Contrary to popular belief, young 1960's radicals haven't all become stockbrokers. In fact, a survey of sixties students from that hotbed of free speech--the University of California at Berkeley--shows most of them have hung on to their old values. The Berkeley Alums are more likely than others in their age group to support leftist political causes and still have their doubts about the American government-although they are less inclined to think revolution will change things Those true-believers are paying a price for their liberalism, too: The survey shows a high proportion victims can protect themselves with grads.

### Going Out In Style

Sunday morning—you guessed it—gradua-tion day! But, before we say farewell to SUNYA, the senior class will have a senior week not soon to be forgotten.

With some of the always popular events of the past, plus some great new ones, there will be something for everyone. We've added 3 canoe trips to the schedule, after last year's great success. Trips will be run again to Montreal and Boston. This year, we'll be stituitons is exemplified by an encounter rockin' at the Rafters, and roughing it at Dippikill, just to name a few.

On the first week back from vacation, senior cards will be distributed in the Campus Center lobby during the day, and for those who intern, on Wednesday night, Back dues must be paid at this time to obtain your card. Your senior card will enable senior discount prices.

A few more notes: The old credit union window, near check cashing, will soon become a "Senior Window." All important information will be posted there. We need a senior tee-shirt design; all you artists, get refer to? If a woman dominated world is those pens rolling! Finally, there will be a your "noble responsibility", then I don't

### Up In Smoke

To the Editor:

In a few years at this University, you can see just about anything. You become used to acts of stupidity and cruelty, and learn to shrug them off as part of the normal routine. That is, until something happens to you. Such was our experience early one Sunday morning; what happened may seem relatively minor, but the implications of the

It happened at the tail end of a birthday party that was being held in our suite. There were a good number of people (about 20) alerted to the fact that someone had set the ed and accusatory article about the other carpet outside our suite door on fire. This person (or persons) had closed our suite very slanted and inconsistent. door, tossed a burning magazine on the carpet, and then ran away. The suite and outside hallway were filled with thick noxious smoke. Fortunately, we were able to contain and extinguish the fire in a short time. The flames had been dangerously close to a hall closet filled with highly-flammable cleaning fluids. Between that and the thick smoke, there existed a very real possibility of tragedy. Luckily, we were

### **Amazing Grace**

Monday was the day President Reagan's "grace period" ended, the day that begins the first prosecution for draft resistance in a decade,

Not that all the propaganda about jail terms and fines has frightened every youth into submission - the government admits that 924,000 men required to register for a future draft have refused to do so.

Before last week, the Selective Service only owned up to 800,000 nonregistrants. This week, they tack another 124,000 on to that figure. It's pretty safe to assume that the number of draft resisters is going to climb, and climb,

The new militarists have forgotten something very important. They've forgotten that we grew up during Victnam. We remember the body counts on the even-ing news. We remember the secret bombings. We grew up with Mai Lai and Kent State. We grew up with death. We remember what our government can do when it sets its mind on a war of imperalism.

The return of the draft is only one part of our government's attempt to militarize our country. As student aid programs are being drastically cut, the military steps up it radio advertising promising thousands of dollars to students who spent part of thir time in the armed services. This kind of draw is being used on all young people, not just college students. The unemployment that Reagan's economics is responsible for is not only breaking up labor unions but t's also keeping the military far over its recuiting goals. The economic draft has always existed, but now - through the government's severe cuts in education aid - it's being focused on college students.

In just a few years the military estimates that it will have to induct one out of three 18-year olds in order to maintain its present numbers. One out of three, And they tell us this is only registration, and that a draft is very unlikely. About a million men have told the President, the generals, and the hawks in Congress

There's a move in Congress now to reduce the penalty for draft resistance to a misdemeanor. The sponsors of the bill realize that there're just too many resisters to prosecute. At most, the Justice Department will charge a few hundred men with failure to register. It just doesn't have the resources to prosecute a million people. They must think that having a million people walking around having committed misdemeanors is better than having a million felons

They're missing the point. With 15% to 30% of American men from 18-22 resisting the draft, their attempt at restarting the draft has failed. We won't let them have a draft. The bills in Congress should end the draft, not just modify how illegal it is to oppose it

Registration is a miserable failure. It failed because it is a bad idea. Bad ideas

The Abalone Alliance, one of the groups named in the suit, promised it won't in any way deter our protesting, or anyone else's for that matter. We all have a strong moral conviction against nuclear power."

Still, Fleming conceded, if PLF wins its suit, "it might be intimidating to other people,"

"It's the kind of thing that could only happen in California," said Donald Winston, manager of media relations for the Atomic Industrial Forum, an association of pronuclear forces.

"It's an interesting case, but it's hard to see what's going to come of it," he said. "I don't think it will intimidate or change anyone's mind. It'll probably just make them (protestors) even madder."

Winston favored dispersing protestors by putting "the 32 new plants scheduled to go on-line in the next two years in operation with as

few events as possible."

But Peterzell warned if PLF wins its claim in California, "it could be very dangerous (for the anti-nuclear movement), and would obviously tend to make a lot of anti-nuclear groups abandon plans that they might otherwise make to protest nuclear energy.'

So far, however, the suit hasn't deterred any protests. The Alliance Survival, also named in the PLf suit, led a demonstration at the University of California's Lawrence Levermore Laboratory, which develops nuclear weaponry for the government. One hundred and seventeen were arrested.

UCLA students staged a similar protest in late January.

Moreover, activists plan a statewide March 22nd protest against companies involved in nuclear weapons research and

Student Assembly President Sco Wexler, who was arrested at Saturday's rally, said attempts are being made in Buffalo to end the suspensions of the arrested students. He characterized the suspensions as ar bitrary. "After the first time (th February 3 arrests) the 87 were charged with violation trespass not criminal - and were no suspended," Wexler said, and add ed that "Ed Powell (professor o sociology at UB who was arrested) was not banned or suspended. What they (Buffalo administrators) are trying to say is that academi freedom extends to professors but ot students." Wexler said that SUNY Buffalo Student Association President Joe Rifkin is working for amnesty for the suspended

Wexler, a SUNY Albany student, said he would fight the ban placed on him by the UB administration. "I was out there representing Student Assembly as (its) president, Wexler said he was never informed that if he stayed at Squire Hall he would be arrested. Wexler was op-timistic that his ban would be lifted, through the intervention of SUNY Central administrators, "Ron for student affairs) was very sympathetic," he said.

The 39 arrested were scheduled for arraignment hearing between March 9 and 13 in Buffalo City

### SECOND ANNUAL ROTARY CLUB CAREER DAY

The Albany Rotary Club has offered to sponsor the "second annual Albany Rotary Club Career Day". This career event is a worthwile opportunity for SUNYA students to participate in a one day on-the-job experience. Here are just a few of the responses CUE recieved in reaction to last years event:

"It's a real rush getting picked up in a Fleetwood Cadillac"
"I felt I came away with an awareness of what the real business world is about."

"I would encourage others to participate in this worthwhile event."

"It provides an excellent opportunity to observe what one might be doing in the future."

"I enjoyed every aspect of this event."

This year, 31 area professionals and members of the Alabny Rotary Club have agreed to donate one morning, April 1st to the career exploration of selected Albany students. This half-day career venture will take students off the campus and into the community. Each student will spend the morning observing, interviewing and interacting with a local professional, at his place of business. A wide range of occupations will be represented including:

Manufacturing Human Services Human Resources Real Estate

After a busy morning of 'experiential learning', students will be treated to lunch at the Albany Thruway House - courtesy of the Albany Rotary Club. The Center for Undergraduate Education (CUE) is co-sponsoring this event with the Rotary Club. CUE will coordinate the selection of students. Individuals interested in participating may pick up an application at CUE, fill it out, and return it to CUE no later than March 5. A total of 48 students will be selected. Selections will be made by a random drawing according to designated areas of interest. Drawing will take place on March 17.

Take heart Great Dane fans, all is not lost. First of all, the Danes are heading to Hamiton College this weekend or the ECAC's, a tournament in which they had been participating ing before they ever entered the NCAA Division III Tournament.

Women Swimmers Place Eleventh at States

### Fitzpatrick, Keilty Break Dane Records; Fernandez is Pleased With Performance

By MICHAEL CARMEN

"This was a big improvement from last year. We placed more but had a very good showing," said people in final competition over last Fernandez.

These were the words of Dulce
Fernandez after the Albany coach

In the 200-yard individual out for third and if she equalled her medley, the team of Sue Keilty, Carol Lim, Ann Hoch, and Sheila Fitzpatrick swam to an eighth place finish. Their time of 2:03.17 was bad dives, placed seventh in the good enough for an Albany State record in the event.

Due to the size of the competition, points were awarded to the top 18 finishers. Fitzpatrick was able to record some points for Albany with an eleventh place showing in the 500-yard freestyle. Her time of 5:47.91 etched her name once again in the worn-out Dane books.

Keilty, who was "Albany's most outstanding individual competitor," took sixth place in the 200-yard backstroke in a time of 2:26.6. This was yet another school

Joan Meikleham became the second Dane to break the top six when she placed fifth in the one meter dive. Meikleham accumulated 301.8 points. She was followed by Lynn Ranney, another Albany diver, who dove into eighth place, tallying 279.7 points.

Fitzpatrick, Barb Witte, co-captain Judy Koltai, and Betsy Kwasman touched the wall in fourteenth place in the 800-yard freestyle relay.

"This relay was not our strongest event, but we did enough to place," evaluated the coach.

The 200-yard freestyle relay proved to be a chaotic event. "There were a lot of false starts," said Fernandez, "and people were taking from everyone. There were so many infractions the officials couldn't call any." Despite the adversity, the Dane relay team consisting of Hoch, Lim, Fitzpatrick and Keilty

"The girls did a few things wrong and if we swam our best we could have come in third," added Fer-

Keilty, performing in the 100-yard backstroke, again finished with only tenths of seconds separating the top competitors. Keilty's time of 1:07.19 was a Dane

The biggest problem the Dane women suffered throughout the three day competition was fatigue. "We became more tired as each day went on. After the first night we were in eighth place, but as the Championships went on we couldn't continue," stated Fer-

Fitzpatrick placed ninth in the 200-yard freestyle relay, and the relay team of Keilty, Lim, Hoch and Fitzpatrick swam to a thirteenth place finish in the 400-yard individual medley. That was incidently the first time the women ever swam that relay event.

Fitzpatrick came back later to compete in the 100-yard freestyle. Sixty girls finished the race within two seconds of each other with the 59.3 seconds.
"Shella did not swim her best, tenth in a "tough" relay. The five teams above Albany were all within one second of the Danes 4:01.9 The best performance by a Dane

## Three Danes Crowned All Americans at NCAAs

### Seras, Theofilatos, Averill Bring Home Nat'l Honors

By MARK GESNER

"History will tell that this was the greatest wrestling team in Albany State history"—Coach Joe DeMeo.

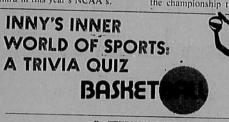

Three All-Americans and a twelfth place finish in the Division III National Colegiate Athletic tain Vic Herman. Association (NCAA) Championship Tournament gives testimony to that fact that the 1981-82 grappled are indeed "great."

A total of over 300 wrestlers represented the country's 350 Division III schools this past Friday and Saturday at the tournament hosted Cortland University. The SUNYAC division proved once again its supremacy as it boasted five schools in the top twenty. Brockport and Oswego led the SUNY pack by finishing first and third in this year's NCAA's.

Six Danes qualified for the event and each one contributed points to Albany's effort. "There was a lot to be happy about. We were pretty much able to justify our tenth place national ranking (received after the SUNYACs)," explained squad cap-

The Dane recipients of the powerful All-American recognition were Andy Seras, Dave Averill, and Spero Theofilatos. In order to receive such status a wrestler must place amongst the top eight in his weight class of 32 participants.

Seras, number four out of the 150 pounders, was Albany's highest finisher. After recording two pins and a 13-10 decision for his first three wins, the sophomore was well prepared to better his second place performance of last year. But Albany displayed their inexperienced side in the tournament. In their first two truly "pressure" games of the season, the Danes played themselves out of the NCAA playoff picture. They lost to the round, 53-51, and then to the Buffalo State Bengals(15-12) in the consolation game, 72-68.

The triumph earned the Bulls the right to compete in the NCAA East Regional this weekend at Staten Island. Potsdam received an atlarge bid to the Northeast Regional, but, for the first time in four years, the NCAA selection committee passed over the Danes.

### Surprise Champs Crowned; Bulls Gore Potsdam, 82-70

By MARC HASPEL

BUFFALO - After all the smoke had cleared on Saturday, the SUNYAC had crowned a surprise champion. The previously 11-15 University of Buffalo Bulls, seeded fourth in the tournament, defeated the Potsdam Bears for the conference title and an automatic bid to the East Regional of the NCAA Division III tournament.

"The team played hard," said UB basketball head coach Bill Hughes, "It was a big win for us."

The Bulls were led by guard Karon Henderson and forward John Fitzpatrick. Each chipped in with 27 points in the title game, Henderson, ejected from the first game against Albany after fighting with Dane Dan Croutier, earned all-tournament honors, while Fitzpatrick was named tournament Most Valuable Player.

Last year's tournament MVP, John Dieckelman, was Albany's only representative on the all-tournament squad. Joining Dieckelman on the all-star team was Buffalo State's Terry Burch, who scored 27 points in the consolation game against Albany, and Potsdam's Maurice Woods

Woods fouled out of the physical title contest with 6:49 remaining in the second half. Hughes felt that the Bulls frustrated Potsdam by varyng their defensive formations.

'Our defense was perfect. I thought it hurt them," said Hughes. He noted that the Bulls had developed winning character by playing long season, including games against several Division I and Division II opponents.
"We've played a tougher schedule," said Hughes. "We've hung in.

"I'm proud," he continued, "and a little surprised
