

STATE UNIVERSITY OF NEW YORK AT ALBANY

Albany, New York 12203

DATE: 13 September, 1968
FROM: Walter M. Tisdale
TO: President Evan R. Collins
SUBJECT: Campus Progress Report No. 132

Today we inspected and accepted the campus water supply system, the storm and central sewer system, all manholes related thereto, and the site lighting system related to Group I buildings. As you know, these systems have all been in operation under our control for some time, but their takeover was delayed until now, pending some correctional features, and owing to the press of more urgent inspections which had to take precedence.

All systems have been performing in a highly satisfactory manner and were constructed in accordance with high construction standards, subject only to a minimal punch list.

Walter M. Tisdale
Assistant to the President
for Planning & Development

Cc: Vice President Clifton Thorne
Vice President Milton Olson
Mr. John F. Buckhoff, Jr.
