BASEBALL SQUAD ORGANIZED

State's baseball squad has been having stiff practice preparatory to the opening of the season. Plenty of good material has been found among the try-outs. The drilling has rounded out a good team, around a few of last year's team as a nucleus.

Several exhibition games have been played with Milne High School, Alumni, R. P. I., and the Albany V. M. C. A. In all of these games the men have showed themselves to be a fast, hard-hitting aggregation. The season opens on May 6 with St. Stephen's at Annondale. The first home game will be played at Ridgefield on May 16 with Clarkson.

Those of last year's team who are again in uniform are Capt. Jack McCluer, Jack Johnson, "Bowsy" Cassavant, and Harold Baldwin. Others on the squad are Hornung, Stablin, Himmelstein, Shoenberg, Bill Breslaw, Linderman, Casarette, Roberts, Daley, Hayes, and Jackett.

INFORMAL DANCE AND CARD PARTY

An informal dance and card party will be held in the gymnasium of the State College for Teachers Friday evening, May 12, at 8 o'clock. The affair is to be given for the benefit of the dormitory fund and its direct supervision is in charge of Mrs. Long, '11. Students of the College are assisting in carrying out the detailed work and promoting the success of the event. Louise Persons is chairman of the committee of ushers and Frederic Scott is directing the checking room committee. Refreshments will be on sale in the cafeteria under the management of Miss Fillingham.

Bridge, five hundred, and euchre will be the order of the evening. Each guest may choose in which group he would like to play and he can make up his own table if he wishes. Prizes will be awarded for each of the games. Dancing will also be enjoyed.

Tickets are 50 cents each and may be secured from Miss Scotland or Dean Pierce's office.

MOVING-UP DAY TRACK MEET

Moving-up Day Track Meet promises to hold more interest this year than ever before. The G. A. A. has provided for making appropriate awards. Support your class in the meet and sign up promptly for events. Entry-sheets are posted on the G. A. A. bulletin board in the lower hall. All entries should be made by Friday, May 5th. Do not sign up unless you surely expect to participate.

Watch the bulletin board for opportunities for track practice notices.

SAVE YOUR MOVIE DATES

The Strand Theatre is giving the Dormitory Fund the benefit of a percentage on all tickets sold by people from College for the week of May 8-12. Tickets will be sold at a table in the hall the Friday before and during the week. Tiers will be reserved for students on request.

The attractions for the first part of the week are *One Glorious Day*, with Lila Lee and Will Rogers as stars, and a scenic Prisma film, *So This is the Life*. The soloist of the week is Caroline Andrews, who sings exclusively for the Strand Theatres.

On May 11 and 12, *Bought and Paid For* will be presented, featuring Agnes Ayres, Jack Holt, and Walter Heer. A film from the Noted Author series, illustrating in color a poem by John Greenleaf Whittier, completes the program.

Miss Gushing has tickets. Returns must be in by Tuesday, May 9.

The judges decided that the four best speakers were Miss Parsons, Miss Tull, Miss Leek, and Miss Schrader.

The editorial staff trusts that these little comments and reflections on types known to everyone have been of interest to the student body. It takes this opportunity to publicly recognize the splendid services of Mildred Stetson, '22, the author.

RAVEN OBJECTED TO MAGNOLIA BLOSSOMS BEING PLUCKED

Public Works Head Took Gallant Swain and Two Young Women to Police Station

"The children can fish and swim in the Washington park lake, but I'll be darned if the grown-ups are going to strip our magnolia trees," said Commissioner of Public Works Raven, who several nights ago took into custody Floyd E. Landon and two young women whom he caught picking the blossoms from the magnolia tree in the rear of the lake house. The two females were allowed to go but Landon, a sadder and wiser young man, was arraigned before Judge Brady and fined \$5.

Landon, according to his story, is a victim of gallantry. He was walking through the park shortly before 7 o'clock he said, when he saw the young women endeavoring to pluck the magnolia blossoms.

"Can I assist you?" Landon asked. "You can," replied one of the young women, smiling sweetly.

Shinned Up the Tree.

Then up in the tree climbed Landon and proceeded to toss the pretty flowers to the two young women.

Commissioner Raven happened along in the department's new automobile. It was a pretty picture that met his gaze. There was the gallant young man tossing blossoms to the two damsels.

When he saw what was being done to his pet magnolia tree the commissioner went up in the air higher than the radio-plane did the day before.

STRAND THEATRE PARTY

Have you heard about it? The Strand Theater Party? The conditions are these: If we sell \$2000 worth of tickets we shall get 50 per cent of the proceeds. If every student sells five tickets we can go over the top with flying colors.

The best part of the affair is that there are to be two different programs during the week—both of which will be well worth seeing. If you can't sell your quota of five, you can at least sell three, and without doubt will want to use the other two for yourself.

During the war every town knew and expected that a quota would be assigned to it. When they learned what that quota was, no things were left undone to make that stated amount. It was considered almost a disgrace and a town could hardly recover from the shame that resulted if they were unable to do their share. This is the spirit that we State College people should exhibit in this part of the Dormitory Drive. It is one of the easiest tasks we will ever have, for are not the people of America great theater-goers, and do we not live among perfectly normal and average Americans?

Let's say we'll go over the top or hide our heads in shame, and then do it. This isn't a world war, but it's a war against improper living conditions. They are our enemies!

TO '24

'24, we thank you. You've done just what we hoped you'd do. But when we listen to the ground, we hope to see a spring-like leaf shoot up.

ORGANIZATIONS

French Club

French club will give a tea to the women of the Faculty and to the members of the Club, Saturday afternoon from three until five o'clock.

At the meeting last Wednesday the subject of having a club pin was discussed but action on the matter was deferred to the next meeting, which will be Wednesday, May 10, at 4 o'clock. At the next meeting the regular election of officers for 1922-23 will be held. The list of nominations is as follows:

President—
Betty Renner.
Mary Allen.

Vice President—
Dorothy Bennit.
Marjorie Bayless.
Victoria Annette.

Secretary-treasurer—
Catherine Russell.
Betty Hodges.
Grace Ostrander.
Nellie Maxim.

Reporter—
Angeline Sanchirico.
Beatrice Martin.
Elizabeth Gibbons.

All the members are urged to be present at the meeting.

CHEMISTRY CLUB

In order to have the Club picnic at Saratoga Lake, it will be necessary for practically every member of the Club to sign up. Failing this, the picnic will be held at the next most desirable spot, Castleton. Members will have until Monday, May 1st, to sign up for the Saratoga trip. Then watch the Chemistry Bulletin for notice as to possible procedure.

There will be an important meeting of the Chemistry Club Friday, May 5th, at 4 o'clock. The final plans for the picnic will then be arranged, the nominating committee appointed, general reports presented, and a few current topics given. At the last meeting the picnic was discussed, and a paper on "Steel Alloys" given by Mr. Gray.

SENIORS VICTORIOUS

The freshmen, winners of the first track meet at "State," dropped back Monday afternoon when they were beaten by the seniors who took first place by securing 41 points, and the sophomores who earned second place by securing 26 points. The freshmen totaled 23 points in all. The only reason for the freshmen going so low in this meet was the fact that Hornung, star man for the "frosh," was laid up with a game leg, and several other freshmen were out for various reasons.

The spirit shown was very good and the next track meet, which will be held soon, will be the best yet this year.

The following summaries show the individual points scored; 5 points given for 1st place, 3 for 2nd place, and 1 for 3rd place:

100-yard dash—Won by McCluer, senior; second, Laurin, freshman; third, Collins, freshman. Time, 11 seconds.

220-yard dash—Won by McCluer, senior; second, Baldwin, senior; third, Foster, senior. Time, 28 seconds.

440-yard dash—Won by McCluer, senior; second, Foster, senior; third, Laurin, freshman. Time, 1:03.

880-yard dash—Won by Cassavant, sophomore; second, Rude, freshman; third, Juckett, freshman. Time, 3:56.

One-mile run—Won by McCluer, senior; second, Baldwin. Time, 5:36.

A FABLE—BY AESOP, JR.

Once upon a time, in the land of long ago, there lived a man who smiled at other men. But this man's smiles were not pleasant for his joy came with finding the foolishness in other men—and he smiled even at himself, for he was foolish, too. And he sat by the highway and smiled at the race of man for four seasons of snow and four seasons of spring; and in all that time it was found by him that there was a bit of

foolishness in every man that marched down the long highway, and his smile came as he said, "How surely they step." And lo—as they came nearer, his smile changed, and his eyes grew eager. "How far their steps carry them forward!" he said. Then he spoke to the great god of Olympus, "Grant them always a sure step even after they have smiled at their foolishness." Then the man came to the multitude and marched off with them. And as he gazed back at his smile by the highway, a little of the old smile was upon him as he said, "The world's our oyster."

Take It From The Air

NOT only music, but news, speeches, messages of every sort, are today being picked out of the air.

"How has this come about?" we ask.

The new impetus given to radio development may be definitely associated with the development of the high power vacuum tube, for that made broadcasting possible. And the power tube originated from a piece of purely theoretical research, which had no connection with radio.

When a scientist in the Research Laboratories of the General Electric Company found that electric current could be made to pass through the highest possible vacuum and could be varied according to fixed laws, he established the principle of the power tube and laid the foundation for the "tron" group of devices.

These devices magnify the tiny telephone currents produced by the voice and supply them to the antenna, which broadcasts the messages. At the receiving end, smaller "trons", in turn, magnify the otherwise imperceptible messages coming to them from the receiving antenna.

Great accomplishments are not picked out of the air. Generally, as in this case, they grow from one man's insatiable desire to find out the "how" of things.

Scientific research discovers the facts. Practical applications follow in good time.

PAID FINE OF \$5.

Landon, who is working his way through college, felt his appearance in Police Court keenly. The maximum penalty is \$25 but upon his plea of guilty Judge Brady fined Landon \$5. It was paid.

Commissioner Raven has written a letter to Mayor Hackett in reply to criticisms that have been made about the children being allowed to fish in the Park lake. He said that from all appearances the lake has been made

a dumping ground of tin cans, scrap, old boots and refuse of all kinds. He declares that during past summers it has been a breeding place for mosquitoes.
