MILNE QUINTET ADVANCES AGAINST KEVELTY ACADEMY: BOYS MEET CATHEDRAL HIGH

37 Robert Wheeler

The Crimson Tide of Milne will play an away game tonight with Keveny Memorial Academy of Cohoes. This will be their second contest with Keveny this year. In the first, on the Page Hall court, Keveny suffered a close loss at the hands of the Milne basketeers.

But Milne is very apt to have more trouble in the away game. The team from Cohoes has smoothed out considerably in past few weeks, having defeated Schenectady Vocational ard Troy Business College, two tough teams. lege, two tough teams.
Milne's quintet may take
Keveny's measure again, er it may not, according to the breaks. One thing is certain, it will be a fighting game. Continuing his policy of providing a means of transportation for the student body to the away games, manager Alfred Metz has announced that there will be a bus to Cohoes.

Tomorrow night on the home court the team will meet Cathedral Academy for the first time this year. Another tough one for the lads in Crimson, Cathedral is now tied for secora place in the Catholic League, mostly be-cause of the dash of Johnny Lynch, their muchpublicized spark plug. I the team can accomplish the difficult feat of bottling up this scorer threat, their possibilties for winning will anthey have the "stutt" o do this remains to be 8.000.

At four o'clock in the morning, when Milnites are home in bed, there is great activity going on in Milne. From four o'clock till steht, the cleaning women are hard at work straighting up. Then we come at nine and before the end of the first period, everything is back in the same disorder as before.

When the cleaning women arrive, they find; paper on the floor, gum stuck everywhere, walls scribbled up, and everything generally a wreck. Of course candy is always found on the floor. Much as it's talked about; people still eat outside the annex. We drop crumbs and rate arrive. Then when there aren't any crumbs to be had, they do better than that; they'll eat anything in sight.

To remember, the next time; finish what you're eating before leaving the annex. Also, don't write on anything but paper, and don't throw things, such as chalk and erasers. Lest but not least, in order to solve the problem of taking hold of your desk and finding you tan't let go of it, just don't chaw gum.

1940 Baccalciurecite

June 14 ·· Class Day: June 24 - Commencement! What: No Baccalaureats service?

It is the general practice for high schools and nolleges to present Baccam laureage sorvices - religious services - with their commencement activities, but Milne through the years has never adopted for that practice. What is a Baccalaureats service? It is a service of worship, held in the school auditorium on the Sunday just before commencement, much on the order of a church service.

The address (not a sermon) is delivered by a clergyman who is generally acceptable to young people. He throws out a challenge to the young graduates to make the best application possible of their educational advantages. Religion and education in reality work hand a hand, and services of this type pu's commencement activities on a higher plane. A prominent educator, an outstanding lawyer, or a business man delivers the commencement address as a rule in schools where Baccalaureate services feature.

It has seemed to many of us that Milne is missing a great opportunity when it passes up the Baccalaureate service, and it is our plan to promote an interest in such a service through a series of comments on the subject in this space. Next week an article will appear telling how Bethlehem Central conducted its Baccalaureate service last year.

KEEP IT UPAL

Everyone is still talking about the Delmar basketball game last Friday night. It was a fine game to win and a heart-breaker to lose. Observers and faculty alike, admit never having heard more 'pep' cries or louder cheering at a Milne game.

The school may indeed be proud of the team and of the sportsmanship of the studer body. From the hundreds of yells not a single hiss or booo echoed, when Milne lost the lead, nor was one heard when the visitors were highest on the score board. Niast the closing minutes seconds of the game the Milne cheerleaders lead a cheer for the Delmar five.

Let us hope that the managers of the team in future years will continue to arrange games with Delmar. Let us also hope that Maine sportsmanship may serve as a good example to students of other schools who still use the Bronx cheer in place of their school yells.

What wintry wind rekindled the flame? Jane Phillips and Ike Moore are holding up the walls again. It must be grand to be oblivious of the rushing traffic once more.

The two little L's of homeroom 121 (that was back in the eighth grade, young 'uns) had a surprise meeting this Christmas vacation. Peggy Lasher, up from Philadelphia, gave (iff Lantz quite a shock (she had changed so) but he knew what to do. Maybe he's not the only boy who wishes Peg still lived around here.

In The Congo

The natives of the Congo are black and love bright colored clothes. They live down by the river. They wear very few clothes because it is so warm. The men go out hunting for wild pigs, elephants and other animals. When they get the animals, they have a feast. After the feast the people dance to the beat of the drums.
