# PAST PERFECT

From scattered corners of Albany, Loudonville and Delmar, we were admitted to the inner sanctums of Milne. After being dismissed early from the first assembly, we fell into the routine of schedule cards and twenty minute lunches (remember that year?).

We wanted to show the whole world we weren't so small as they would like us to think, and that is when Bee Bee and Fred Denton first got together. Standing one on top of the other, you could almost see them coming. Another novelty to us was Milne's brand new music department under Mr. York.

Everyone greeted basketball with enthusiasm, and the fellows of the team became the idols of many of us seventh graders. After the games that year, we all trooped over to Wager's and usually missed the deadlines set by our parents.

One eventful May fifth, we made our contribution to the history of Saratoga. One catastrophe was the sampling of the "egg-water" which made us wonder why we hadn't caught on to some of the sly winks that accompanied invitations to "Have some!"

With May came the formal, and the poor bashful boys finally got the courage to ask the girls, thus leaving the female half in a swoony state. Most of the girls wore their first evening dresses that night, and we did the T-step around the gym about four thousand times.

Exams came the first week in June, and we actually left school with some regrets — not many though!

Our first few days in the eighth grade were spent in wondering how the seventh graders could look so small and bewildered. The newcomers to the class included such notables as Bunny Angier, Jess Barnett, and Jane Simmons. We initiated them in fine style by taking them through the tunnel to the lunch room.

Bee Bee had a housewarming, and Gay held a Halloween party. Boy, did we have fun! It was a question as to which was more strenuous, the parties or the newly

made commando course we had that year. Nevertheless, it was a serious year for us. The war council was formed, and our boys turned to in the shop and mass-produced model planes for the Navy.

We came out for the games and yelled ourselves hoarse with five of our gals who made junior cheerleaders' squad.

A few of the more intrepid girls stood up to defy the elements by joining Miss Hitchcock's skiing class. We defied the elements all right, but not the law of gravity!

To wind up the year with a bang, along came the Junior Student Council elections. We worked ourselves up to fever pitch during the weeks before the big assembly. But after the final speechmaking, in which Johnny Thompson first showed promise as a politician, we found that B. J. Flanders, Nag Coffin, and Florence Drake had dropped a close race to Bunny Angier.

## NINTH YEAR

Our politicians this year were headed by Don Jarrett as class president. There were lots of newcomers: Marie, our artist; Fletch, the athlete, and Gates, our photographer. Mrs. Teizen joined the faculty and that was one reason that our girls were outstanding for never (well, hardly ever) skipping gym. This was the last year of cooking classes under Miss Fillingham, and B. J., Mibs, Bearup and Anne kept the boys well fed when (they hoped) no one was looking.

One of the English classes put on a play, and just for variety D. A. was Gay's father. This year we read some best-sellers in English classes, and when "Guadalcanal Diary" came to town, we couldn't miss it. That was the last time we sat in the balcony under school sponsorship!

Jess and J. T. received prizes for their poems at our poem party in the library. Lois, who was in charge of the party, threw us into a panic by succumbing to the measles epidemic at the last moment.

At gym night we tumbled and built human pyramids. The "squash" pyramid got its signals mixed and one-half squashed while the other half stood firm as a rock. Well, it was unusual at least.

Nancy Knapp had a Hallowe'en party which was supposed to be strictly hag, but when a couple of boys slipped in, nobody minded.

We showed the school what little geniuses we were by having the largest number of people on the honor roll. We've kept it up ever since.

With the Sophomore year came Mr. Haughey as one of the class advisors! And we wonder now what we ever did without him.

Along in November came the thrill and questionable enjoyment of the Quin and Sigma initiations. The fellows stood around in the cafeteria and smirked at the gals' awful antics — but in February it was the girls' turn to laugh.

Many of us thrilled daily in biology to the exciting tales of Miss Herrick's relatives, while a few more of us, drowning in drudgery, decided that geometry definitely was not a proper course for sophs.

Winnie helped cheer for Allie, Zeke, Kelly, Bunk and Red who made Jay Vee. "Big George" Erwin bade us farewell and went off to "see" with the Navy.

With the Quin-Sigma came the mad rush to invite a fellow; some poor guys were asked two or three times.

Johnny Gade had his first barn party, and though we won't mention any names, several girls had their first (but not last) cigarettes.

Bun became our athlete of the season when he made varsity, first base.

In the spring our young men's fancies turned not to love but to quick dips out at the Six Mile in fur-lined bathing suits.

After a year full of parties, laughter and fun, we settled down to the night before Regents' to see if we couldn't cram a little knowledge. For a few of us the eventual result was a well-worn path to summer school; for most of us a well-earned vacation.

## JUNIOR YEAR

We knew a good thing when we saw it, or maybe it was just habit, but we elected Bunky class president. The fame of the junior class meeting spread through the school after we staggered out, raving and ranting about plays, picnics or a two-thirds vote.

At the "how-de-do-dee", we put our square dancing knowledge to work very effectively — so effectively, in fact that the janitors didn't even have to clean up after us. This was a hangover from the gay days when the girls and boys had gym together.

The "Battle of Beverwyck" took its toll of Angier, Jarrett, McNeill and O'Brien, who made the football team. Later on, Dick French and Allie Meskil made the basketball squad.

That year something new was added in the form of a junior essay. It took us weeks to decide on a topic, and by that time the essay was almost due. We all spent the last night writing madly, and had writer's cramp for days.

Margie, B. J., and Mabel received their honor blazers from GAA. They were white — the first time.

The junior picnic was a big hit. The fellows played football — until the pigskin just collapsed, and gals explored a very dark and narrow cave, by themselves, no less.

At commencement we took some prizes and were a little surprised when we realized that we were the "grand old seniors". But bravely we determined to try to live out the summer without mourning the fact too much.

## SENIOR YEAR

Our Senior Year — the best of our lives! We tried to make it successful, and here's what happened.

The senior room came to be our second home (this was the year of the housing shortage). Although he was ably assisted by Allie as vice-president, "Witchcraft" as secretary and Les as treasurer, "JT" soon found out why class presidents get gray.

Sally Grace had a slumber party which crashed Jess's stag party of the same night. Ruth Weil started a long line of open houses where we really got together as a class.

Around the middle of the year, the Bricks and Ivy began urging its committees to work a little, for deadlines appeared from nowhere. The Crimson and White editors spent some twilight hours beating deadlines, and Jess's pleas for assignments will haunt the halls forever.

The Senior play — exams — the Senior Ball — commencement — and now we've completed our "Past Perfect". It's time to take our formal leave, but we'll be seeing you at the basketball games.

# LOST AND FOUND

Found: Joan Whitcraft's wim, wigor and witality.

Found: By Don Jarrett, a book "How to Drive Successfully." The inscription on the cover reads "to dearest Bill" (DeProsse, that is.)

Found: Ellen Fletcher's ability to swing a hockey stick, probably in the neighborhood of Shirley Tainter.

Found: By Dick French — the junior class.

Found: By Franzl Mohling, the beauty of red hair.

Found: One sailboat, believed to be the last entry to return from the 1942 races — the one when the boys made their boats in shop and then sailed them on Washington Park Lake. Whose could this be?

Found: A valuable prism from the historic Grand Union Hotel. Call any member of the class of '47's excursion to Saratoga, for information.

Found: A bright new knocker for the Senior Room door — for the benefit of the school (seniors excepted).

Found: A bottle of **Red Rinse For Grey Hair** — under the locker of John Thompson, the president of the senior class.

Found: Harvey Dwight's car (?). We can't return it, Harvey. You will have to come and **coax** it away from Milne.

Found: The entertaining wit of Jackie Mann. Those interested may inquire at Sigma rushes and initiations.

Found: By the junior gal who finally learned to drive — Winnie Hauf's car.

Found: Jess Barnet's ability to socialize and mingle with the crowd. To claim, call Lloyd Schonbrun.

Found: By Pat George — the path (straight and narrow) to the high school.

Found: Executive ability — anywhere Sally Gaus and Ruth Ambler were conducting Sigma and Quin meetings.

Found: One substantial lunch believed to be owned by Lois Prescott. To claim, call a puny seventh grader who thought he needed it more than Loie.

Found: By B. J. Flanders some "jewelry". And who lost THAT?

Found: By Pauline Miller, the glamour of Texas — and those cowboys.

Found: By Nancy Knapp, a new barn for parties.

Found: A book entitled "Ability To Hold A Man" by Gay Appleton. To claim, call Lorraine Walker.

Found: A good use for roguish eyes, by Sally Grace.

Lost: One bean bag — last seen going down the funnel of the Hendrick Hudson on our ninth grade excursion down the Hudson.

Lost: Miss Fillingham's familiar, "Come?" It is believed to have been replaced by, "Open the door, Richard."

Lost: By Pony Richter, about five pounds. Could it be those rhumba lessons in the Senior Room?

Lost: Some flash bulbs by Gates Barnet. Please help him find them because if the B. and I. finds them first Gates will never see them again!

Lost: One of Cupid Adams' arrows which was aimed at Joan Traver. (It hit its Mark, too).

# LOST AND FOUND

- Lost: By Johnny Eisenhut, one temper while he was trying to collect contributions for the Red Cross.
- Lost: By Bill O'Brien — one **huge** pair of ski boots. He discovered they were gone when he found out he could walk.
- Lost: By Joan Lehner — one pair of dancing shoes. She must have left them when she changed into her roller skates.
- Lost: By Roy French, an argument. Finder may keep it. Roy has already forgotten it thinking about another one.
- Lost: By Bob Blum, his seat in the Senior Room. Never mind, he'll sit on the table!

- Lost: In the vicinity of next year's health classes, Hap Gade's startling talent for biological terms.
- Lost: Lovely lapel pins. Return to June Linton, owner.

- Lost: Super good looks by Nancy Lee Clark to any one who needs them. (No trampling, please.)

It's but once in a lifetime that you can be a Milne sophomore — with geometry, biology, and all the other easy subjects . . . ah me!! . . . After a very exhausting day with our beloved studies, we were set for something different — anything from a back seat in the Auditorium to the Playdium . . . lots of us found our way over to Ed's . . . those few who adore peace and quiet or who don't mind a few extra

pounds were found in Wagar's . . . Then Mama wondered why we didn't want supper (if we ever got home to supper) . . . Some of the fellows gabbed in the back of the Auditorium during morning hours — Who says women are gossips? . . . The Art Room saw quite a few of us during the day — and the library was okay . . . what things went on there!! The boys in mechanical drawing were having a wee bit of trouble with a yoke — son!! . . . What good luck, we even got a chance to have a party or two, Senior High that is . . . At lunch time some of us got outside for a breath of fresh air . . . As for the rest — the locker room crush became the order of the day . . . Well, that's a glimpse of the gay forty-niners who will be returning new, fresh (and how) next year as juniors.

Joan Horton heads the sophs, helped by vice-president Marcia Armstrong, treasurer Art Walker, secretary Dan Westbrook.

# GLAMAZONS

Miss Murray's cry of "happy Moron" was new to Milne, but it soon became a most pleasant one . . . We'll never get over the way she learned our names so fast . . . An all-time record—Fifty-six people received credit in hockey . . . hockey playday at Emma Willard—We almost froze . . . St. Agnes invited us out and we managed to break a couple of sticks—ah muscles!! . . . and by the way, where did Gay pick up that fast dribble? . . . Hey Clark, when do I play? . . . The troubles of a captain are many.

Ring stick hockey was introduced, and were those 7th graders fast . . . The Riding Club had a breakfast outside—must have tasted good after the ride . . . Archery was again under the leadership of Ann Adams . . . "Oh my achin' ankles!" was the cry of the classes that went skating.

Someone got hit with a murder ball—and if Dobbs threw it you felt it! . . . You have to be fast in that game . . . Those exciting cries from the field on Wednesdays came from the many soccer enthusiasts . . . Swimming in the winter is fun but it's hard work passing those tests . . . Basketball came and brought blisters and sore muscles . . . B.C.H.S. was our first playday, and it convinced us we needed practice . . . B. B., Red, and Mibs made the All-Star team—nice going kids . . . More playdays came along with Academy, Columbia and Lansingburg—The freshmen really did themselves proud when they made J. V. . . . By the time they're seniors we should have quite a team.

In February we cooperated with the Home Ec. department and put on a tea for the new student teachers—our thanks to Taintor who really worked hard to put it over . . .

We worked hard and played hard all year . . . It sure was fun!
