Voting Procedure

The inauguration of the preferential ballot in Student Association elections necessitates definite instructions as to voting procedure. Today's voting will he carried out as follows:

After distributing ballots each member of Student Association, members of Myskania will seat themselves at tables placed in the back of the auditorium and in the balcony. There is to be one table apiece for each of the three upper classes and two for the freshman class. Students are to file out by rows to their class tables where Myskania class guardians will verify their having paid Student Tax. When the distinctive Myskania stamp has been placed upon the ballot, each student is to deposit his vote in the designated box.

The entire student body is requested to follow carefully directions from the chair and to cooperate with class marshals assisting at the election. This will eliminate confusion and will accelerate the voting.

All State Special, Last week the State College News published a letter directed against the Alumni residence halls. The letter aroused numerous comments of both agreement and indignation. Few realize however, that the fault lies with both student residents and dormitory administrators.
