 WORK

As the summer approaches, the weather gets hotter and hotter. People then start playing and hanging out of windows. Some people have great plans for the future - pools, trips, etc. Soon school will be out and we will have plenty of time to spare. So instead of letting our thoughts run away keep working till the end.

 PICTURES FOR YEARBOOK

During the past few weeks you have all been curious to see and know what all the picture taking is for. Well, it is for the year book. The photographers have been very patient with us. When they are just about to snap a picture of a group, some one moves his head or something of the kind.

There have been pictures of all the societies and clubs. They will all appear in the Crimson and White yearbook.

 SCHEDULES

Everybody is running around trying to find the best college to fit their desired occupation. It's pretty hard as we all find, for while some want co-ed colleges, others desire just girls' (or boys').

It's awfully hard to decide on our subjects, because if we don't have the required subjects we can't get into the colleges we want to.

9-2 SOCIAL SCIENCE PRESENTS

Spring Visiting

Hitler is on his way to Italy to repay the visit Mussolini paid him last October. Italy will display her army; and Hitler will be shown just what Italy can do.

Balm for Peace ?

Lester P. Barlow of Stamford has just invented a bomb that is supposed to destroy a battleship. The bomb is contained in an airplane like structure that is just large enough to hold a man and a 3,000 pound bomb. The bomb is launched from airplane and is guided to the battleship.

 Jimmy Had a Nickel but We Have
A New Jefferson One

"Have you heard about the new Jefferson nickel? We have had the old one for 25 years. On one side will be a profile of Jefferson and on the other a view of Monticello, his home,

 PRIZE SPEAKING

Junior High prize speaking will be held in a regular assembly on May 23. The people taking part and their coaches are:

| | |
|--------------------|----------------|
| Robert Silverstein | Miss Shear |
| Rita Figarsky | Miss Karmmeyer |
| Elaine Drooz | Miss McClung |
| Edward Bookstein | Miss Bolton |
| Melba Levine | Miss Cutting |
| Robert Ostrander | Mr. Dryden |
| Natalie Mann | Miss Emery |
| Elaine Breker | Miss Arthur |
| Donald Jones | Miss Cassavant |

Good Luck and may the best man or woman win.

 BASEBALL SEASON

The baseball season has just started. Milne ventured to Rensselaer where we played the first game of the season with Rensselaer High School. Unfortunately, we lost with a score of 5 to 1.

This year the boys of Milne took quite an interest in the sport. There has been a very large turnout.

Let's all go to the games and root for our team.

Many people in Milne have hobbies. A few examples of these are: Carroll Boyce-stamps; Marianne Adams, miniature animals; Miriam Boice, traveling; Adele Buchacha, sketching; Royden Rand, chemistry; Robert Saunders, photography; Edward Moon-ey, music (trumpet); Of course there are many other established hobbies around, but these are the most popular.

Everyone should have a hobby, because while hobbies are amusing, and provide a good way to spend one's time, they are very educational.

Many people have developed their hobbies in such a way so they make their life work out of them. One could start as an amateur photographer and work up to own his own business.

If you are interested in starting a hobby, listen to Hobby - Lobby on Wednesday evening at 7:15.

VACATION TRIPS

Don't you wish you could have gone away this vacation? Some people did! Here are a few statements concerning their trips.

Valley Paradise - Norfolk, Virginia; "A small town, a few people and a good time."

Phyllis Reed - Washington, D. C. : "At the egg rolling contest the president went rolling around in his wheel chair making the day quite thrilling."

Marion Sculd - Moorestown, N. J., Cape May, N. J., Ocean City, N. J. Philadelphia, Pennsylvania, and Valley Forge, Pennsylvania. "Seeing Washington's headquarters gave me my most interesting day."

Neilan Brody - Schroon Lake, Lake Placid, Washington, D. C., Lake Champlain, Fort Ticonderoga. "Swimming at the Polar Club at Schroon Lake gave me the pleasure of swimming outdoors for the 1st time this season, but seeing Edgar Hoover provided a startling contrast."

Miss Waterbury - New York City, Washington, D.C., Williamsburg, Virginia, Winchester, Virginia, Mount Vernon, Virginia. "Driving along Skyline Drive on top of the mountains for sixty-five miles gave me an inspiring view of the surrounding country."

Royden Rand - New York, New York. "I saw Rockefeller Center and Museum of Science and Industry."

THE CIRCUS IS IN TOWN

During Tuesday, horrible monthly tests Milne was serenaded by swing and sophisticated music. The reason and source of this music was the Beechnut Circus. After the entertainment we who were there and late for class received some gum.

On Thursday, April 28, one of the ninth grade Biology classes gave radio talks on different animals. To make it more realistic the talks were given over a microphone which was in another room. The class expected to hear just radio talks, but they heard everything from dropping vases, and squeaking doors to giggling fits. Those taking part in the program were: Laura Lyon, Mary Baker, Helen Cooper, Walter Plummer, Marcus Myers, Joan Manweiler, Charles Locke, Joan Hunting, Edward Langwig, Ruth Martin, Josephine Wilson, Marilyn Tincher, Mary Swarty, Shirley Smith, Selleck Mintline, Barbara Thompson, Jeanne Selkirk, Marjorie Gade, Robert Schamberger, Jerome Levitz, and John Byer. Mr. Edward George did a fine job of directing the program.

SEVENTH GRADE HEARS CHEST LEADER

On Monday afternoon in the Little Theatre, elected representatives from the seventh grade social studies classes heard Mr. Sadt, executive secretary of the Albany Community Chest tell about the work that organization is doing and how it was founded. "The Community Chest is used", he said, "to raise money for the thirty-one social welfare organizations in Albany." Some of them are: The Visiting Nurses Association, which trains nurses to go into homes and care for the sick. The La Salle School for Boys, the Albany Boys Club where boys learn handicraft and have supervised recreation, The Trinity Institute which is located in a poor section of Albany and cares for underprivileged children and the Albany Home for Children which is a home for orphans. The moving picture which was just completed was shown to illustrate the good work these and other groups are doing.

The talk was very interesting and it was evident that the social studies group was enjoying it.

JUNIOR HIGH DANCE

The Junior High School dance has been postponed, and is now scheduled for June 11. It is a summer formal. The dance will start at 8:00 o'clock and takes place in the State College Commons. Student Council has appointed the same committees in charge, as they were at the last dance. Norman Andrews is in charge of the orchestra and is also general chairman.

LOST AND FOUND

The following is a list of articles that are in the lost and found drawer: one baseball mit, three spiral assignment notebooks, one glove, one pencil box, one mitten, one comb, eleven pencils, six pens, one lock, two key cases, two key rings, two tie clasps, ten keys, one bracelet, one brooch, and one scarf.
