Dual Meets. Poll Slowed Down Harriers

Everything was looking good for the 1977 Albany State cross-country team, that is in the first half of their SUNY and Capital District Championships became history, the results were not as bright.

Citing two main causes of pressure, the desire to win early and the New York State polls, Albany State cross-country coach Robert Munsey explained what he felt the reasons were behind his squad's pionship meets (Albany Invitational, N.Y.S. Invitationals, Division III Nationals, and IC4A's).

First, looking at the team's preeason goals, it could be called Operation Turnaround

Last fall the harriers were 5-6. It was Munsey's first losing season in 16 years at the Albany helm Although for most coaches a 5-6

record is not a disaster, for Munsey, who had never experienced sound defeat here it was "There was a that we had to get back on the win-Munsey "We had to get the program

And win they did. Enough times, hirteen, to shatter a team record. Defeating Division I schools he squad's most satisfying victories. Only twice did the Danes fall short, osing to powerhouse Army and in

ne reason why there was such stress n the Danes according to Munsey. and in the long run (no pun intendi) it came back to haunt them.

not let up. They hoped to reach a small peak here, and were successful They became champions without a whole lot of trouble.

"This is the last time we cashed in fin an important meetl," said Munsey. "It restored a little pride in us." Their fourth-place finish in the stress, was affecting the squad. SUNYACs a year ago was one of the dismal moments in an overall disappointing year

the Capital District Championships, defeating RPI, Union, and Siena. By this time, as Albany kept on wir ning, a new statistic came into play

the first time ever New York State Cross-Country Poll of Division I, II

Albany moved up to as high as sixth place in the rankings. But it had its negative effects, according to Munsey. This was the other half of the pressure load on the Danes.

"We weren't used to the polls," explained Munsey. "It put a lot of was and still is opposed to them. guide on whose what," said Munsey.

But Munsey admitted that he and his squad kept their eyes glued to the rankings and this mentally burned they travelled to Van Cortlandt Park themselves out. "I guess we ran out noted Munsey. for their last meet of 1977. "Psychological gas, not physical

their own Invitational. The Danes place finish of 26 teams. This must-win situation, then, was honed to reach a big peak here, but Munsey, "blurted their progress,"

meet, the SUNYACs, Albany did probably would have claimed the title for the first time in eleven years.

Then things went downhill and fast. Favored in the New York State Invitationals at Rochester, Albany came in fifth place of sixteen teams This was the first indication that something, which Munsey feels was

"I came within a hair of not taking the team to the Nationals," disclosed Munsey "It was a gut feeling I had Then the Danes breezed through that the team wasn't going to do

Danes went to the Division III National Championships this past Saturday (held at Case Western Reserve University in Cleveland, Obio) and came in 24th of 52 teams.

In 32 degree temperature and four inches of snow blanketing the ground, senior co-captain Brian Davis performed the best for Albany. He nailed down 60th place in a field of 424 runners.

After Davis, the results weren't as good. Munsey hoped that the Danes schools but their usually strong depth evaded them.

With only one day of rest, Albany in the Bronx, the site of the IC4A's,

Entered in the second toughest of three divisions, the University Divi-The "energy shortage" began in sion, the harriers notched a 12th

"Our times were not terribly good. instead the harriers, according to In fact they stunk," said Munsey. "But bear in mind we ran hardly tw finishing in a dissatisfying fourth days before, and I think this had a place. If one or two Danes would big effect."

September and running in twelve

Undoubtedly the last four meets Albany cross-country in 1977. But as next fall rolls around, Munsey and his troops will have two plusses on their side before they start

First, they will know to ignore the have an advantage that they did not successful and winning season.

Davis'60th place finish in the National Cross-Country Champio was one of Albany's few bright spots in their last four meets

Psych Dept Offers To Pay Research Subjects

SUNYA's Psychology Depart- Monday. ment is offering students \$1.50 an hour to participate in research experiments, as a result of the abolition of the subject nool. The subject pool, formerly com-

posed of students in Introductory Psychology classes, was dissolved by Acting President Vincent O'Leary following charges by the New York State Department of Health that is strictly a temporary arrangement, students were not participating certainly not one of long standing." voluntarily. Psychology 101 students who chose not to participate were required to write a term

"Some people felt that writing a said Tedeschi make sure the fee is not included in term paper and participating in a research experiment were not equal alternatives," said Psychology Professor James Tedeschi. "Because the alternatives were so unequal, it constitutes a form of coercion. When you sit down at a typewriter, it's a difficult task, I know. Writing is hard to do." he said.

Psychology Dept. Chairman Gor- the volunteers come from?

"It's not going to be a matter of policy," said Gallup, "The President made available a limited amount of oney to help ease the burden on the Psychology Department, We hope to be able to reinstitute a modified version of the research participation requirement for Psychology students in the spring," he said. "This

The paid volunteers will be used in experiments conducted by graduate students in the doctoral program,

"They'll be helping out fellow students, actually, who are trying to get out and get a job," he said. I think the President was very generous and showed concern for the grad students. He recognizes that we need a subject pool of some sort in psychology," said Tedeschi.

said O'Leary. "We need approximately \$1200. I may have to get Salkever. dations," he said.

"We don't think we can legitimately pay out State funds," said Vice ment, the majority of it being used by President for Academic Affairs David Martin, "There might be a for improvements in SUNYA's problem there. We can't control things like the SUNY Foundation,"

"We're now trying to find out what is a legal way of dealing with ie," said O'Leary.

"We'll fund them somehow," said what's the most appropriate source where's the most flexibile funds. We're looking in our office too There are donations; sometimes the Alumni Association sets aside money for things like this. If there's a question of students being paid, there will be no problem. They'll be paid," he said.

"The funds have been made available from the National Institute of Health's annu research grant 40 SUNYA," said

According to Salkever a very small percentage of the grant will b allocated to the Psychology Departnon-teaching professional Dale Rice animal care facility.

research funds on campus, couldn't remember whether any money had been allocated to the Psychology

"Even if it had it wouldn't have been very much," said Saturno "Biology and Chemistry generates most of the grant, about seventy per cent." he said.

O'Leary said that funds used to pay student volunteers will only be extended until the end of the semester.

"It may be that some of the grads won't finish by the end of the semester, but we're hoping that they will," said Gallup.

According to Salkever, the funds will be made available into next semester, if necessary.
"As far as I'm concerned, it's there

until they spend it but there is a maximum," he said, without disclos ing this figure. "They all have to get approval from the Human Subjects Committee before they can go ahead with the projects, anyway,"

The Institutional Review Board did not, until recently, review research involving students in the Psychology Department's subject pool, said Counseling Center Director John Tucker, a member of the Board.

"The Board was established by Federal regulation only to review research that was being supported by Federal grants," said Tucker. "We later found out that HEW changed its regulations to include non-funded research." he said.

According to Tucker, every research proposal which is presented before the Board must include a statement of methods to be used in recruiting subjects for the project. The only requirements, he said, are he subjects be volunteers and that "if they are minors, handicanned mentally disabled, or female, they be identified as such."

"Psychology is a science," said Tedeschi, "The problem with psychology is that it's so popular. We have fourteen or fifteen hundred students in Intro. each semester. We just can't have labs. We don't have the personnel to handle the labs, we don't have the equipment, we don't have the animals '

'We hope students will learn something about what psychological research is like," he said. "The paper another method of exposing students to research techniques."

Tedeschi said that attendance at the Psychology Department's weekly colloquium is being considered as possible method of exposing students of Introductory Psychology

"Maybe we could require attendance at five colloquie or five hours of participation in experiments, or a five-page paper. We don't want anyone to accuse us of forcing students to participate in research projects," he said.

Martin said he has discussed some possibilities with O'Leary and the Psychology Department, but that nothing has been put in writing yet.

"This semester, some people fulfilled the requirement and then the requirement was waived," said Tedeschi. "It wasn't fair to them. Some people didn't do anything," he

ledeschi said that not many students have volunteered for experiments so far, even with the financial incentive.

"It's been a screwed up semester in which all kinds of expectations were generated and then things were changed," he said. "If we could pay them \$2.50 an hour, maybe then we

Vorster and Apartheid Win Overwhelmingly

JOHANNESBURG, South Africa (AP) South Africa's whites have given Prime Minister John Vorster and the apartheid racial policy a landslide endorsement in the election of a new parliament. The Nationals' overwhelming victory was interpreted as a vote of approval by the white minority for the government's recent crackdown on black civil rights organizations and its other tough police policies. About 60 percent of the 2.2 million voters went to the polls despite stormy weather Wednesday. The country's 22 million blacks, Asians and coloreds' persons of mixed blood

Welfare Costs Reportedly Down in New York

ALBANY, N.Y. (AP) Legislative Democrats released a study Thursday which they said showed that the cost of New York's multi-billion-dollar welfare system has started to go down for the first time in 20 years. Assembly Speaker Stanley Steingut, who is under partisan attack from Republicans for refusing to clear legislation which would have made outright cuts in grants to welfare recipients, released the study and said it shows taxpayers are saving even without such cuts. He attributed the decline to welfare "reforms" by the legislature, such as reduced payments for medical assistance and increased efforts to purge the rolls of ineligible recipients. But some of the decline in costs which Steingut cited began before the "reforms" were enacted. And other aspects of his figures were subject to debate.

Debate on Seat Belts for Buses

ALBANY, N.Y. (AP) School bus operators and state officials debated Wednesday the possibility of requiring seat belts in school buses, which some argued might help prevent injuries but others said would be little used. Sen Linda Winikow, D-Rockland, told some 200 persons at a conference sponsored by the New York State School Bus Operators Association that the legislature may require seat belts despite warning of high costs because "you can't decide on safety in terms of cost." She said that in some previous actions on school-bus design the legislature had acted erratically and had not given adequate consideration to costs. "When we decide to require something we at least need to consider what it will cost and whether it is worth it," she said.

Arab Officials Meet in Libya

TRIPOLI, Libya (AP) Arab foes of President Anwar Sadat gathered in Libva's capital today for the first of the conferences snawned by the Egyptian president's visit to Israel. Early arrivals included Algerian President Houari Boumedienne, Palestinian leader Yasit Arafat and a high-level delegation from Iraq. Libyan officials said President Hafez Assad of Syria was expected later in the day. The Tripoli parley is expected to last two days. Still to come are another "rejectioinst" conference called by Iraq in Baghdad next week and an Egyptian-Israeli meeting in Cairo about Dec. 13.

Public Members May be Added to Con Ed Board

NEW YORK (AP) A special mayoral commission that investigated last July's blackout recommended Thursday that three public members be appointed to the Board of Trustees of Consolidated Edison and that omic sanctions" be imposed if it fails to meet performance standards. The commission place the responsibility for the July 13-14 power failure on the management of Con Edison, but also sharply criticized the State Public Service Commission and the Federal Power Commission for failing to insure that the company provided "adequate, safe and reliable service." "It is plant beyond doubt" that the blackout could have been averted had the regulatory agencies forced Con Edison to implement recommendations made after the 1965 power failure that blacked out most of the northeast states, the panel

Carey to Decide Release of Attica Testimony

BUFFALO (AP) A state Supreme Court justice has ruled that grand pury testimony about the actions of police during the bloody 1971 Attica puson revolt must remain secret. Justice Carman F. Ball ruled Wednesday that Gov. Hugh Carey should decide whether to release publicly the remainder of the second and third volumes of a report on the re-taking of Attica Correctional Facility. When troopers stormed the prison, they fatally shot 39 men including 10 prison employee hostages. A total of 43 persons died. Ball ruled that "the public interest lies not in the disclosure of selected excerpts of grand jury testimony for the purpose of supporting conclusions of the Meyer Report, but rather in guarding the secrecy of grand jury minutes," Ball's opinion said.

Mild Winter Predicted

LA JOLLA, Calif. (AP) Last winter was the most bitter this nation has faced in 100 years. But Dr. Jerome Namias says this one will be less intense and mass even be milder than usual. Namias, a researcher metoerologist at Scripps Institution of Oceanography, is the man who last year successfully for cast the arctic onslaught which crippled the eastern two-thirds of the nation Indications point to a milder than normal winter over most of the nation during the coming winter," Dr. Namias said.

T.V. Commentator Sevareid Retires

WASHINGTON (AP) By his own admission, Eric Sevareid, network television's most durable commentator, already is a has-been. "This was I or Sevareid in Washington. Thank you and goodbye," he said with that ever solemn face Wednesday in signing off his final regular essay on the CBS Evening News. With that he ended a 39-year career with CBS. Sevareid . regarded by many as the medium's most eloquent and thoughtful essayist, turned 65 last week and must retire under CBS policy.

Benecke Proposes Terms For Paying Class of '78

Former Class of '78 President Marc Benecke has proposed terms for paying \$2,600 to the class of '78.

Benecke proposed paying \$600 on Dec. 1 and \$400 each first of the month through May I in a telegram sent to current Class of '78 President Gary Bennett.

Benecke had been accused of takst year while he was president of the class. He signed a promissory note to repay it and made two \$200 payments and then stopped.

Benecke said he had made his recent overtures to the Class of '78 ed by anything Gary Bennett does' because "I felt I had an obligation to pay it back."

Bennett said he would accept Benecke's proposal on the condition that Benecke agree to a penalty clause stipulating a fine of \$117 if he missed a payment. The \$117 was arrived at by totalling the accumulated interest on \$2,600 since Benecke's last payment in spring of

As of yesterday, Benecke said he had not seen a copy of the penalty clause request and would not comment whether or not he would accept the condition

Bennett said that he had a phone conversation with Benecke and that "Verbally, Marc casually agreed to working at a New York City disthe concept of the penalty phrase. He cotheque and as a free lance model ed in to open the window," Simeone basically said O.K.

communed from page three

"The kids knock the screens out to get across to the buses more quickly. and we're constantly nailing them back." He also added that "The kids have to help themselves to a certain standpoint when their safety is involved "

Assistant Director of the University Police John Henighan blamed the theft on the amount of drug traffic that frequents the downtown campus. "In my evaluation, I think a lot of these problems will have to be solved internally," he said.

"There is a definite correlation between the sale of drugs and the number of townspeople around the dorms," said Henighan. Henighan said that this is how

local people become familiar with the dorms. "I think that's how the places are cased," he said, "Some students have told us that drugs have something to do with it."

Henighan said the University Police were not going to increase their patrols of Alumni Quad because of lack of staff. He said "The residence staff will have to take measures.

I don't know what we can ofter as a preventative measure." Henighan said, "unless we have a man in the

South African **Apartheid**

by Allan Rauch

chain of events in South Africa which have prompted world-wide outrage and protest. The first of these events occurred two months ago when a young black nationalist, Stepher Biko, died mysteriously in prison.

an inquiry into the death of Biko is pending. In reaction to the Biko case, loud criticism of the South African Government came from various leaders and newspapers inside of

arresting over 70 people. Last week, police conducted a house to house search of black homes in Pretoria, and arrested 626 blacks on a variety of charges. This latest series of crackdowns on the black majority in South Africa prompted a Security Council debate in the UN. Following some debate, the Security Council voted to impose an arms embargo on South Africa. To understand the situation in South Africa, one must look beyond the present day troubles, and seek out South

The white population of South Africa, some 4.3 million, are decendants of Dutch settelers who landed in Capetown in 1652. The colony was then under the auspices of the Dutch East India Company. The early Dutch settelers vere joined by German immigrantsm and French Huguenots who were seeking religious

The British seized the colony from the Dutch in 1795. They treated the Dutch settlers there as inferiors. The "Afrikaners" were excluded from jury duty because of their language, and were forced to try to assimilate into the English culture. After about 35 years of English rule, thousands of Afrikaners Following the Anglo-Boer War of 1899-1902,, the Afrikaners were considered second class citizens, inferior to the white-English speaking population. In the national elections of 1948, the Afrikaners political party, the National Party, scored an upset victory over the United the new Afrikaner government moved to spread and strengthen the policy of apartheid

Apartheid means "separateness". In theory, ns that the nation's 4.3 million whit and 18.6 million blacks will each proceed along seperate lines of development. In order to assure this seperateness, the government under the National Party has supported and enforced the system of apartheid. Apartheid means seperate buses for blacks and whites, seperate beaches, lunch counters, hotels, rants, etc. Blacks are paid less for equal work. In the past, blacks were forced to carry identity books. The government recently resinded this law, however. Blacks still must

The cornerstone of the South African Government's system of apartheid is the plan to establish nine independant black nelands in South Africa. These remind me of Indian reservations in the U.S. According to the South African plan, the nation's blacks, some 70% of the population, would eventually be forced to live on 13% of the land. The first of these "homelands" to be granted independance by South Africa, Transkei, celebrated its first anniversary last month.

What will happen in South Africa? One thing which we can state for sure is that the situation is going to deteriorate. Even though the government has arrested most of the black population, as well as popular world opinion. this system of racial discrimination known as

Although the present arms embargo is really useless because of the South African near-self-sufficiancy in arms production, it is a migrated to the northern part of South Africa economic embargo should follow as well. The South Africans must give up on their idea that blacks are inferior to the white South power to the blacks, and thus begin to legitimate, majority rule of the government. If these measures are not started in the near future, it is not difficult to imagine a racial war segregation dates back to the British, who occuring in South Africa, the likes of which

viewpoint

report

To the Editor:

In regards to your article on Women's Sports and Title IX, (Nov. 18) I have been asked to make the following remarks in behalf of WIRA. Many of the members of the group xpressed dismay at the contents of the article.

First of all, women have been writing articles for the ASP on women's sports. Unfortunately many of these articles are either cut to pieces or are left out all together. This has happened not only to people writing about intramurals, but also intercollegiate sports. In general the coverage for intramurals has been poor this year. Many articles have been deleted so as to make room for 3 day old NFL or NBA standings.

Next, I feel the purpose of WIRA was not made clear enough in the article. Many of context. WIRA has only been in existence for three years. We began our program to serve as an alternate to varisty sports. Many of us do not wish to compete at so highly competative a level. AMIA provided a co-ed program in sports like softball and volleyball. Many of us felt either intimidated by the men. compete with them. Men are welcome to play in the league that uses women's rules and vice versa. Some sports, classified as contact sports like basketball, flag football and floorhockey we also offer. Contact sports like these can not be played against members of the opposite sex. WIRA views'ls purpose as one to provide recreational activities for women, and where permitted by law, for men.

In conjunction with these views, WIRA feels that the program, which it has built together with AMIA, best suits the needs of the university community. We would like to know what the eight non-contact sports are that the affirmative action group wants run only as coed activities. We don't feel that offering them as coed will solve the problem. and many men don't want to compete with vomen. These people may be turned off by being forced to play coed. Call it old fashioned prejudice or common sense, but you can't force people to do what they don't want to do.

women, not just those who wish to play coed. By using 1975-6 figures in its report, the Affirmative Action group has drawn a distorted picture. First of all, that was our first full year of operation. We had barely gotten off the ground. This year we offer many more activities. With AMIA we sponsor a truly coed league in several sports — volleyball, softball, mixed doubles tennis and racquetball, Superstarts and 2 on 2 basketball tournaments. Added to our leagues in flag football, soccer, floor hockey, basketball and others this greatly improves our participation We also keep track of it better.

At a school as academically oriented and with no phys. ed. major, it is difficult to get people to participate. Good publicity is needed. There also has to be the interest to start with. Women are not encouraged to be athletes. Therefore, perhaps it is natural to have fewer women than men participating.

When I was called to be interviewed for this article, I had no idea what was going on. I had not yet read the latest Title IX report, as it seems to be unavailable as of yet. I told the reporter this. When I read the article I was shocked at many of the misconceptions in print. Not just myself, but many of the people interviewed for the article feel that their views were misrepresented. If you're going to write an article get your facts straight and allow your interviewees time to research their answers. Bad reporting does none of us any

Review: Joe Cocker Concert

Cocker Was Feeling Alright

By PETER SGOVRIS

After listening to vicious tales of Joe Cocker's fits of drunken, drug-induced frenzy during a performance, it is not difficult to understand why the average oncert-goer might shy away from a Joe Cocker Show. Such shocking behavior would both disgust the old fan and frighten the new

Such rumours may be one explanation for the half-empty auditorium that confronted Cocker and his band during their recent gig at the Palace Theater. Another reason is undoubtedly Cocker's lack of public exposure in the past few

which may be considered quite impressive unmoved when contrasted with what many were led

Cocker cranked off some new material of acceptable quality, but generally it was such classics as "The Letter," "Feeling" Alright," and "With a Little Help From My Friends" that tended to fire-up the

The highlight of the show was a rendition of "You Are So Beautiful" that cliched.

For the sake of those who did manage was executed with such mastery and to attend, Cocker made an appearance sensitivity that not a soul was left

Cocker's band was in top form, as usual, and featured such notables as Nicky Hopkins on piano and Bobby

Also billed was Adirondack, a local country-rock outfit. Although they did manage to relieve some of the pressures of crowd. There was considerable hootin' 'n' rock 'n' roll anticipation, they resulted as hollerin' and even some dancing in the a disappointment since their sound was somewhat clamorous and their "original compositions" rather unimaginative and

Give It To Mikey; He'll Eat Anything By DAVID GOLDMAN restock it, you know. A lady in the cafeteria

I was in my office when the call came. The pice on the other end sounded worried and upset, like my mother's at the end of each mester when my grades come.

"Hello, is. . . is Mr. Shaw there?" "Speaking. What can I do for you?"

"You must come to the cafeteria nmediately. Something very strange has appened.

"What? The students are suddenly enjoying the food?"

"I'm serious. Please get here as soon as ossible." Then she hung up.

I arrived at the cafeteria to find Ethel Thiamine, a trembling cafeteria aide. After hanking me profusely for coming, she led me o the serving area.

"There," she said, "is where we keep the breakfast cereals. But what do you see? "I don't see anything," I said, after giving the matter a great deal of thought.

"That's just it. The cereal has been disappearing faster than we can put it out. We nly order a specific amount, and lately it barely lasts an hour before it's all gone. something fishy is going on."

"Perhaps someone is sneaking it out," I

"Boy, wouldn't that take the cake? What and of a turkey would do such a thing? He'd have to be juiced out of his gourd to do mething like that."

"Or else be in need of bread," I added with great relish, milking the joke even further.

"What I'm worried about is that someone night blame this on me. Then my 20 years on the job and my seniority wouldn't amount to a hill of beans. They'd just drop me like a nor

"Or at least give you a cut in celery," I nterjected, unable to restrain my keen wit any onger. I was making a real ham of mysell. "I just wish I had a clue as to who's doing it.

he told me "Well, that's what I'm here for. This looks ike a tough one, but I'll do the best I can," I said, giving her the usual schpiel.

"Oh, thank you," she responded. "It's so uce to see that not every student at this school a done-crazed, hedonistic, lazy, conceited Job." Thanking her for the compliment, Heft.

At dinner that night, I sat at my table ttempting to digest the night's culinary delight along with the facts of my latest caper Would someone really steal cereal from the enterence for this own personal use? How could ic take so much as to clean out the whole apply? What is the caleteria staff is in on it? What is that black object crawling around on

Across from me was seated a girl wearing a backson Browne t-shirt, reading a copy of Cosmopolitan." Using my keen sense of ision, developed through many years of working undercover, I studied her carefully, noting her delicate blue eyes, her generously proportioned figure, her silky golden brown rair, her gentle hands, and the eigarette dangling from her mouth. Clearly she was mong the best this university had to offer.

Since my girlfriend had just recently lumped me because, in her words, she had found somebody else," (which I later found out meant the entire junior class), I decided to strike up a conversation with my table-mate and see what developed. At the same time, I had a hunch that maybe she'd know omething about the cereal mystery. ombining the two thoughts (which isn't easy when there's a radio at the next table blasting K.C. and the Sunshine Band), I gave her the hest opening line I could think of.

"I hear someone's been stealing cereal from he cafeteria."

"What?" She glanced up from an article on "25 Newly Discovered Erogenous Zones" and looked at me as if I just got out of a spaceship

I tried again. "The breakfast cereal. . . it's en running out quicker than they can

"Oh." She took another drag and went back to her article. I could see my approach was going over like a lead balloon, so I tried one

"Yeah, that's right, the cafeteria called me down here to investigate. Me being a [small but dramatic pause] private detective and all

This time I got a reaction, but not quite the kind I expected. "You're a detective? Boy, I've heard some strange pick-up lines in my day

but you are the weirdest." "Who's trying to pick you up?" I asked, in as ocent a manner as possible.

"Don't play dumb with me," she said. "I know your type. You make up some cockamamie story to try to impress girls and expect them to fall for it. Well, you can just forget it, because I've got a boyfriend in Cornell who I'm practically engaged to, and he eats nerds like you for breakfast."

"Speaking of breakfast," I continued, trying to hide my disappointment that not only was my table-mate already taken, but that she was not exactly Miss Congeniality, "that's what I wanted to ask you about. I am a detective, in my spare time anyway, and as part of my investigation I'd like to ask you a few questions. Here's my card."

I handed her my business card, which she reluctantly took, and read, "Rick Shaw, Amateur Sleuth Crimes Solved, Criminals Brought to Justice, and Term Papers Typed. \$5 A Day plus expenses.

What makes you think I'd know something about this'm she asked, still not quite believing

"It's just a hunch. Have you come across my suspicious or unusual characters in the last few months?" A helluva question to ask on a college campus

"No." she said quickly, then though again. "Well, there is somebody. This guy who lives in my dorm. Everyone thinks he's kind of

"Oh God, are you another schmuck running for Central Council?" "No, no, I'm a private investigator. I onder if I could have a few words with you.

A male Caucasian about 5' 7" opened the door. He v s of slight build, and had an innocent look, except for a small but nevertheless noticeable scar over his left

"A private investigator, huh? Listen, I'm really busy studying right now. Could you come back in an hour?

Sure, that's all right." I started to walk out. "Cheerio" Gollek froze, "Hey, is that supposed to be ente? How did you know I was in the cereal

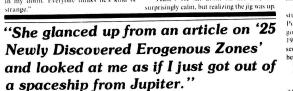

smuggling ring? I couldn't believe my ears. My first suspect was right on target. Pretending that I expected Roper to confess all along, I walked back in

the room, and faced hin "So you're behind this whole affair, ch

"No, no, I was just a runner for the I wasn't the mastermind behind it

"You mean this thing involves more than

one person? "Yeah.". He sat down on the bed still

"He told us he never tried pot."

That's strange all right. Anything else

"Mmmm, lemme think. something happened once that seemed sorta funny. We're in the same Psych class, and I went to his room and asked if I could see his for the drawer, he suddenly bolted up and said, 'No, let me do it' and got the notebook out himself."

"Hmm. . . that is strange. Did you happen see anything else in the drawer?"

. he gave me such a start when he umped up that I just grabbed the notebood

"Well this might prove helpful. Thank you very much." I could hear semi-human cries of "Bring up your trays" from the front of the caleteria, so I decided it was time to go. "One last thing. Could you give me this person's name so I could check it out?"

"Yeah, sure, his name's Roger Gollek." I thanked her, and departed.

After looking my suspect up in the as inconspicuous as possible (save for my trenchcoat, shades, and magnifying glass), I found Roger Gollek's room and knocked. "Who is it?" I heard an aggravated voice

There's a whole bunch of us."

"How exactly does this operation work? Simple. We go down to the cafeteria at breaklast, and take cartons of cereal, stuff'em under our jackets and in our pockets. anywhere we can. Sometimes we bring Adidas bags and put 'em in there. Then we bring the notes. He was sitting on the hed, and told me they were in his desk drawer. When I reached whoever wants. Plus, we make a little for ourselves.

"Mikey?"

yeah.

"Yeah, he's the brains behind this. "So you're still working for him, eh?"

"No. I quit awhile ago. I had more important things to do, like figuring out how to remain a Bio major without having a nervous breakdown."

"I'll bet Mikey didn't let you go so easily. It looks like he roughed you up a little," I said, indicating his scar.

"Oh, this? That's nothing. It's from a Psych experiment."

"Didn't you ever realize what you were doing was illegal?

"Well. . . " There was a small pause. "I guess I was kind of overzealous. I'm not normally this way, really. I'm a good kid. I'm becoming a doctor just like my parents wanted. It's just that I needed the money."

"Well, since you've been so cooperative, I'll go easy on you, kid. Just give me Mikey's room number and I'll forget I ever saw you.

one last question, Roger. "Is it really true you've never smoke

I now prepared myself for the big bust. decided to go undercover, posing as an average college student, and attempt to purchase some cereal from Mikey. Then of course, I'd flash my badge and whip the cuffs on him. Changing from my trencheoat into a Led Zeppelin t-shirt, jeans, Earth shoes, and a lightly dazed expression, I proceeded to

Mikey's room. Arriving at my destination, I knocked on the door. It was opened by a burly, but friendly, male Caucasian.

"Yeah, what can I do for you?"

I was new at this, so I didn't quite know what to say. "Uh, I. . . I'm here to get some uh. . . cereal."
"Why didn't you say so? Come on in."

I walked into the room cautiously, and glanced around. Clothes were all over the floor. Albums sat piled up on the stereo dustcover, many missing jackets. Empty pizza boxes were on the desks, along with piles of books and notes. All in all, nothing unu for a dorm room. Mikey snoke.

Sugar Smacks, Frosted Flakes, Sugar not that too: Special K. Wheaties, Product second. I don't thing I've every seen you here

"I'm not a regular customer," I told him 'Then maybe you'd like some All-Bran."

"Why don't you just show me the selection and I'll choose from there?"

"Sure." He walked over to the closet and upon rows of breakfast cereals, which estimated to have a combined street value of over \$2000. I picked a box of Life out of the closet, and slipped it into my pocket for evidence. I then quickly pulled out the cuffs and with a shout of "Karate" that startled Mikey enough to eatch him off guard, I pinned him against the wall and slipped the cuffs on.

"Alright, Mikey," I said, after identifying myself and reading him his rights, "you're all finished. You may have thought you could get away with stealing Sugar Smacks, and pillering Product 19, but when you start taking Life, sooner or later you're gonna wind up in the slammer."

Mikey was brought to trial on charges of operating an illegal cereal-smuggling ring, which under federal law is a third degree

For his role in running a covert breakfastfood operation, Mikey was found guilty, and sentenced to 15 months of watching musica highlights from "The Carol Burnett Show." Roger Gollek testified at the trial, for which he received immunity, but only against German measles. He is now going to medical school in Reykjavik, Iceland. As for myself, I picked up my usual fee from the cafeteria staff, plus a nice bonus and their eternal gratitude. all the potential cereal thieves out there, remember, crime doesn't pay. That is, unless you write a book about it afterwards

Coming December 23rd.

Like An Eagle's Nest a short story by Brenda Starr

his vounger years, stood silent for a nent. Big Ben as it is known was the nickname he received from Bonzo Lugnut his junior year in high school

Blyder was the football team's varsity center that year, and had a knack for coming up too high out of the frog like stance in which he had spent most of his adolescence. Blyder to the muffled laughter of his teammates, and disappointment of his coaches, who as the guardians of many grass altars, only saw it fitting to sternly gnaw away at their nickle plated whistles while Blyder in a constant state of sin stood straight up on the back of his heels instead of staying low and square. In an effort to make his coaches believe that he knew what he was doing Blyder added a bit of a jump, much like a basketball player would in doing a lay-up. By doing this Blyder would manage to get one of his pork chop legs up too high, causing him to have his bell "No one tolls louder!" someone velled

from the bench as the two assistant coaches trotted on the field to young Blyder, as he lay moaning like a beached whale. Bonzo Lugnut, a pimple faced, tall wide reciever, who claimed to be better at basketball than anything else, yelled out "Big Ben tolls again, ding dong, ding dong." The nickname, like all other nicknames that stuck, somehow managed to surface again and again, just as it was about to be forgotten, and was christened in the usual manner. Everyone got drunk one night and out of boredom began reminiscing Blyder's story because it had the three qualities of a great story; it was sick, funny, and humiliating. It wasn't until many beers later that, worked into a frenzy, they chanted "Big Ben, Big Ben!" Everyone laughed; Blyder farted, and passed out, Fat Spider threw-up, and everyone went home

Thus Big Ben stood silent for a moment between the silver canyons of the city. under huge plates of cut glass that reflected the gray-black of the street. Everything was streamlined and slick. Wood chips surrounded the black metal canisters that held perfectly trimmed maple trees all in a row. Blyder in another symbolically saw himself as these buildings, the jeunesse doree; tall, slim, fast, and modern, sexually defiant in their strange male objectiveness, yet still luring with their huge concrete cavities

And so he stood, pretending to be looking for someone or something, as a huge jet, probably a 747 roared high above; its echo growing louder and louder as it approached. Blyder also symbolically closed his eyes, and pictured himself flying that plane, calmly holding the wheel as a shot of sun created silver on the nose cone. He hovered in his brain only aware of the quiet prayer of the machine, which was the low humming of

At home Big Ben was running happiness in two different directions. which ironically ended up in the same place; the hall closet. At night he would come home from work and quickly shuffle himself into the basement, which was walled with unpainted cinder blocks, and damp grey columns dropping down its middle. There he worked for an hour or so until he heard the whistle of the pressure cooker, then racing up the stairs

model parts in the hall closet, as his wife and he slurped their dinners in the kitchen's formica silence. The ballon tied to his wife's chair had "amazed" printed desk. "Not in the desk" Blyder mumbled. on it, while Blyder's simply bore a huge His son left the living room, but marched painted smile which symbolically meant

Blyder looked exceedingly interested in on the table. He mumbled to himself causing small splatters of pork chop grease to glisten on his fleshy cheeks: noticing his wife's displeasure at his ill mannners he pulled in his ballon and placed a question over the smile as punishment. His wife humbly lowered her head and went back to the mechanical process of slicing and eating, only slowing down the automation to stop her glasses from sliding off her thin face. Blyder's fattish pale hands sucked in the control box and switched the channel all in one motion. Lauren Bacall turned to him with knowing eyebrows and said, "You ever shoulders shrugged and shook as he let out a loose laugh causing his fingers to accidently change the channels. Temporarily lost he once again put on the orev haired newsprogram.

box out of the hall closet and trounced into the bedroom, where he tied a bright orange balloon with "Bliss to the ninth power" printed on it, to the bedpost, and roceeded to dab and titillate his wife as long as the batteries held out. On occassion when caress and electricity had for a moment felt on par with the wood chip cannisters on Madison They talked. What is love?"Always being young and beautiful" she said, "and being room drinking expensive sherry till all

LIFE

GAS

fingers. "Father, Dad? Where's the bandaids?" he said in a clear adult voice. The child opened the top draw to Blyder's back in with a large model plane box under his arm, and a balloon tied to his diaper that had "Life is a gas" printed on the news as he dropped a fork full of peas it. He began to snap the pieces together without having to look at the directions.

stooped posture or the way he wore his clothes. The shorts, one leg cut longer than the other, and the soiled tee-shirt he wore was much too large for him.

Blyder spoke, "Why do you carry an umbrella about with you while mowing

Blyder's son did the twirl of a Spanish dancer over to his father, and handed him a flower. "It's meant to be ironic" he said,

Blyder symbolically saw himself as these buildings, tall, slim, fast and modern; sexually defiant . . .

"No glue?" said Blyder.

"But I won an honorable mention with that one in the city years ago. Remember? sponges when I put on the decals, and remember just before you left for college the wind knocked it on the floor, remember? And I had to mold new parts because the company wasn't making this Blyder took a semi-large styrofoam brand model anymore. I still have the parts I made in the box in the hall closet. The model's downstairs with the others, it still looks brand new, I'll show you."

Blyder got up from his chair and began walking toward the cellar door when he caught sight of his son outside talking to the strange, peculiar man who had been chemically mixed, her nose lit up. Blyder his neighbor since God knows when. He opened the front door, the smells of a hot summer afternoon layed heavily around Avenue, which made the \$9.97 gamble on him. The humid smell of wet cut grass mailorder styrofoam all worthwhile. mixed with gasoline irritated his nose and brought small wells of water to his eyes. His son sat with a hand full of flowers able to sit aroung nude in your living laughing. Amused by the stories told by the neighbor, the youngster began to hours of the morning, and not having to dance and toss the flowers all about the

"It's Sunday" said Blyder, looking at

"And why do you suppose that the poor boxes need to be filled?" said the man, checking the gasoline level in his

tree eating an apple. "Do you think it's his sunburn that's making him irritate you

"I don't know" answered Blyder, "but this is no way for a neighbor to act being sareastic and all on a Sunday morning

"Wasn't it an outrage when the Apostles had admitted three thousand people in the church in one day," softly whispered the man, standing up. His eyes had lost their soft blue color and glacd in a grey storm at Blyder. "Jell me how could so many at once see the truth, and accept it so fast?"

"Now look you," yelled Blyder

BINGO

type. A famous man said that before they

At the office Blyder viciously eyed the tender burnt flanks of young secretaries about the office. The first burn of summer always left them so vulnerable, layed their lives open to him so to speak; the strap marks and then again no strap marks, the neglected areas that revealed themselves out of nowhere while reaching for a file or record book, showing white like suddenly turning over a catfish. The small winces of pain shown almost unexpressively by a twitch of an eyebrow or the casual rub of a leg, made them all the more reachable. as moisture and plastic gripped at sore thighs: made them seem all the more to need him as a pillar of strength and example of the smooth flow of office behavior, in this harem of forgotten suntan lotions, and royal virgins sacrificed to the sometimes mystical chlorine God of another neighbor's pool.

He worked at his desk as usual, dialing numbers, calling numbers. The computer ted out the telephone numbers in a sequence, which the programmer told him made it easier and faster to dial, but the message was always the same: "This is the Xerox corporation, we have reviewed and put your application in our files, unfortunately we are not engaging in any new employment at the present time. You will be given full consideration when any new positions calling for your qualifications open. If you have any further questions please call our office between the hours of 8 a.m. and 4 p.m. I hank you for your interest in Xerox.

The formal statement was handed out in a memo a month ago, a matter which was passed unanimously as rumor has it, at the last board meeting, "They figure it'll save a lot of time instead of everyone having to make up their own thing, and wasting money on the phone," said the saggy-kneed secretary with flaring purple hair, handing the memo to Blyder, Blyder

stem tickled her when it touched between (Lance-Enhanced, poetry, he laughed; her breasts - her laugh aggravated

"We're not hiring if you're looking for a job" yelled Blyder, trying to stare down his neighbor. The unusual walk of his neighbor made the secretaries smile behind his back, and Blyder's disgust for him grew more. The man seemed to have an inner awareness of their laughing, yet remained taciturn, and sat in front of Blyder's desk, leaning on his umbrella. "If you're not trying to get him a job

what are you doing here" demanded Blyder of his son. Blyder's fat bald head began to sweat under the neon lights.

"We thought you asked us here," said his son, arranging flowers on the desk.

early next year, Mr. Y."

Blvd., Abestos Beach.

"Maybe we'll stay here?" he thought again, tripping backwards into his thoughts. Blyder thought of adding extensions to the house, maybe even buy the house next door and extend into that Maybe move and extend the house

Blyder began laughing again, he looked down at the pictures of his son's graduation from law school, and he was happy there too. His life was full of happy moments, most of them framed on th living room wall. He added the final thought of buying the reservation his son worked on; this was partly because he was drunk, and partly because he forgot the government protected the rights of American Indians to their land.

It was a foolish move for his son to give up a good law practice a few years ago, and to go to Arizona to teach children to write. But now it didn't matter, foolish mistakes could be sewn up easily. Blyder went over to his desk and once again took out the Father's Day card his son had sent him. His son had inscribed the card as such: "We should live in the world as individuals, like eagles always remaining high above the clouds in our mountain towers, guarding the nests of human sorrow.'

Blyder heard the distant voice of a lawn mower, his strange neighbor would be outside again, perhaps his son would be with him. He thought of the peculiar man and how he made his son laugh.

"It's hot out" Blyder said, aloud. "I'll bring him out a beer, and tell him the good news."

I wilight was now approaching, the clouds hung low, like grey lumps of lead with only the pale sheen of the last sunlight holding them aloof over the endless waves of pepper colored shingle that drifted on in all directions. As Blyder walked out his front door he saw Chris hanging from an antenna, his thorns were blue and electric, and a balloon with "Weltschmerz" printed on it, pulled tautly at its string in the steady blowing breeze. His face was sad, and he looked toward Blyder as if to say something, but Blyder was busy walking across the lawn with a beer. Blyder's neighbor looked as though he was at the point of near exhaustion, as he slowly pushed the rusting machine across the lawn.

For Blyder this all symbolically mean never being exhausted again, it mean the opening of possibilities; of doors opening with the push of a button, it also meant of course, with thankfulness, a new organ Brenda Starr, 1977

"No glue," said his son, pulling yet nother piece from the plastic mold.

Mind The Bollocks" Sex Pistols
Warner Bros. BSK 3147

By AL BACA

Well, it's finally here. The number one group in England, the Sex Pistols, have at last signed with an American record company. Their debut album, "Never Mind the Bollocks, Here's the Sex Pietols" is now available to the American public.

One would have had to been in a deep oma to have not heard anything about the exploits of the Sex Pistols in England during the past year. They have had three hit singles, without the benefit of radio airplay. They were banned from virtually every rock club in the United Kingdom. and have received more press than any other new group in existence. With the release of their album in the United States it is now possible to see if the Sex Pistols, who epitomize English punk rock, can reach a mass audience outside of England.

Technically speaking, the music on the album is hard-driving, super-energized rock and roll at it's most basic core. To gem the novice, all the songs may sound alike, but after listening to the album several times, it becomes apparent that each individual cut contains its own message of desperation or despair.

The group consists of Johnny Rotten n lead vocals, Paul Cook on drums, Steve Jones on lead guitar, and Sid Vicious on bass, although some of the songs were recorded while Glen Matlock was the group's bassist. What really distinguishes the group from the scores of other punk rock groups that are forming in the United States and England is the snarling, animalistic voice of Johnny Rotten, who spits out the words to the songs with a degree of hatred and hostility rarely achieved on a vinyl disc.

The album itself contains the three songs that reached number one in England, "God Save the Queen," 'Anarchy in the U.K.," and "Pretty Vacant," plus nine additional cuts. One must listen to the album several times in order to understand the lyries, but once the listener begins to relate to the words of the songs, he will be encouraged to play the album over and over again.

"EMI" is a song which deals with the time EMI. England's most conservative record company, signed the Sex Pistols for \$80,000, then cancelled the contract after Steve Jones threw up on an old lady in public. One can tell from the lyries that the Sex Pistols hold nothing back in their songs. On "EMI," they virtually attack the record company that terminated their contract ("I tell you it was all a frame/They only did it because of fame/Who? EMI").

Some of the songs can even be thought provoking. In "Anarchy in the U.K.," Johnny Rotten establishes himself as an

anarchist/I don't know what I want/ But know how to get it.")

To those who are able to empathize with the intense emotion generated by the Sex Pistols, the album may be hailed as a masterpiece of rebellion. The music is as subtle as German blitzkrieg. The only problem with the album is that the music will either hit you and leave you completely stunned, or it will seem like a lot of noise. To anyone who has ever been angry, hurt, or in any way affected by anything, this album is required listening.

Hat Phillips

By DENNIS SCHEYER

Philo Records is a unique company located in North Ferrisberg, Vermont in a giant barn. They specialize in what they

One of Philo's most popular artist i Utah Phillips. He has put out several albums over the past four years including his latest Good Though, But his first album, simply entitled Utah Phillips, is

nut. He can name more railroad line than most of us have ever heard of? Irains, buckskin, hobos, whiskey, unions, wild women and good times that's what this record is about.

Utah's love for trains might explain why almost every cut on this album starts out with a different sort of train sound effect, "Queen of the Rails," "Daddy What's A Train" and "Starlight on the Rails" are most definitely on the right

Other tayorites include "Moose Turc Pie" and "Phoebe Snow." The recording is clean and simple, featuring only guitar dobro, acoustic bass and fiddle. / portion of the album was recorded "live at Caffe Lena in Saratoga Springs.

This is basic good time folk music, n gloss here, just a plain of good time!

By PETER HOFFMAN

you read the credits on the albur jackets, then you've probably heard of Herb Pedersen. For the past few years, he anti-Christ ("I am an anti-Christ/I am an has been on a good many of the albums merging from Los Angeles. Among the playing by Byrne, drummer Chris Frantz ople he has played for are Jackson Browne, James Taylor, Neil Young, and Jerry Harrison is tight. inda Ronstadt. He is an excellent banio

Yet on Sandman, his second album. voided. It doesn't seem as if he has from normal FM fare. earned anything from playing with them. as the album is both aimless and dull.

The most disappointing aspect of the um is that Pedersen's first album, they're not polite?" "Southwest", showed promise, It was an uneven effort but there was enough good together, and create a highly original music on it to make one optomistic about his future.

The major problem with Sandman is he material. Pedersen wrote seven of the album's ten songs and there is really nothing to distinguish one from the other. hey are all country-flavored love songs with arrangements that lead nowhere.

As an interpreter, Pedersen isn't bad Maybelle Carter's, "Fair and lender adies" is done up well here and shows e possible future direction he should ake. An interpretation of Odell McLeod's, "Cora is Gone" is beautiful. It has an ethereal feel heightened by Dolly Parton's background vocals.

Aside from Parton, Pedersen has other ble backing support. Lowell George, eland Sklar, David Lindley, and Ronstadt all lend a hand but they may as well not be there at all. On the songs in which they perform, it is almost mpossible to distinguish their nearance

What Herb Pedersen lacks is a musical dentity. It is obvious that he has talent an it shows on "Sandman" only poradically. He should continue his ion work because that is what he does st. Hopefully he will find the right meheor himself and someday release a record

"Talking Heads: 77 Talking Heads

By DAVID GOLDMAN This is the debut album by the "new

wave" band that's been getting a lot of ress recently, and rightfully so. To set he record straight. Lalking Heads is not a punk band. First of all, they certainly don't look it (their appearance is even straighter than an average rock group), and second, their music is much more melodic and eatchy than punk. The proof can be found on this record.

The songs on Talking Heads '77 are by guitarist and lead singer David Byrne, whose voice is from the David Bowie/Bryan Ferry school of dramatic, quivering singing, and takes some getting used to. Byrne is also given to shouting and other weird vocal displays which make him sound like a combination of John Lennon and Jerry Lewis (at the end of "Pulled Up", especially, he literally goes berserk). But his music is for the nost part inventive, concise pop-rock but with enough variety to keep it interesting; ranging from the haunting "The Book I to the marchlike chorus of 'n roll of "Pulled Up". Moreover, the excellent music

bassist Martina Weymouth and guitarist

Byrne's lyrics, on the other hand, are player and has helped give life to some to anything but typical: he tends to use he more mundane songs of the above cliches and everyday speech rather than the usual poetic images associated with rock. In addition, the words are Pedersen has gotten caught in all of the frequently repetitive, sometimes almost trappings his contemporaries have childlike, but in any case they are a far cry

When was the last time you heard civil servants mentioned in a rock song? Or heard someone sing "I hate people when

Surprisingly, all these elements fuse musical style. Talking Heads '77 is unique, fun to listen to, and indeed an impressive debut. Whether or not the majority of American record-buyers will share this view remains to be seen, bu surely any open-minded rock fan should give this album a listen.

By JON BRESSNER

Now that Dexter Gordon is once again on the top of the saxophone world nothing less than perfection should be expected of him. His new album, Sophisticated Giant, is in no way a letdown Sophisticated Giant is somewhat more laid back than its predecessor but most of the album bops right along

The first time, "Laura", starts the album off on a mellow note and is followed by "The Moontrane," a song named after the late tenor and soprano great, leaturing Woody Shaw bopping on trumpel.

This is Gordon's first American studio album since he left for Copenhagen in 1962. Despite the fact that this is a large band the harmonies are extremely welwritten, mainly by Slide Hampton, giving the whole band articulate voicings and making them an integral part of each

The big band set-up, atypical for Gordon, allows for very interesting instrumentation without falling into what could be called the stereotyped big band

Gordon feels that a large band studio recording contrasts him in a different context than his live quintet. This leave one filled with anticipation over wha type of contrasts Gordon will try in hi next album

One of the finer tunes on the album "Red I ox." highlights Bobby Hutcherson on vibes. Rufus Reid on bass and Benny Bailey playing horn. Slide Hampton solo on his orchestrated version of "Fried Bananas" along with Bobby Hutcherson and Woody Shaw, Woody being the only artist on this set also with Gordon' Homecoming quintet.

Sophisticated Giant can be classified not only as music but as fine art it is a masterpiece. All the musicians were in top form and did there part to make this album very tasteful and listenable. I strongly recommend Sophisticated Giant Tentative Decisions" to the joyous rock to anyone who digs either jazz or just

Master of Ad-Lib

It has been two weeks since the David Brenner concert which, for those of you who missed it, was held in the University Gym before a close to sell-out audience

Rumor had it that in addition to the usual bleacher seating there were going to be semi-comfortable chairs. They never showed up. No major problem . . . but t would have been nice.

The evening begins as a tall lanky man with a big nose wearing a brown corduroy three-piece suit appeared on the stage. After disposing of the stool (a stand-up comedian to the hilt) Brenner went to work. The audience obviously was psyched for Brenner. Even the opening, 'How ya Doin?" got a big laugh.

Brenner had a joke for everything . . . and they were funny too! There were nose jokes, short people jokes, and of course, mother jokes: Brenner: "But Lony's mother gave him

an ice-cream cone! Mom: You do everything Tony does!

Would you jump off the Empire State Building if Tony did? Furthermore there were older brother

jokes and even older sister jokes. But the best was the speedreading jokes, "What happens when speedreaders get to the nny parts?"

Brenner's metaphors would please bouquet of elbows! She even had blue

We were told that his appearances or television game shows were not all fun word-association on the "The Magic Marble Machine" when he was asked to name an "athletic supporter" and he said "Jock!"

While, a live performance to a collegaudience is far different from appealing to an audience in their living room, such as his Tonight Show visits, Brenner's appearances in Las Vegas prepared him well for this. He totally succeeded in relating to everyone in the crowded gym.

Unlike a George Carlin or Robert Klein, most of Brenner's material is adlib, as in Brenner's case, improvisation is what makes his act unique enough to be successful.

Brenner's onstage manner is best describes as "loose."-His routine, which primarily ad-lib, follows a well rehearsed format. Brenner mentioned his upcoming appearance on "The Tonight Show" Dec 5, 6, and 7th. He told the audience that a majority of the routine they heard that night was new material that he was testing. The audience was the catalyst for what he would use on "Ionight." He thanked them for their help.

Brenner's performance lasted almost two hours, a long monologue by anyone' many an English comp professor. He told standards. Throughout, he kept the us that his teacher's face was like: "a audience laughing; the obvious

David Brenner entertained a close to sell-out SUNYA crowd with such lines as "my teacher's face was like a bouquet of elbows!" So look who's talking. From Us

rate gripe

To the Editor:

The ASP has slapped all SA groups in the face by raising its ad rates in reaction to the symbolic funding of the four Class Governments. The Class Governments collectively represent as many undergraduates as does Student Association. In the past the ASP would not give ad discounts to the Classes because the ASP was then funded by SA. Since the ASP went independent some time ago, the classes have asked, begged, and argued for the ad discount given to other similar primarily mass programming groups such as the Quad Boards. The Classes agreed to the \$1.00 SA funding in order to get the ad rates we felt that we deserved. In the past Class Governments have had to use MYSKANIA's name to get the ad discount; this practice has been continued this year by the Class of '78 and SA in order to save Class funds. To argue to stand for an inordinately long time (in some that Class Governments were not worthy of a cases, several hours) in an overly crowded discount because they are not SA funded is place where inconsiderate, impatient people like beating a dead horse.

Class Governments strive to serve the University Community that we all live in; the ASP in raising its ad rates stabbed the University Community in its back, Class Governments have enjoyed a good working relationship with the ASP over the last few years; but the Class Governments should not be used a the scapegoat for a questionable raise in ad rates. Something is rotten at Albany State

fire safety

Since all sane people are concerned with their personal safety, it is not unreasonable to assume that they are interested in fire safety procedures. As a resident of the Country Squire Motel, it is my belief that the nanagement's concern for their patron's welfare is minimal. There is cause for alarm despite the fact that the outer and back walls of each room are cinderblock. The walls idjacent to each room are not. There is an active ventilator system, and it runs through the top of each room. In the event of fire, smoke and gases can be readily transferred from room to room. Moreover, there is no alarm system; no buzzers, no bells, no sirens. There is nothing to alert students.

The management has not forgotten us and in a "note to all students," they have provided us with a fire "procedure." The note stresses that in case of fire the student should first evacuate the room. Second, the students in effect become a vocal alarm system and are nstructed to call out loudly. The third objective is alert the management immediately if possible." And lastly, we are to "knock on all doors to awaken sleeping residents." The note goes on to say that if the fire is uncontainable, "there is a dime taped under the public telephone." We are to use it to call the Fire Department. We are also urged not to remove or steal the dime unless there is an emergency. I personally have not seen the dime. If it is missing, I do not want to be accused of theft.

Any fireman will tell you if a fire cannot be quickly extinguished, by a device readily eccessible, to evacuate the building and go for help. Under no circumstances are you to reenter a burning building. The Country Squire has three fire extinguishers, of which none are readily accessible. They are enclosed in three locked rooms. If a student feels that he can put the fire out, he is to run to one of the designated rooms, and since "each room has a

window; break the window with a object. . . to get the fire extinguisher. Breaking and entering is a criminal offense Now even if you don't get arrested for trying to save the Country Squire Motel, you should be for reentering a burning building.

I would like to urge readers, if ever at the Country Squire Motel, to watch their words. False alarms are a criminal offense. Bring you own dimes

Eric J. Schneide

smoke rude

To the Editor:

The rudeness of many people is often bes expressed in a crowd, where the consideratio for others is lost in the name of self-enjoyment This was painfully apparent at the David Brenner show last Friday. After being forced veaseled their way into an advantageous spot in the line they did not deserve, many of u were unable to breathe, let alone move. Imagine our distress and disgust, then, not to be able to breathe relatively cool and fresh air once we were safely inside the gym because a small minority chose to ignore the bright red "No Smoking" signs on the walls. Many could be seen to be lighting up in the darkness of the gym, disregarding the possiblity of choking or igniting their neighbors. Whether the substance in question was tobacco or not is irrelevant. (At gatherings like this, marijuana smokers often feel they are exempt from such rules, temporarily forgetting that this is illegal anyway.) Brenner's good-natured barb pointing at the sign behind him was no help; he, however, was not the one at fault

Soon it will be illegal to smoke anything in any public place. The enforcement of antismoking rules is an imperative if we are to protect our lungs and atmosphere, but is appears that this long-sought after goal is not in sight. Non-smokers must stand up for their rights in all places where smoking, cigarettes or otherwise, is an immediate fire and health hazard. This is apparently not being done in lecture centers and classrooms; buses; and the where rudeness threatens your favorite organic chem reference books or Congressional Records to go up in smoke. Tobacco addicts: When you infringe on the Your right to smoke ends where my lungs

LR. Davis

major madness

I would like to make a few comments i reference to the "Guest Opinions" article in th Luesday Nov. 15 issue of the ASP entitled What's Your Major?." First, let me say tha my comments are not directed at the journaist or the article per se. Rather, they focus on tw phrases in the article that I feel are indicativ of the general attitude of many SUNY/ students toward students of biology.

First, the term "Bio Major" is no synonymous with the term "Pre-med" Second, the article seemed to imply that biology student with good grades is medical school bound while graduate school or indecision is the fate of lower academi achievers. This is simply not the case. There are many fields of biology, and there are many students (including "A" students) who wish to pursue careers in this diverse science

editorial

Media Blitz

Not since the Australian Sex Baron swept the island of Manhattan has there been such a fury of interest and activity in the newspaper

The Tower Tribune will soon be thrown to the lions to make room for the University News, a SUNYA News Bureau/Community Relations Office collaboration. The Season Ticket will appear as a student-run monthly, dedicated to covering women's and intramural sports. And SUNYA's own Baron, SA Vice President Kathy, is working with President Dave Gold on the launching of the SA News, a one page newsletter devoted to, surprisingly enough, SA news.

Add to this the off campus students' newsletter Getting Off, Fuerza Latina's La Voz Del Pueblo, which is presently published within the pages of the ASP, and two new Albany community papers, No Exit Press and downtown's South End Scene, and the result is more avenues of communication than you can shake a pica ruler at. Throw in WCDB-FM next semester, and SUNYA becomes a real media hothed.

Which is nothing short of fantastic. With a total population of over 20,000, this university can surely support more than one newspaper. And competition is a healthy means of improving the quality and quantity of news coverage on campus.

The University News will be an especially welcome addition to the fold. The ASP is run by students, and covers the news on this campus from a student perspective; it will be interesting to see how the same issues look on the faculty/staff side of the podium. The new weekly will also have its own editorial board, and will hopefully come closer to fulfilling the role of an objective news source than the Trib, generally regarded as an administration mouthpiece.

The Season Ticket should also be interesting to watch, as an alternative entry in the sports field. They'll be publishing monthly, and herefore should have the time to go into more depth in their coverage than the ASP can, with its twice weekly deadlines. Competition, again, should insure that more sports are covered — and covered well.

It is imperative, though, that these papers be spared the fate of the Sandbox, the Albany Statement and the Washington Park Spirit. That's going to require involvement - yours. With such a large selection to choose from, there should be something for everyone.

The Albany Student Press welcomes, with open arms, its journalistic brethren. And wishes them the best of luck

QUOTE OF THE DAY

"The ASP only covers what they think is newsworthy."

SA Vice President Kathy Baron

Employment Opportunity Camp Dippikill - Intersession (2 positions)

Applications may now be obtained in the SA Office (CC-346) for employment at Camp Dippikill during intersession. Your service will consist of heavy physical labor working in the camp's wood lot felling, cutting and hauling firewood.

> The main qualification is that you are in excellent physical condition and willing to work out-of-doors all day.

The job will begin on Monday, January 2 and finish on or before Wednesday, January 18.

We will work ten 8-hour days. The weather will determine days on and days off the job. The pay will be \$220.00. Student tax paying undergraduates only. Room provided but not board: complete kitchen available.

Applications must be returned to CC-346 no later than Wednesday, December 7,

and you will be contacted by phone no later than Friday, December 16, if you have the job.

A complete listing of successful applicants and alternates will be posted in CC-346 on December 16. Interviews required for top applicants.

Won't Get Fooled Again

liberate. You say something you don't quite mean. You know you don't mean it, but you say it anyhow. This situation describes the deliberate liar. Alternatively, the entire process can take place on a subconscious level. You are truly unaware that your words conflict with your beliefs. In this case, only hindsight can prove the discrepency.

In this permutation of words, I will describe a process I call "getting fooled". This process can occur anytime, anywhere, involving anyone. It merely presupposes a geographical fault line separating what you honestly believe from what you say, or superficially believe. Thus there are two facets of the "getting fooled" process. The first occurs when you verbalize a thought consciously contrary to vour inner belief. The second facet, far more devastating, occurs when you outer belief conflicts with your true, inner belief. You actually believe what it is you are saying or thinking. This is the heart of getting fooled.

There is a delicate line separating those times you are truly getting fooled from those times you're not. If you truly and wholeheartedly believe, from the deepest level of your conscious, what it is you are saying, or what it is that you are thinking to yourself, then of course you are not being fooled. It is those times when you think you believe your conscious thoughts, but there is a small margin of hesitation or doubt in the back of your mind, that you leave yourself open to be

Karl Marx said that profit is accrued in the production of a commodity, but realized only when that commodity is sold. In a similar manner, you fool yourself at the time your outer belief first diverges from your inner, but you only realize that when you "come to terms" with yourself, when you accept your inner belief. It is at this point of comprehension that you finally realize you've

alter the truth.

conscious clearing experience because it removes that margin of doubt in the back of your mind. You have faith in your true belief, and faith in yourself. However, this conscious clearing probably first surfaces as confusio when you don't really know what you believe. That's one of the reasons it's hard to come to terms. Another is that you just may not want to face your true belief. It may be painful to do so, or your true belief may not be desirable to you. For example, you may state, and even

prejudice can exist. Being consciously aware that you are prejudice would conflict with your superficial belief, so you may try to suppress your true, inner belief. You may seek justification by saying that it

is a human trait which compels indiv avoid discovering their true beliefs when it may be difficult or painful to do so. It is easier to trust your outer thought and be content over your inner thought and be forced to come to terms with yourself. This would be true if you could fool yourself indefinitely, never discovering your true belief. In these circumstances, the outer belie will never conflict with the inner. However, I believe it is nearly impossible for this inner-

The duration of the inner-outer conflict is in

outer belief becomes. It then he and harder to accept the inner belief, and its nal acceptance will be an arduous to

In the last analysis, there are no benefits to getting fooled. Being fooled into a belief only shadows your true belief, it does not replace it. You cannot remove the doubt in your mind until you accept your inner belief. Coming to terms with yourself may be difficult painful confident individual who is sure of his beliefs

individual expressing his inner thought. They accepted or rejected by the reader. As you too easy to fool yourself and be content.

The Student-University Contract

When a student enrolls in a college or occur when courses that are promised to be arrangement with that institution. The promised, if at all. consideration from the student is the payment of tuition and fees and the promise to abide by certain courses or at certain times never do so. easonable regulations, and from the school comes provision of academic and other services. The terms of the contract are found in the relevant provisions in school catalogues, bulletins, and other printed material, representations of school agents, and customs

Thoughts on Sports

Oh. So Close

Last Saturday in Chester, Pa., the curtains fell on the Albany State football team. Behind those curtains were 40 football players and a coaching staff whose hopes for a national championship were shot down by the

The Danes fell one game short of a chance at an NCAA Division III crown. It wasn't the 33-15 loss itself that hurt the most, but rather the captain, maintained her winning circumstances that contributed to it. All year round, the offensive unit managed to stay injury-free. The defense was the one that was hurting during

But the injuries finally caught up with the offense. And in big bundles. First, their leading rusher Sam Haliston didn't even dress for the game. Then Glenn Sowalskie, the other running back, got knocked out of action early in the game. And topping that off, the Danes' leader, quarterback Brad Aldrich, was sent to the sidelines and he never returned

Anytime a team loses three fourths of its starting backfield, it has to be weakened. I don't care what team it is.

And adding insult to injury, the condit ons the game was played in were just not conducive to Albany's style of play. The game was played in the mud with a 40 mile-per-hour wind. Ironically, the Danes' only other loss of the year, on opening day, came on a day when the winds were just as strong. freestyle event. But, she pulled ahead Maybe Albany should play their games in the Astrodome.

But don't look down on the team. True, they won't be in Alabama omorrow, or on national television, but this team has given this school something to be proud of. Exceptionally proud.

No other Albany team has gone as far as the football team has

All the players should be commended for the dedication. Every afternoon they were on the field practicing, rain or shine. And much of it was rain. Many evenings they would spend in the football office watching films. That is

dedication.

And don't forget the coaching staff. While head Coach Bob Ford receives most of the credit, (head coaches either get praised or blamed) he didn't do it a second place finish in the required by himself. His assistants, 12 of them, were busy all year scouting and event and third in the optional comworking with the players. This is a real class organization.

And the fans deserve some credit, too. Two of the three home games were fortunately played in rain this year, but that didn't stop the fans from in which Albany swimmers missed a coming out. And when the team returned from its victory over Hampden-victory by a slimmargin. Diana Pitts Sydney, 200 fans mobbed the team at the airport.

As for next year, the coaching staff is not just sitting around thinking a backstroke, but was beaten by just a repeat performance is a guarantee. The coaches have begun recruiting high few seconds by Heather Scudder of school players that hopefully will fill the nine vacant spots which will appear Hartwick. Theresa Holtsberry lost next year because of graduation.

But no matter what happens next year, 1977 will be remembered as the few feet

Women Swimmers Lose 77-54

Men Swimmers Tie RPI In Great Dane Relaus

The Albany State and RPI men's ning teams tied for first place, with 122 points in the Eighth Annual Great Dane Relays held on

The most thrilling event of the day was the 400-yard medley relay, topping off the day's activities. The team co-captain Dave Rubin. Steve Rehfuss, Bob Gonzenbach, and Mike Dwyer needed a second-place finish over Coast Guard to tie the

Men Swimmers Hold Fund Drive

On Dec. 7, the Albany State men's wim team will host it's first "Swin for Florida" event from 6:15-8 p.m. at the University Pool.

This big event is being held to helm raise money to send the swim team to Florida during the intercession vacation to participate in the American College Coaches Swim Forum in Ft Lauderdale at the International Swimming Hall of Fame.

The Danes had been working fall concessions for the football and soccer games but they fell short of the monetary goal and, to make up the deficit, hope to gather pledges for "Swim for Florida" which will be a maximum distance of 200 length (5000 yards).

Anyone interested in supporting the swimmers and divers of Alban State should contact Coach Ron White in the Phys. Ed. Dept

Danes Ousted By Widener In NCAA Semi's

Injuries Hamper Offense; Fail To Hold 15-12 Lead Albany showed signs of bouncing right back, but on a crucial third

Last Saturday aftern rained-soaked field near Philadelphia, the Widener Pioneers stunned the injury-ridden Albany State football team 33-15 in the emi-finals of the NCAA Division III Championships.

By game's end, Albany was playing without three quarters of their starting backfield. Running back Glen Sowalskie was injured in the first quarter, and quarterback Brad Aldrich left the game after a hard hit in the third quarter. The Dane's still suffering from a hamstring pull from the previous week.

"I felt bad the game couldn't have been played under different conreflected Albany coach Robert Ford, "We were operating at the one-yard line for the Danes' sedisadvantage, but that's part of football."

Widener rode a strong following wind to an early first quarter lead Albany 35-yard line, Pioneer quarterback Mark Walter guided his team to a five-play scoring drive. capped by a seven-yard touchdown run by Chip Zawoiski.

The Pioneers followed up with another score late in the quarter. Walter threw 21 yards to senior Ron Hodge, and Zawoiski scored his second touchdown on a three-yard Widener lead. The Pioneers' twopoint conversion attempt failed.

But the wind advantage shifted in the second quarter, and with it, the game's momentum. When Widener was forced to punt from their own 15-yard line, Albany secured excellent field position at the

Aldrich, faced with a third down and 22 situation, fired a 29-yard strike to tight end Ed Sellers. On the very next play, Aldrich pitched to Gay fumbled the ensuing punt and halfback Bruce Churchwell, who

swept left 26 yards into the endzone. Aldrich ran left off-tackle to complete the two-point conversion for the Danes.

The Albany defense continued to prove impregnable to the Pioneers. down throughout the entire second

With less than five minutes metaphor for the game's icing. remaining in the half, the Danes leading rusher, Sam Haliston, was fielded a punt on the Pioneer 29-yard line. Aldrich picked up a first down on a keeper, and on the next play throw nine yards over the middle to split end Tony Moschella.

Fullback Bill Ruggles scored from cond touchdown. Larry Leibowitz kicked the PAT to give Albany a 15-12 halftime edge.

The Danes elected to kickoff with After fielding a Dane punt on the the wind behind them in the second

"The momentum was in our them in tight, put pressure on them."

The Pioneers ran the ball the Red Dragons. successfully, however, and it took a Dane interception at the Albany eight-yard line to stifle the Widener attack. But four plays later Albany was forced to punt, and it marked the game's turning point.

Freshman Steve Warrington caught Mike Marrin's punt on the Albany 44-yard line. He started down the left sideline, and behind some fine blocking, cut back over the middle and scored standing up. John Ferko kicked the PAT to put the Pioneers ahead to stay, 19-15.

lateraled and had to leave the game. The Dane defense shut down Widener on the next series, but Ray
