Tet: Z-ro!

Zro: Come in Tetro, over.

Zro: In Tobor's underground headquarters.

Tet: Are you alright, over!

Zro: Not exactly. I got here in time to prevent
him from blasting you, but he got away
from me. He's still on the loose somewhere
inside this underground cylinder.

Tet: What about Jet. Is he okay? Over.

Zro: Yes, but he needs a space suit to get
back to the ship. I want you to bring one.
Over.

Tet: Yes sir. On the double Captain...Captain?

Zro: Yes.

(Jet in Moon Man outfit moves toward Z-ro)

Tet: Look. Stay right there, will you. Don't
try to settle the score with Tobor. We've
got to blast off for Earth at once. Our
oxygen supply is practically gone.

Zro: Okay, Tetro. Z-ro, over and out.

Tet: Tetro out.

CUT STATIC

Zro: But there's nothing to stop Tobor from trying to settle the score with me.

FADE IN MOOD MUSIC

(Z-ro moves out as Jet comes up behind, and moves after him). Z-ro moves in from opposite direction, Jet follows. Z-ro turns, pulls gun.

Zro: Another one! Get back...get back you....
(Jet backs) Where's Tobor...Come on, where is Tobor?

Jet: But...but...but Captain! It's me!

Zro: Jet! What are you doing in that outfit.

Jet: Well, I couldn't get back to the ship without a space suit and I found this one in a locker...in the next chamber.

Zro: Did you check it over before you put it on?

Jet: Sure, it's in perfect condition.

Zro: Good! Now Tetro won't have to leave the ship unguarded.

UP STATIC Z-1002-3

I guess he's already on his way.

(Tetro in dire need of oxygen, pulls self together)

Tet: Captain! Oxygen gauge incorrect. Oxygen almost gone! Captain! Bring oxygen. Our supply almost gone.

Zro: Tetro! Tetro! Jet! Have you any idea where Tobor keeps his oxygen supply?

Jet: Well, no, but there are some portable oxygen containers in the locker where I found this space suit.

Zro: Good! Get a couple! We've got to get oxygen to Tetro as fast as we can.

Zro: I think I can figure out how to raise this

Jet: Yes sir.

Tob: (looking down) You will never figure out
how to raise my cylinder, Z-ro. Never!
Tetro is finished! And you are next!
(laugh)

Zro: Jet, are you sure he controls the cylinder
from here?

Jet: Yes sir, I've seen him do it.

(Z-ro works feverishly)

Tob: (chuckles) You are trapped again, Z-ro.

Jet: But Captain....

Zro: Get going Jet!

Jet: Yes sir.

Zro: Now Tobor, get a couple of oxygen containers. You're going back to Earth with me!

Tob: No Z-ro, I am not going to the planet Earth and neither are you.

Zro: Get those containers Tobor, or you'll wish you had. (Z-ro stiffens)

Tob: (laughs) Do not worry, Z-ro. I do not intend to kill you. You can be of use to me, you and your time machine. But I must keep you paralyzed while I take care of your companions.

Zro: I'll-do-what-you-say-don't-harm-Jet.

Tob: I am sorry, Captain Z-ro, but I cannot allow him to reach Tetro with that oxygen. They could blast off, you know, and cause more trouble for me. But with both of them out of the way, I shall have more time to devote to you. (laugh)
