## Suffolk Court Upholds CSEA Member's Right To Contract Benefits

(Special to The Leader)

RIVERHEAD—A recent court decision has upheld the rights of employees represented by an employee organization under the Taylor Law to receive all the benefits of a contract negotiated by their designated collective bargaining agent for the bargaining unit they belong to.

The decision came from the Suffolk County Supreme Court last week after the Civil Service Employees Assn. went to bat for Leslie W. Rowland, a night shift worker who had not been receiving the special night shift differential negotiated by CSEA for his

## Nassau Chap. Mobilizes To Combat Drug Abuses Thru Education Drive

MINEOLA—Citing the key role of the civil service corps in the community, Nassau Civil Service Assn. chapter president Irving Flaumenbaum has arranged with the County police to mobilize County employees in the war on drugs.

"We public employees in this chapter alone represent almost 20,000 families, with probably 80,000 people. This is a significant sector of the community—one which can strike a mighty blow against the runaway problem of drug abuse and addiction," Flaumenbaum asserted.

"It is in the highest tradition of public service that we concern ourselves," Flaumenbaum, who is also State first vice-president, arranged with Nassau Police Commissioner Francis B. Looney to have a special seminar on drugs for the CSEA at the police auditorium, Franklin Ave., Mineola, at 8:30 p.m. on Tuesday, February 24.

### Capacity To Assist

Looney said, "Civil service employees represent a large and influential segment of the community and can help in the community-wide effort to eliminate the drug problem."

Inspector James Henderson, chief of the County Police Narcotic Bureau will chair the seminar. There will also be a film, literature, and time for questions from the floor.

CSEA members are invited to bring relatives and friends.

# CSEA DECLARES IMPASSE IN THRUWAY NEGOTIATIONS; PERB MEDIATION SOUGHT

(Special to The Leader)

ALBANY—The Civil Service Employees Assn. has declared an impasse in its negotiations with the New York State Thruway Authority on behalf of more than 2,200 maintenance, toll and clerical employees, and has asked the State Public Employment Relations Board to assign a mediator to the dispute.

CSEA collective bargaining specialist Joseph P. Reedy, speaking for the CSEA bargaining team, said the impasse was reached last week over "the intransigent attitude of the Authority in refusing to provide a basic work-week for its maintenance and clerical employees."

CSEA and the Authority have been negotiating for several weeks on salaries, retirement and other improvements, including provisions

for a guaranteed basic work-week, which would become effective in 1970, the second year of the two-year contract.

### Basic Contract

Reedy explained: "The Authority now insists that it alone has the right to arbitrarily change the work-week of all maintenance and clerical employees. CSEA cannot and will not accept this. Establishment of a set work-week is basic to any union contract."

CSEA also charged the Authority with refusing to guarantee the present Monday through

\*An employee on the payroll on March 31, 1971, who has completed 26 bi-weekly payroll periods (approximately one year) as a full-time employee, shall receive a minimum salary of \$6,000 on April 1, 1971. An employee who completes 26 bi-weekly payroll periods as a full-time employee on or after April 1, 1971, but before April 1, 1972, shall receive a minimum annual salary of \$6,000 upon completing that term of service.

NOTE: Rates in the above table do not include any salary differentials for work location or shift work.

**NEXT WEEK:** Because of the many variations in salary, which now exist among State employees hired prior to April 1, 1969, particularly those who were affected by the minimum raises won in 1968 and 1969, it would be impossible to produce a single table such as the above to reflect their new rates. To help clarify their situation, however, a special article next week will present an explanation and illustrative examples showing the effects in general of the newly negotiated pay raises on the salaries of these longer-term employees.

## PERB Rejects AFSCME Bid To Fragmentize Islip Aides

(Special to The Leader)

ISLIP—The State Public Employment Relations Board has turned aside efforts by Local 602 of the American Federation of State, County and Municipal Employees to fragment blue collar workers in the Town of Islip into two separate bargaining units.

PERB, while throwing out AFSCME's request, at the same time established a new bargaining unit which included all blue collar workers employed by the Town and ordered that a representation election be held to determine the bargaining agent for these workers. AFSCME had sought a unit of workers which would have excluded many blue collar employees.

The Islip unit of the Civil Service Employees Assn. which had been representing both white and blue collar workers gave strong indications last week that a new blue collar CSEA unit would be formed. "Since there are going to be two units, it is only right that blue collar workers have their own

CSEA unit, elect their own officers and negotiate their own contract," a CSEA spokesman said. "The membership and officers of the new unit would be made up strictly of blue collar employees. This would give them the right of self-determination while remaining under the CSEA banner."

In Albany, Joseph J. Dolan, Jr., director of local government affairs for CSEA, commented, "CSEA is the strongest and largest public employee union in Suffolk County and on Long Island. We've been in business for a long time and we're getting stronger. The Johnny-come-lately unions are looking for new dues money and nothing else. The poor brand of representation they have provided to other similar groups on Long Island prove that they care little about what happens to their own members." Dolan was referring to both AFSCME and the Teamsters.

### Asks Air Conditioners For State-Owned Cars

ALBANY—The State Grievance Appeals Board has turned down an appeal seeking a State study of the need for installing air conditioners in State-owned automobiles.

Donald E. Mitchell, property manager for the State Office of General Services, has urged installation of air conditioners in cars assigned to employees who, because of the nature of their jobs must consistently drive many miles during the summer months.

## Syracuse City Employees Win \$870 Pay Boost

(From Leader Correspondent)

SYRACUSE—City employees will receive increases totaling \$870 over a two-year period under a contract negotiated by the Civil Service Employees Assn.

The contract ends more than four months of negotiations for the white collar workers unit of Onondaga chapter, CSEA.

Another chapter City unit has agreed upon a 1970 contract, but the pact has not been formalized. A third unit is still stalled on talks with the City.

Andrew C. Placito Jr., chapter president, and a City employee, said that the white collar unit con-

tract basically also retains all the fringe benefits the employees have now — with only minor changes.

The unit ratified the contract by a vote of 72 to 10. There are about 350 employees in the unit.

The City's Common Council is expected to approve the contract this week.

Placito said a contract has been agreed upon between the City and the Syracuse Housing Authority, which also has been in negotiations more than four months. Talks between the City and Syracuse Public Library unit are continuing.

John R. Corcoran, CSEA field representative supervisor, headed the CSEA negotiating team that reached agreement on the white collar and SHA contracts.

## Sick Leave Granted To Health Dept. Aide After CSEA Action

ALBANY—A grievance action by the Civil Service Employees Assn. has resulted in an award of sick leave at half-pay to a long-term employee at the State Department of Health who was previously refused this benefit by her supervisors.

Robert W. Russom, president of CSEA's James E. Christian Memorial chapter in the Health Department, represented the employee in a hearing before Deputy Commissioner of Health Daniel Klepak. He was assisted by Ernst Stroebel, CSEA representative for the Health Department, and CSEA field representative John J. Naughton Jr.

The employee, a file clerk in the Bureau of Medical Rehabilitation for more than 19 years, filed her grievance though the chapter recently.

Russom hailed the decision to award the pay as a victory for his

(From Leader Correspondent)

EAST ROCKAWAY—A five-day week has been negotiated for the East Rockaway Village Department of Public Works.

The village unit of the Nassau chapter, Civil Service Employees Assn., gained the Monday through Friday work-week effective Jan. 12 through the efforts of the unit negotiating committee and Nassau field representative Frank Jaquinto.

"We were told it was impossible . . . unheard of. But, believe us, it can be done. We're doing it," proclaimed unit secretary M. Hall.

# H.I.P. is the only medical insurance plan that maintains its own special emergency service for the benefit of subscribers.

This unique service enables the plan to cope with medical emergencies occurring at night, on weekends and on holidays.

By using the combined resources of its affiliated medical groups, H.I.P. has been able to set up a centralized emergency system at its main office that takes over when medical group centers are closed. A call to a medical group during these hours is electronically transmitted to a master switchboard.

This makes it possible for H.I.P. members to talk directly to H.I.P. physicians on special duty when problems arise during off hours. These doctors are available for consultation and advice. When necessary, they arrange for home visits, for hospital admissions and for treatment at specially designated locations.

The H.I.P. emergency service handles an average of 2,000 such calls a week, with the demand rising to a peak during the winter months.

The knowledge that medical protection is available round-the-clock seven days a week makes for peace of mind for H.I.P. families.

The ability to provide such a valuable service is another of the advantages for patients made possible by the prepaid group practice of medicine.

# LOSE 10 LBS. IN 10 DAYS ON GRAPEFRUIT DIET

HOLLYWOOD, CALF. (Special) — This is the revolutionary grapefruit diet that everyone is suddenly talking about. Literally thousands upon thousands of copies have been passed from hand to hand in factories, plants and offices throughout the U.S. and Canada.

Word of its success has spread like wildfire. Because this is the diet that really works. We have testimonials in our files reporting on the success of this diet. If you follow it exactly, you should lose 10 pounds in 10 days. There will be no weight loss in the first four days. But you will suddenly drop 5 pounds on the 5th day. Thereafter you will lose one pound a day until the 10th day. Then you will lose 1½ pounds every two days until you get down to your proper weight. Best of all there will be no hunger pangs. Now revised and enlarged, this new diet plan lets you stuff yourself with foods that were formerly "forbidden", such as big steaks trimmed with fat, roast or fried chicken, rich gravies, mayonnaise, lobster swimming in butter, bacon fats, sausages and scrambled eggs. You can eat until you are full until you cannot possibly eat any more. And still lose 10 pounds in the first ten days plus 1½ pounds every two days thereafter until your weight is down to normal. The secret behind this new "quick weight loss" diet is simple. Fat does not form fat. And the grapefruit juice in this new diet acts as a catalyst (the "trigger"), to start the fat burning process. You stuff yourself on the permitted food listed in the diet plan, and still lose unsightly fat and excess body fluids. When the fat and bloat are gone you will cease to lose weight and your weight will remain constant. A copy of this new and startlingly successful diet plan can be obtained by sending \$2 to GRAPEFRUIT DIET PUBLISHERS, 1213 Premier Way, Calgary 6, Alberta. Money back guarantee. If after trying the diet plan you have not lost 7 pounds in the first seven days, and 1½ pounds every two days thereafter simply return the diet plan and your \$2 will be refunded promptly and without argument. Tear out this message as a reminder. Decide now to regain the trim, attractive figure of your youth, while enjoying hearty breakfast, lunches and dinners.

## More Transit Police Are Needed Desperately

THERE is a desperate need for 1,800 new men to staff the City's Transit Police Force," John Maye, president of the Transit Authority Patrolmen's Benevolent Assn., warned last week.

Maye pointed out that crime continues to rise along the routes operated by the TA when the Police Saturation Program is not in effect—from 4 a.m. to 8 p.m. While the plan is operational, crime has been kept at a minimum.

We agree with Maye's testimony before the Joint Legislative Committee on Transportation. So, too, to a point at least, does the Metropolitan Transportation Authority which, last year, urged Mayor Lindsay to approve the appointment of 775 new men for the 3,200 member department. But no action has yet been taken on the MTA's request.

It has been shown that the saturation program—putting a policeman on every train and many subway platforms from 8 p.m. to 4 a.m.—has resulted in an almost crime-free atmosphere on the rapid transit system. But, where do the men come from to staff this plan? From the other tours. This is just 'robbing Peter to pay Paul.'

Subway riders are now paying 30 cents a trip on buses and subways during all hours and the public complains that the rise in fare was caused by the employees' salary and fringe benefit package, to which they were richly entitled. This is an invalid premise. The increase was based on all factors of operation costs met daily by the Transit Authority.

There would be no fiscal burden on the TA to appoint additional policemen to patrol the subway and bus lines. These costs are borne by the City in general from funds set aside for public protection.

We urge the Mayor and the Board of Estimate to heed the warnings of the TA PBA and stop the increase in subway crime—during all hours—before it reaches a point of no return.

Transit Authority customers—no matter where or what time they ride—are entitled to equal protection from the City. Our dedicated Transit Patrolmen are ready and willing to provide this service.

But they will only be able to when the City provides them with the additional staffing they need to do the job.

## LETTERS TO THE EDITOR Seeks Support For Veterans' Bill

Editor, The Leader:

Pending in the New York State Assembly after passage by the Senate is a bill introduced by Senator William T. Conklin that will benefit certain veterans in civil service. Senate No. 1381 seeks to amend the military law to grant service credit for time spent in the armed forces.

Conditions for such a benefit include, in addition to honorable discharge and membership in a city or state retirement system, at least 15 years membership in the system and residence in the city at the time of induction. Eligibles, of course, will be called on to make the appropriate contribution for the time gained.

Passage by the Assembly and approval by the Governor may well depend on your readers writing to their Assemblymen. Since the City of New York has, obviously, a large stake in this matter, letters to Mayor John V. Lindsay would help.

## Civil Service Law & You

By WILLIAM GOFFEN

(Mr. Goffen, a member of the New York Bar, teaches law at the College of the City of New York, is the author of many books and articles and co-authored "New York Criminal Law.")

## Employee Misconduct

SPECIAL INVESTIGATORS in the Department of Social Services of the City of New York questioned a Caseworker about a complaint by a client of the Department. Her complaint was threefold: (1) that the Caseworker had invited her to have dinner with him and after she refused he gave her \$10; (2) that several days later he gave her a bottle of perfume; and (3) that he told her he authorized a grant of \$465 for furniture and expected her to go to bed with him if the grant was issued.

THE CASEWORKER asserted that the accusations were false. The client had told him that the building superintendent objected to the numerous visitors to her apartment. With the client's permission, the Caseworker spoke to the superintendent who said the client was misbehaving with many men and that his young daughter was learning "dirty language" and observing the client's sexual promiscuity. The client was furious with the Caseworker after the interview with the superintendent and threatened that she would have her revenge.

THE CLIENT'S friend, who was also a recipient of public assistance, joined in the complaint to the Division of Special Investigations. She charged the Caseworker with putting his hand upon her knee and attempting to kiss her during an interview. This client received from the Department supplementation of her income as an employee of the Chase Manhattan Bank.

SHE WAS ANGRY at the Caseworker because he insisted upon seeing her pay stubs to ascertain whether she had received a raise in salary warranting reduced public assistance. Also, she resented being asked the address of the father of her baby from whom she had been receiving \$25 per week according to her building superintendent.

AFTER THE VISIT to the Division of Special Investigation, the Caseworker acted intelligently to protect his reputation. He promptly visited female clients who had been part of his caseload at the time of the two complaints. They signed for him statements attesting to his proper professional conduct. This proved to be an excellent precaution because after the unsolicited complaints, the Special Investigators procured complaints along similar lines from four other recipients of public assistance after informing them that complaints had been made against the Caseworker for his conduct with women clients. All of them made the complaints despite their signed statements confirming that the Caseworker had conducted himself in a proper and professional manner. All four, moreover, evidently resented the Caseworker because he necessarily delved for information they preferred to withhold.

THUS, ONE of the clients was angry because the Caseworker inquired concerning the source of the money she used to pay a grossly excessive rental. Another was unfriendly to the Caseworker because he insisted that her husband contribute to her support.

IN SUPPORT of the Caseworker five supervisors testified. They all commended him for being a better than average worker. They confirmed that his behavior toward his co-workers, male and female, was exemplary. His telephone conversations were respectful and cordial.

JOHN H. LEWIS, Hearings Officer, properly observed that the determination of the facts depended upon the credibility of the witnesses for both sides. After scrutinizing the testimony of the witnesses and giving due weight to the impressions gained from his observation of the witnesses, he concluded that the issue of credibility, on balance, favored the witnesses for the Department. Mr. Lewis thus applied the substantial evidence rule applicable to quasi-judicial determinations of fact, considering the evidence both for and against the Department's position. Having come to the conclusion that the respondent was guilty as charged, Mr. Lewis recommended as a suitable measure of punishment the maximum penalty of dismissal.

## Sometimes we get the feeling we're being followed.

Everybody's getting into the act.  
Everybody's making a small car.

And since we've made more of them than anyone else, we thought we'd pass along some things we've learned about the business over the years:

First off, there's no doubt about it, the only way to make an economy car is expensively.

So Rule No. 1, don't scrimp.

Get yourself the best engineers in the business and then hire 9,000 or so top inspectors to keep them on their toes.

Next, try to develop an engine that's not a gas-guzzler. If you can get it to run on pints of oil instead of quarts, great. If you can get it to run on

air instead of water, fantastic.

Work on things to make your car last longer. Like giving it 45 pounds of paint to protect its top and a steel bottom to protect its bottom.

Important: Make sure you can service any year car you make. There's nothing worse than having someone find out that a part they need to make their car go is no longer available.

Finally, spend less time worrying about what your car looks like and more time worrying about how it works.

Perfecting a good economy car is a time-consuming business. So far it has consumed 25 years of our time.

# The Statewide Plan:

## It's like having a fortune in your own bank vault.

That's a fact. Belonging to the Statewide Plan is like having a fortune in your own bank vault. Since no one knows how sick he might be, no one knows what a serious illness can really cost. Recently, Blue Cross covered a New York State employee's hospital bill of over \$19,000. The patient didn't have to pay a penny. And the Statewide Plan didn't have an option . . . it paid substantial amounts for

doctors and other medical bills under Blue Shield and Major Medical. With the Statewide Plan you have it all — a "no nonsense" three-part program especially designed for you and your family. There's one hitch though. It's strictly to pay your hospital and medical bills. But on second thought, can you think of any time you'd need money more? We can't.

### City Housing Caretaker Titles Slating Cutoff Date Next Week

Cutoff date comes next week for prospective candidates interested in the exam for housing caretaker, the City Personnel Dept. reminded eligibles. A considerable number of applicants is expected to file before the Feb. 24 deadline, in view of the few requirements involved.

Neither experience nor education are among the qualifying criteria, which spotlight mainly the candidate's medical and physical state. Moreover, no age limitation was indicated in the job bulletin.

These varied-duty positions, which will entail outdoor work like gardening as well as the general upkeep of public buildings, now offer a beginning pay of \$5,500 and the many extras forthcoming in the form of employee fringes. By annual increments, the salary can climb to \$7,320; also, promotional opportunity permits eligibles to seek advancement to the post of foreman of housing caretakers, a supervisory title which starts at \$6,300 per annum. Candidates for caretaker will be selected from those who do well on the coming written exam in March.

Fundamental job tasks call for custodians to sweep and mop public spaces and stair halls; clean grounds and vacant apartments; wash windows and walls of apartments; light and clean incinerators; collect garbage; clean ramps, drains, roofs and canopies; and polish and wax as required. Additional duties may ask the appointee to perform general gardening work, including cutting lawns, trimming hedges, transplanting, reseeding, and spreading

### West Point Needs Tailor, Chemist; Other Titles Open

Among other openings now existing at West Point, announces J. J. Stapleton, civilian personnel officer, are jobs for tailor, chemist and dental hygienist. Rounding out the vacant titles is that of research psychologist.

The chemist title will be within a classroom setting while the others are non-academic. Salaries and requirements vary with the post, but generally ask for two or three years of background and the appropriate degree. More information is available by writing the U.S. Military Academy at West Point, N.Y. 10966. Address all inquiries to W. E. Finnigan, chief of employment at the Academy. He may be telephoned at 914-938-2115.

## Chief Engineer Sills Honored On Retiring

Allan Sills, chief engineer of the Manhattan office of the City Licenses Dept., will be given a retirement dinner tomorrow, Feb. 18, at Gasner's Restaurant in lower Manhattan. The occasion will mark his departure following 38 consecutive years of City service.

Sills was noted for his ability to fathom the intricate building and zoning codes, often said to be so outmoded that literally translation of them would have made building in the City completely impossible.

## P.S. 48 Annex Site Is Changed

PS 48, at 1290 Spofford Avenue, the Bronx, has been given an alternate site for a mini-school annex through a lease approved by the Board of Education.

The location, proposed by District Superintendent Bernard Friedman and the local school board for district seven, is on the block bounded by Barretto and Manida Streets, and Lafayette and Spofford Avenues.

A previous site, approved by the Board of Education and the local school board, was found to require too high a rental.

The mini-school annex planned for this site is one of a \$16 million group of about 60 structures announced by the Board of Education on October 2, in a drive to reduce overcrowding in the schools. These semi-permanent buildings can be erected in a period of from four to six months, compared to the 12 to 18 months for a regular school.

The pre-fabricated structures accommodate an average of 300 children and contain sanitary facilities as well as kitchens. The rooms are also air-conditioned and are equipped with modern fixtures.

He dried off and started the wave machine again.

**IT WOULD** be difficult to discover from Mr. Moses' encyclopedic book (plus 17 pages of index) that he used public relations specialists to help in his wave-making.

**BUT HE** did have them, and they were of superb calibre—the late Bill Donoghue, Murray Davis and Ed O'Brien, among others.

**MR. MOSES** does not label his public relations battles as such, some of which he won. (Some he lost, but doesn't tell about.) But his expert technique is clearly apparent to any professional and is worth the closest study by everyone in civil service who is genuinely dedicated to getting things done.

**HERE ARE** a few tips in Mr. Moses' own inimitable style:

• **"THE SINCERE** reformer is an iconoclast and almost by definition a revolutionary. He passionately wants the truth exploited, but it must be his truth, couched in his words, in the hands of his people, and achieved by his methods."

• **"IT IS MY** conviction that a little facility in writing practice with the retort courteous, and an instinct for the jugular help reach constructive objectives not to be reached, as so many believe, by diplomacy."

• **"WHAT HAS** facility in the use of English to do with all this? English is the world's best-stocked armory of battle words, words with aim, force and impact of truth. I am not alluding to glib phrasemaking, which is the wrong use for language. It is an old story, familiar since earliest biblical times, that a leader dependent on a mouthpiece is under severe handicap. The followers and

public like to hear the man himself, not an interpreter who puts fancy duds on a mannikin."

**PUTTING THIS** book together must have been as monumental as some of Mr. Moses' successful projects. However, the results are as useful as the Tri-Boro Bridge, the Brooklyn-Battery Tunnel and Jones Beach State Park—just a handful of monuments to Mr. Moses' expertise in public works and public relations.

**THE FACT** is Mr. Moses has written a book which should be a classic on how to gouge out tunnels, span rivers and turn wasteland into homes and parks by

using a carefully blended recipe of imagination, financial know-how, aggressiveness, public relations sophistication and chutzpah—the latter word finding its way into vernacular usage to describe monumental gall.

Dougherty, a tax examiner with the State, is president of the Albany Tax and Finance chapter of the Civil Service Employees Assn.

particular bargaining unit. Rowland contended that when the night shift differential was adopted by the County Board of Supervisors he was told by his supervisor that he would not receive the differential. He was told again that he would not receive it even after CSEA had put the differential into the contract which covered the terms of his employment.

The County contended that Rowland apparently still wanted to work on the night shift even without the differential and that this constituted his waiver of his right to the differential.

In his decision, Supreme Court Justice George F.X. McInerney said that under the Taylor Law an employee organization duly selected to represent employees in a certain bargaining unit in collective negotiations on the terms and conditions of their employment has the sole right to negotiate on those terms and conditions,

and that an individual employee may not agree to or negotiate terms of employment different from those in the negotiated contract which covers the bargaining unit he belongs to.

Joseph J. Dolan, Jr., CSEA director of local government affairs, had these comments: "The Court's act further substantiates the fact that since the Taylor Law provides for bilateral collective negotiations between the employee organization and the employer, individual negotiations between an employee or group of employees with the employer, outside the recognized bargaining unit, are no longer permissible."

The Court set a hearing for Feb. 25 to determine the sum of money which would be paid to Rowland retroactively for the night differential he was denied.

CSEA regional attorney Lester B. Lipkind represented Rowland under CSEA's free Legal Assistance Program for its members.

## First Test Underway Of New Grievance System In Onondaga

SYRACUSE—The Onondaga County chapter of the Civil Service Employees Assn. is testing the new grievance procedure it recently negotiated with an employee grievance which could reach the fourth step of the procedure—final and binding arbitration.

The grievance, as reported by CSEA regional field supervisor John D. Corcoran Jr., involves Mrs. Joan Morse who works for

## Thruway Impasse

(Continued from Page 1)

Friday work-week for the bulk of clerical employees, who, except in a few cases, traditionally work a 37½ hour work week.

"CSEA has shown a willingness to give and take. We recognize that in some cases, employees, such as watchmen, must work a schedule which differs from the basic work-week and we are willing to accept such past practices. But we cannot agree to a contract which fails to guarantee a basic work week for the majority of the employees."

He pointed to the instance of a

group of bridge maintenance men in Syracuse who had been hired temporarily for summer bridge repair work and were laid off in the winter, and asserted that the group is now performing other maintenance duties during the winter on a Wednesday through Sunday straight-time work schedule instead of a Monday through Friday work-week.

He also cited the case of several maintenance men who were working a 37½ hour schedule since their employment and then were transferred to another garage at the same pay rate and required to work 40 hours.

The formal declaration of impasse and request for a mediator was submitted to PERB immediately.

### Impasse Ended

While things were at a standstill in unit I, negotiations on salary and retirement benefits for 1970 in Thruway bargaining unit II, which includes approximately 300 professional, scientific, and technical employees, are expected to reopen this week. The agreement to resume talks on certain items came about through informal mediation by the Public Employment Relations Board.

CSEA had refused to sign the two-year contract and declared an impasse over disagreement in contract language concerning the basic work day and work-week. The Authority subsequently filed unfair labor practice charges against CSEA.

Both sides met last week with PERB officials, resulting in the Thruway's withdrawal of its charges and the lifting of the impasse. The Authority agreed to remove from the contract a clause giving it the right to arbitrarily fix the work-day and work-week and insert a provision continuing the present work-day and work-week for all employees.

# DON'T REPEAT THIS!

(Continued from Page 1)

tion on the State-wide Democratic ticket so much threaten the Party's victory prospects as ethnic pressures and ideological differences.

Minority group pressures are swirling in Democratic circles about the designation of a candidate for Lieutenant Governor. Candidates for Governor and Lieutenant Governor on a party ticket in New York State run in tandem, like candidates for President and Vice-President of the United States, where the voter cannot split his ticket between candidates for those offices. The Council of Elected Negro Democrats is insisting that a Black be nominated for Lieutenant Governor.

The Council of Elected Negro Democrats is essentially a caucus of Negro legislators from New York City. It consists of Harlem's State Senator Basil Patterson, Bedford-Stuyvesant Senator Waldaba Stewart and Assemblymen Hulan Jack, Mark Southall and Charles Rangel of Manhattan, Brooklyn Assemblymen Thomas Fortune and Samuel Wright and Queens Assemblyman Guy Brewer. Manhattan Borough President Percy Sutton is a member of the Council by virtue of the fact that he formerly was an Assemblyman, and Councilman William Thomp-

son, of Brooklyn is a member by virtue of prior service as a State Senator.

## Seek Lt. Gov.

The Council is pushing the candidacy for Lieutenant Governor of Rev. H. Carl McCall, a warm Lindsay supporter and a vice-chairman of the New Democratic Coalition. Rev. McCall anticipates his designation for that office by the Convention of the New Democratic Coalition scheduled for February 28. While the full ticket to be endorsed by the Convention is as yet unknown, it is expected that the Convention will also designate Paul O'Dwyer as its candidate for the United States Senate.

The Council of Elected Negro Democrats plans to enlarge its organization with the inclusion of Herman Badillo and Puerto Rican State Senators and Assemblymen to increase the power of minority group representation within the Democratic Party power structure. The strategy of the Council is to meet with every declared and potential candidate for Governor and to set forth in unmistakable terms that each declare publicly his willingness to accept a Black or Puerto Rican running mate.

This demand is coupled with a flexing of the muscles. Most prominent Negro and Puerto Rican public officials of Democratic

Party persuasion last year bolted their party's nominee for Mayor, former City Comptroller Mario A. Procaccino, to support Mayor John V. Lindsay. Lindsay's huge vote in the minority group areas provided him with his margin of victory. They are prepared to bolt again if their demands for a Black or Puerto Rican candidate for Lieutenant Governor is not met. The Council met last week with Howard Samuels to make their point and are scheduling similar meetings with Nassau County Executive Eugene Nickerson, William vanden Heuvel, and three New York City District Attorneys who have participated in one or more gubernatorial forums throughout the State — Eugene Gold of Brooklyn, Thomas J. Mackell of Queens, and Burton Roberts, of Bronx.

## Hard To Evaluate

State Democratic leaders are concerned over increasing militance of the Black power group on this score. Past election returns give no clue as to whether a minority group candidate for Lieutenant Governor would be a drag on or an asset to the prospects of the candidate for Governor. Supreme Court Justice Edward R. Dudley, Manhattan's Borough President in 1962, is the only Negro ever nominated by a major party on the State-wide ticket. He was defeated for Attorney General by Louis Lefkowitz, but no one was expected to win over Lefkowitz then or now. Nor are the top Democratic leaders certain that they can push through the nomination of a minority group member for Lieutenant Governor over the opposition of up-State County

Chairmen, who may fear a white backlash vote against the Governor if his running mate is either Negro or Puerto Rican.

In 1968, Percy Sutton, rather than Nickerson, could have had the Party's official designation for the United States Senate. However, Sutton withdrew when the race appeared to be no more than a quixotic gesture after Alex Rose and his Liberal Party announced its support of Senator Jacob K. Javits. Sutton is too proud a man to be caught tilting at windmills.

Yet, it is that very pride to which Democratic leaders look for an escape hatch from demands of Black legislators for a Black nomination for Lieutenant Governor. The Democrats hope to induce Sutton to take up the futile campaign against Lefkowitz for Attorney General with the commit-

ment that he will receive bipartisan endorsement for Judge of the Court of Appeals in 1972—a vacancy that will be filled by a Democrat as a result of an agreement with the Republicans. The Democrats are hoping that Sutton's desire to be the first Negro to serve on the State's highest court will solve their dilemma about a place for a Negro on the State-wide ticket.

# Southern Conference Members Hear Pact Explained

**A**n overflow crowd of 300 Civil Service Employees Assn. members from the Southern Conference area jammed a special conference meeting last week at the State University of New York at New Paltz to hear

CSEA professional staff members describe the intricacies of the CSEA-negotiated contracts in the four collective bargaining units represented by the Employees Assn. On hand for the discussions were: CSEA research director Thomas Coyle; and collective bargaining specialists

John Conoby and Robert Guild. Moderator of the session was Nicholas Puzziferi, conference president. Robert Jones, CSEA public relations counsel for the New York City Metropolitan area which includes part of the Southern Conference, was also in attendance.

Corcoran said: "CSEA is seeking restoration of Mrs. Morse's previously denied salary increment; her transfer back to the

Health Department's main office; an apology by the department for acts of harrassment, and the County's promise that this harrassment will cease.

"CSEA has tried to resolve this matter on two previous occasions," he continued, "only to find that Mrs. Morse suffered more harrass-

The third step of the new grievance procedure, negotiated by CSEA and effective as of Jan. 1, 1970, brings Mrs. Morse's grievance to a Grievance Board for resolution. If the result is not satisfactory to the aggrieved em-
