, Kentucky hospital where the hunter is "comfortably resting" and see for yourself. (And then if you sit down and stay awhile, maybe you'll even get some nice rabbit stew for dinner from one of the pretty nurses.)

OF MICE AND MEN

Last Wednesday morning, two little Saratoga Springs mice got bored with their cheesy existance and decided to look for al ittle excitement. So they entered the house of a tax-paying citizen, crept into the kitchen and began to gnaw matches. Soon the whole kitchen was ablaze and the mice stood in the corner licking their whiskers in their excitement. Enter the firemen. Exeunt the two rodents (before anybody even got a chance to press charges for arson, too!)

## Sports Director

Monday, Betty Margot, '47, was elected Sports Director of Sayles. As far as we know, this may be the case in a few of the dorms and group houses but it is not true of all of them. We think that on the whole, it is an excellent idea. Too often, in the smaller group houses especially, there is no one person who is made responsible for the sport teams in which the house participates. If each house had one such director, who would keep track of the games the team was supposed to play, it would eliminate the confusion which often arises because of the lack of such a director. Congratulations Margot! Maybe some of the other group houses will follow Sayles' example and elect their director soon.

Oh, you're dreaming of a white Christmas-well O.K. sleep on.

# Myskania -- A Reform

The MYSKANIA cry has gone up again. However, it is no longer the "to be or not to be" cry, but rather, shall we reform our Judicial body?

An open meeting was called on Wednesday to discuss this question and to formulate tangible plans for reformation that would later be presented in Assembly as a motion. Ostensibly, the meeting was proposed to garner a maximum of student opinion on the subject. Sadly enough, however, attendance was almost nil. Approximately twenty-five students exhibited enough interest in the session to be present. Nine of these were Myskania members. Here was the result of a whole semester's griping—a 21/2% interest in a vital issue that is the concern of every student of State Col-

Despite the dearth of people, there was not a lack of ideas or of frank discussion. The first concrete plan for reformation yet to come out of the Myskania embroilment was offered. Its realistic approach to the problem and logical conclusions make it a plan that deserves serious consideration by Student Association.

It is this: Take from Myskania its power of self-perpetuation and choose our Judiciary by popular vote. Popular vote with qualifications, that is. Myskania would draw up two slates of nominees and present them to Student Association for vote. This would eliminate the popularity pool results of open nominations and insure a fair choice. The first slate would list five to eight names of Juniors who, Myskania feels, deserve this honor first. The second, a longer list, would name other Juniors who are eligible. On the first slate there would be yes or no voting and the second would entail the preferential ballot. If a member of the student body feels that further nominations should be made, this would

In this way, the present breach that exists between Myskania and Student Association would be spanned by popular election of the body.

Here, at last, is a concrete plan. What is your opinion?

# Veterans' Show Will Entertain Orphans Tonight

The Rhodes Hospital troupe show will send three of its acts to the Myskania Christmas Party at the Albany Home for Children today and part of it will perform on Student Union Day. The Directors, Lorna Kunz, Philip Lashinsky, Muriel Rubin, Juniors and Eloise Worth, '48, have sent out a plea for hostesses for the show.

Marilyn Warshaw, Betty Brennan and Vivien Nielson, Juniors, dressed in regulation sailor suits, will present a military tap dance for the orphans at the Home and Muriel Rubin, '47, will sing a solo. Agnes McIntyre, '49, will narrate fairy tales. Other members of the show who have not yet been chosen will display their talents in a show on Student Union Day.

Miss Kunz and Miss Worth have sent out an urgent plea for hostesses to help with the troupe show. Interiews have been scheduled for the past few weeks but so far no one or Miss Worth anytime before Christmas vacation.

## News Sponsors Assembly Poll On Myskania

Questionaire Designed To Obtain Openions Of Student Association

The Myskania issue has been the most controversial question in State College for years. This year, it has reached an all-time high. The 1946 Myskania realizes that there is dissension among the students, and would like to get practical statistics with which to work.

Sponsors Poll A few days ago, Myskania came to the State College News with the request that the News sponsor a on Myskania. Members of Myskania drew up the questionnaire and submitted it to the News Board for approval. It was accepted.

The questionnaire is printed on this page, and will be handed out in assembly today in mimeographed form. Approximately ten minutes will be given during assembly for the answering and checking of this questionnaire. No one is to identify his questionnaire in any way.

of the lack of infirmary facilities. There have been epidemics similar High Scores to the present one at State in the past. Each year this question has been put aside and disregarded as the epidemic declined. Each year students have become victims of this illness and no infirmary large enough to accommodate them all is available. Dr. Green and Dr. Dorwaldt are rushed to death, painting throats and writing out pre-scriptions. Just last week, nearly one hundred dollars was spent on doctor bills. This fact, alone, should be sufficient to warrant bringing the issue to a head this year or at least to make definite preparations for the near future. An example of this need can be clearly shown by an instance at one of the group houses. There are four girls in one room. At the beginning only one girl was ill. Dut to these close living quarters, two of her roommates came down with the flu. This means that three sick girls still share the room with one other who has, to far, escaped infection. If the one first afflicted had been isolated most likely her roommates would not have been infected.

## Back to Sports

In a recent copy of "The Football News," there was an article which attracted our attention and stimulated many opinions. The reporter noticed some soldiers waiting outside the dressing rooms—walting for "their heroes, the Army football players." Thoughtfully, this reporter went into the Army dress-ing rooms and asked the manager to ask the players if they would stop and say a few words to these war veterans. He said he would. Half an hour before game time, the Army team came out. None stopped, but trotted right by the vets. A few nodded, but nothing more. I'll quote the rest because I couldn't possibly tell it more effectively.

"The war vets were plainly disappointed. We apologized and said perhaps the team was under orders not to stop to talk to anyone before a game.

The three vets said, 'thanks, anyway,' and then went away - in their wheel chairs.

It's not the State kids, but a meeting of the mice who but a meeting of the mice who inhabit the gym. Something is wrong There's no basketball practice. Where's Sweeney? Where's the basketball teams? Where are the basketballs?

It really isn't too difficult to come to a conclusion. It seems that everyone in school has the flu, grippe, a bad cold or a bad case of pre-vacation slump. Anyhow, it all ties in. Sweeney and several team members have the flue-consequently there is no basketball schedule or story. This leaves the Sports Staff minus not only personnel but minus writeable material. How can anybody write about what isn't?

Have a nice vacation everyone, and here's hoping the flu won't get you, too!

ping-pong tournament. It has attracted an unusually large number of participants this year. Fortythree people have signed up so far, thus equalizing the enthusiasm shown for the MAA bouts.

Bertha Wakin, '47, captain of ping-pong, has announced that all first matches must be played off by December 18, or else both players will be automatically eliminated. This is very important, because the matches must be played off quickly and on schedule if rivalry spir.t and present enthusiasm is to be kept up. Two Matches Played

To date two matches have been played off in the first round. Considering the number of people who have signed up this is not a very Jim Crandall, '46-"I'd make an good percentage.
