MYSKANIA IS THE JUDICIAL BODY— CHOOSE WISELY

Music Program Will Highlight Assembly Today

Fresh Apology Slated; Council Endorses Plan For Mid-Year Break

Music Council will present State College Music Ensembles as the feature of today's assembly. An apology to Student Association will be made by Ross Federico '51.

The music program will include three selections by the Woman's Chorus: "Waters Ripple and Flow," "Nocturne," and "Balloons in the Snow," two numbers by the College Orchestra: "Egmont Overture" and "The Moldau," three selections by the Chorale: "Robin in the Rain," "Syncope Lullaby," and "Moon Marketing," and three numbers by the Men's Glee Club: "Brother's Sing On," "Eric Canal," and "Dance Comrades."

Council Passes Proposal

At Student Council meeting, last Wednesday, a proposal was made by Jean Puiver '49 to the effect that conflict examinations be held Saturday, February 5 and the second semester begin Wednesday, February 9. This had already received approval from the Administration of the College. The council voted to endorse this plan.

Donald Ely '51 reported that the rivalry bulletin board was near completion and would probably be placed in the Commons some time next week. It was decided to paint the board black and white.

Dunn Makes Report

A report was made by Gerald Dunn '51 concerning the last meeting of the National Student Association, held last Sunday at the College of St. Rose. Permanent membership in the Association by this College was discussed and it was agreed that State should continue to take part in an unofficial capacity for the remainder of this school year. Ruth Matteson '50 was named to head the State's participation in the planned N. S. A. hayride.

Compromise and Vacation

Democracy in action was demonstrated at the college this week when as a result of the dissatisfaction with the mid-year examination schedule, the administration took immediate steps to alleviate the problems pointed out in last week's editorial and the dissenation among the students and faculty.

According to the revised schedule, exams will begin on Wednesday, January 26, instead of Thursday, January 27. It was not possible to move the exam schedule back to Monday, January 24, because of the 75 class days required to be recognized as an accredited college. However, the one day gained this semester because of sessions held in October during the Lake Placid Conference when a holiday was originally scheduled, made it possible to move exams back one day.

With this decision, a day for conflicts could be scheduled—Saturday, February 5. However, there was still no time according to the old schedule for a breathing spell—necessary to the faculty for the determination of marks, to the registrar for the recording of marks, to the janitorial staff for the re-arrangement of chairs, and to the students for a much-needed rest before the 10-week session until Easter vacation.

An alternative was offered:

1. Spring vacation could begin one day later—Wednesday, April 13 instead of Tuesday, April 12.
2. Moving-Up Day could be held on a Saturday instead of Friday.

NOTE: (a) One day here or there makes little difference in the spring whereas it would make a great difference between exams and in years before.

NOTE: (a) More parents and alumni could attend the ceremonies.

(b) Attendance at Moving-Up Day last year was extremely poor. Drastic measures might have been taken if there had been a repeat performance. If these two changes were made, two days from second semester could be gained—therefore, allowing two days for vacation. The plan could be gained—therefore, allowing two days for vacation. The plan sounded stupendous BUT the final decision was up to the students. Myskania and Student Council were approached as representative bodies in the college for their consensus of opinion. The answer was a definite "YES."—Take the two days now and make the necessary changes.

Immediate administrative action was taken and a two-day vacation has been declared for February 7-8. Second semester classes will begin Wednesday, February 9. The administration has already sent out official notices to the faculty of this change.

The administration has been more than fair in answering the complaints issued verbally, editorially, and through student petitions concerning this exam schedule. Recognition of this action should be in order. Perhaps it does not take years to touch off any action in this institution.

State Will Fill Myskania Posts

Election of two new members to Myskania will take place this morning in assembly to fill the vacancies created by resignations. The members of Upping and Inflation will take place during assembly next week.

The final list to be voted upon contains the names of four Seniors: Jean Hoffman, Pearl Pless, Everson Kinn, and June Youmans.

The list of extra-curricular activities and the scholastic averages of those nominated by the student body, and whose names and records were not published in last week's News are: EVERSON KINN Member Student-Faculty Planning Committee, Sr., Junior Guide, Jr. Vice-Pres. Van Derzee Hall, Jr. Pres. Van Derzee, Sr., Entertainment Committee, Soph Banquet, Junior Prom Decorations Committee Chairman, Jr.; Cast and Sets, Big 8, Soph; Treasurer Inter-Frat Council, Jr.; Scholastic Average 1.83.

JUNE YOUMANS Big 8 Committee, Soph; Forum, Soph, Jr., Sr.; IGC Speaker; Red Cross Representative; Co-Chairman Radio Council, Sr.; Scholastic Average 2.98.

Newman Club will hold an election for a new president to replace John Brophy '49, who is graduating.

IZFA and SCA have drawn up a petition directed to the British Embassy, which states that the students of State College disapprove of the treatment accorded to people held at Cyprus, but that they are in favor of the United Nations decision concerning the petition of the State of Israel. THE ADMINISTRATION

...took the wind out of our sails with its reception of last week's editorial on the exam schedule.

And we hope that the plan of informing the student as to his course standing (satisfactory or unsatisfactory) immediately after exams will not be abandoned.

CHANGING TIMES

Time was when people cried if they made Myskanla and cried if they didn't make it. Now the tears don't run and neither do the nominees.

THEY SAY

Capuano: In the NEWS issue of December 10 there was an editorial on frat and sororities. The writer agreed that action was necessary but gave a verbal rap on the knuckles to the critics with, "...but the change, of necessity, will be gradual."

Kloepfel: When the varsity basketball team visits other schools they are sometimes treated to refreshments after the game. Would it be possible for some of the State organizations to institute such a policy?

GOOD NEWS

Upperclassmen will be glad to hear that Dr. Rienow has consented to address the assembly on March 18. His topic is alone interesting. Last year it was "Love Me, Love My Dogma."

WANTED: (MAYBE)

A parliamentarian (a Myskanla member) for Student Association meetings. The recent resignation of the post has created a vacancy. If the majority feel as Miss Simon who stated in her letter of resignation, "Roberts Rules are not God-like," then we have no employment problem.

Miss Simon also said, "...that almost any rule can be twisted into another interpretation." I have no quarrel with this but I am wondering to whom DO we leave the interpretation?

THE MUSIC DEPARTMENT

...is the only department which officially contributes to our assembly programs. A great deal of time and energy have gone into this week's program which is sponsored by Music Council.

The participating students have also contributed greatly to the program. One of the highlights will be the Men's Glee Club whose preparation has been supplemented by months of study at the Olendorf Conservatory of Music.

THE GAG

...to end all absent-minded professor gags... "Have you forgotten to turn out...?"

GIVE 'EM A BREAK

The faculty members who show an interest in student affairs (and there isn't a plentiful supply) would appreciate it if the organizations would spread out their chaperoning duties a little more.

WE HEAR

...that Coach Hathaway is going to sign up for Dr. Gibson's Driver Education Course with the stress being placed on the legal technicalities (otherwise known as tickets) of driving. The coach's interest in the course arose during the recent basketball trips to Long Island and New Palz.

REMEMBER

Today's election is important to each one of us in that Myskanla is the judicial body of Student Association. Try to choose wisely and remember that you DON'T have to put a number beside each name... just those that you want to vote for.

One Man's Opinion

After the curtain had opened in Page Hall last week, Tony Prochilo presented his play in a blaze of light and a dash of dazzling color. Although it took time to accustom our eyes to the rare combinations of light colors, we found the set to be a very pleasant and appropriate one; for it suggested to us a typical Greenwich Village apartment that any poet or other artist might own.

On The Light Side

There was a line, a mighty line before the cafeteria door. And Willie, waiting for his lunch was Number Twenty Four. But Number Three had twelve good friends.

Communications

To the Editor: Last Wednesday a poster was put up on the Music Council bulletin board announcing the programs which the Council will sponsor during the rest of the year. The poster was attractively and neatly made and duly approved by Campus Commission.

This past Monday the poster was conspicuous by its absence. It does not seem fair to the person who made it nor to the other students who might profit by it that the poster should have been removed after only three days.

And In The Final Analysis...

By JOY SIMON

It's a strange phenomena... people... (hurrying forward or backward... bearing proudly or reluctantly the labels that designate their beliefs.) If one feels the need, one can always categorize-it's the easiest thing to do; it doesn't take much-a political theory-a religion-the college one attends... and that's the category I want to talk about-the college I attend.

I am soon to leave State College, but with little remorse and no nostalgia. State was important. It was an integral part of my development-a part that no longer needs a college's sanctioning. It gave much, and I took greedily, and I am selfish enough to want to go, now that I have taken. It is inevitable-this feeling. I have no choice but to admit it. But I am not new-I am a hypothetical situation-and I must have a new category-or at least that is the logical solution to avoid stagnancy. But we hypothetical situations are tired of categories and patterns-of a society of predetermined-of prudities and mechanized thought-we are tired of smiling compartments and niceties, and in order to cope with them, we are discovering socially appropriate phobias. We are disillusioned with realisms that are nothing but compensatory pathways to personal satisfactions.

Category A: Introspectors: We love and honor them-for they are our thinkers. One cannot know the world without first knowing himself. Introspectors hate and love themselves alternately, believe and disbelieve-they are vacillators because every inch of mental expression is exaggerated beyond conception. They are their severest critics and our most objective audience.

Category B: Philosophers: They are just one step further than the introspectors-they are the thinkers who develop the thought trends-they turn specificity into generalities-they twist the loves and hates into pictures and they give it to the world. They have come out of themselves and want to find others like themselves. They are necessarily dreamers-even the skeptics-for they always lean on a crutch of hope. They are the attitude-makers and we must at least listen.

Category C: Individualists: They are the rational non-conformists, the un-Bohemian Bohemians, the un-Republican Republicans, and the other delightful eccentrics. Each situation requires a new response. They are both introspectors and philosophers. They are not lethargic and act appropriately. They are unimpaired by crudities and sadism and pumpkin manias. They are conservatives and radicals-and middle men, but would despise to be "labeled." They are men of conviction, rather than distinction-masters of ceremonies rather than robots. They are always in danger and grow in spite of it.

Category D: Internationalists: These are the composite of introspectors, philosophers, and individualists who have learned that the whole is greater than the sum of its parts. They live in a puzzle where each piece is striving to retain identity, and they are persistent in their attempt to jigsaw the pieces into congruity. Their favorite painting is a map of the world-and they will not settle for a surrealistic substitute. They know that blue and yellow make green and wonder why the recipe doesn't work. They are mighty men who paradoxically cry in their pillows at night.

These are my people and I thank State college for letting me find them. They have popped up in all disguises they have been professors and students, juitors and politicians, matrons and children. They are my criteria and I shall search them out and absorb their wealth. They have become the missing link in development. I must put them where State College has been. I must not forget, for it would be to ignore the existence of casual necessity... hypothetically speaking, of course.

Trays Waver, Steins Are Filled In German Tavern Atmosphere

As song and laughter rang through Germania Hall, and German chatter flowed fast and furiously, State men, strangely resembling the German tavern waiters with their long white aprons, hurried back and forth from kitchen to buffet table with trays carefully balanced.

When a Fellow Welcomes Hospitality

Pre-Exam Hysteria Invades As College Awaits Finals

The bi-annual infirmity, that ferocious malady, that nausea condition has set in, namely, pre-exam hysteria. There's absolutely nothing peculiar about witnessing something like flowing tears or hear deadly groans now. It's out of the question to wear a smile on your pan. (Sorry, dearie, but no matter how cute your dimples are, it's not the fad at this particular time.) You hear that rusty squeak as doors to the stairs of knowledge are opened for the first time. It's even been said that to get a date you actually have to bribe the party involved to leave his books, (either that, or ask it to go steady.) The popularity of bridge in the Commons has dropped off remarkably in the past week, and people have stopped smoking. Why? to get their second wind for exams, of course.

Religious Clubs Sponsor "Week"

Three Groups To Join In "Religious Emphasis"

Three religious clubs on campus, Newman Club, Student Christian Association, and Hillel, are joining together to sponsor a "Religious Emphasis Week" from February 11-20.

For a number of years, other colleges have had similar programs, but this will be the first step toward initiating the idea at State.

Promotion of thought among students about the place of religion in life is the chief aim of the program.

Speers To Open Discussion
Wallace C. Speers, Vice-President of the McCutcheon Merchants Company of New York City, will open discussion in assembly Friday, February 11, with a talk on "Religion in Life."

Discussions will continue in the same vein as Mr. Speers' talk, with consideration of such topics as the student's place in the community, campus problems and differences in religious views.

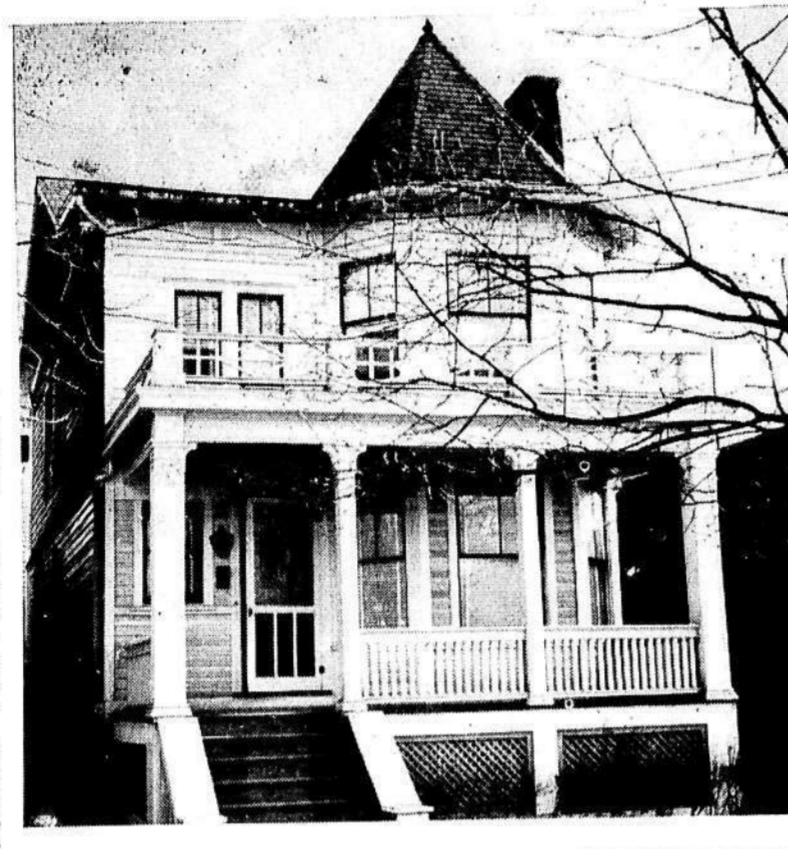

Will Hear Talks In Lounge
Tuesday, Wednesday, and Thursday afternoons, open parties will be held in the Lounge, led in turn by a minister, rabbi and priest.

Discussions will continue in the same vein as Mr. Speers' talk, with consideration of such topics as the student's place in the community, campus problems and differences in religious views.

A Valentine Dance will be held Saturday, February 12, and will be jointly sponsored by the three clubs.

KB Finds Fourth Home, Moves In "En Toto" On Quail Street; Live-In Cook, Servant Pledges Ease Lot Of Eleven Residents

By MARY FENZEL
On November 15, 1948, Kappa Beta men glanced around the rooms of their new home at 288 Quail Street and heaved sighs of relief. They had transported, via a red truck, all their belongings, from their hiding place, in a dark storage room in Sayles Hall, to the "house." They had had to move furniture in through a cellar window, while the rain poured down.

They had finally arranged the furniture and polished its sparkling clean. They unpacked their extensive collection of records which they had put away with the furniture in 1942.

Kappa Beta is in none territory on Quail Street, because this is the fourth home that KB men have had in this area since the establishment of Kappa Beta at State College in 1937.

Eleven men arise from their respective beds each morning at 288 Quail Street, and descend into the kitchen to drink the strong coffee made by their official coffee-maker. Eleven weary men trudge homeward at night to eat dinner and "strange soup" prepared by Mitchell Burkowski '52, house cook.

With their "Honorary House Mother," a 1943 State graduate, and House President Abraham Trop '49, Kappa Beta men live, give parties, and direct pledges to do unpleasant tasks.

Two KB Sophomores, at an open house for faculty, were on their way to impress one of their instructors when, with their friends, they had to pack away frustration.

The war brought losses to Kappa Beta, and it had to pack away frustration. It enthusiastically joins the fraternities who are now "at home."

In spite of these pitfalls life continues in a comparatively smooth manner. One KB member has been converted from an introvert to a person who fondly joins "bull sessions."

The administration of the house is done on a cooperative basis. The men do all their own cleaning and purchasing of food.

The war brought losses to Kappa Beta, and it had to pack away frustration. It enthusiastically joins the fraternities who are now "at home."

Thomas Offers Aid To Schools In Education Bill

Congress Will Decide On Financial Support

A bill enabling the federal government to participate in the financial support of schools was introduced in the United States Senate Friday, January 6, by Senator Elbert D. Thomas, Democrat of Utah.

Support for the measure, which in the same form was adopted by the Senate in the 80th Congress by a vote of 58-22, is bi-partisan.

Senator Taft, who introduced the bill in the last Congress, endorsed the new bill in behalf of the Republican sponsorship.

Bill To Provide Expenditures
The amount involved is \$300,000,000 per year for the purpose of helping the states, particularly those in the greatest need, to provide schools for all children and to help equalize educational opportunities by setting up a minimum foundation school program.

Treasury To Appropriate Money
In accordance with the terms of the new federal aid bill, no state will receive less than \$5 for each child of school age.

Potentially one of the greatest basketball players ever to hit Albany State, Bob Brown, is an 18-1/2-year-old freshman.

This Bob Brown isn't much different from any of the other players on the team. Hails from Pulaski, New York; a typical town; and a very busy background. Besides graduating as Salutatorian of his class, he ran the gamut of officialdom: Class President, Treasurer, Student Council, Student Association, Yearbook Business Manager, even SPORTS STAFF on the school newspaper, the "What-Not!"

Now then, what does he shine at doing? Athletics, of course. In his high school days, he played Varsity Baseball, Basketball, and Football, (where an unfortunate accident to his knee nearly ended his athletic career. So far at State it has only necessitated his leaving one game, the Williamatic contest last Saturday.)

Back to high school days. Bob was the Pulaski representative to the Empire Boys State Conference at Colgate University.

Potentially one of the greatest basketball players ever to hit Albany State, Bob Brown, is an 18-1/2-year-old freshman.

One more rivalry point was added to the sophomore rivalry score or women's ping-pong on Wednesday.

A series of two doubles and one single game was played. Mary Lou Reed and Rhoda Steur played the first set for the sophomores. They beat Ev Kamke and Dot Harding two out of three games.

High Scorers: The averages of the first high scorers are: Lee Cleatham: 135.37; Tommy Hayes: 129.83; Joan Keyton: 125.33.

Varsity Bowlers Top RPI Team

With Bob Dickinson pacing the attack, the Varsity bowling crew strengthened their hold on first place in the Intercollegiate League Wednesday night by taking two out of three games from runner-up RPI. This victory enabled the Statesmen to increase their lead to three full games over the second place engineers.

Looking at the individual averages, one must admit that a tight race is developing among the Statesmen for high honors. Fran Mullin is currently leading the squad with an average of 174.1. By rolling 612, Dickinson boosted his season's average to 173.77. Don McDonald, one of the most consistent bowlers, is just a few decimal points off the pace with a 173.72 average.

An item worth noting is the fact that State has three representatives in the top five bowlers of the entire league.

Teaching Posts Still Available Throughout State

New York State public school teachers are earning an average salary of \$3,682 during the school year 1948-49, according to a survey of conditions in American schools printed in the New York Times, January 10, 1949.

According to this survey, although New York State teachers have a higher average than any other state, California has a minimum and maximum of \$2400 and \$6225 compared to New York's \$2000 minimum and \$5325 maximum.

Teachers' college graduates wishing to teach in New York State secondary schools will probably find little trouble. This is proved by the fact that although 578 teachers are new teaching positions this year in New York there are 90 more teachers working with temporary certificates than last year. Also a report shows that New York needs, at the present, 1,120 more secondary school teachers. Other facts show that New York needs teachers are that ratios of students to classroom teachers are increasing far above the 27 to 28 figures set by the Division of Elementary Education.

Educators are concerned over the shortage of qualified teachers. They state that we are now entering the fourth year since the end of World War II and during this period the teacher shortage has become, if anything, more acute. New York State has raised its expenditures from \$465 million to \$495 million in the past year, which is a large increase compared with Alabama where 300,000 children will reportedly be without adequate schooling. New York State's enrollment increase within the past year has been some 27,000 pupils to educate with the expenditure increase which shows some improvement.

New York's education system remains relatively well off compared with other states. Substantial increase in expenditures, an increase in the number of teaching positions, and the New York State Salary law show this to be true, while southern states report enrollment increases and very small increases in teaching positions.

"Bold Look" Invades Annex As House Acquires Chairs

After living under conditions on the bare essentials of our modern standards of living, the men of Sayles Hall Annex are once again sitting on chairs and reading the evening paper by the light of real lamps. Gone is the rug from against the wall, where it made a divan capable of comfortably accommodating four men. In its place have been substituted two new davenport and four comfortable upholstered chairs.

And studying! No longer is it necessary for each Annexian to bring his chair with him to dinner, in order to be able to sit at the table. Under the new plan, enough study chairs are available so that all sixteen can sit at the same time.

Mirrors also were acquired, enough in fact, to allow each member of the entire household to admire himself while sharing the mirror with only one other person. Truly the Annex has assumed the Bold Look.
