### STUDENT COUNCIL DECIDES NOT TO HAVE JUNIOR HIGH PICNIC

A member of the science, photoplay, stamp, shop, baseball, and dramatic clubs was interviewed by a reporter to find out what he had done during the year in his club and what he enjoyed about it. The interviews are printed here.

#### Science Club

The science club has had a very interesting year. We have studied mostly chemistry. At the beginning of the year we discussed chemical changes and how they occur. Then we got interested in glass blowing. After about two periods of practice, everybody could blow a single bubble quite easily. During the last few months we have been studying the most common gasses and the tricks we could do with them. Everybody enjoyed the experimenting very much and had a good time throughout the year.

#### Photoplay Club

I think that the photoplay club is very nice. We have accomplished a lot during the year. We have gone to the movies, planned to go on a picnic, and now we are finishing a scenario which we have written together. I don't think any improvements could be made.

#### Stamp Club

This year in the stamp club we have done many things. We have exchanged stamps and made a map of the world with stamps of the different countries put on where they belong. It is very interesting and I have enjoyed it a lot.

#### Baseball Club

The baseball club under the sponsorship of Ray Harris had a very good year. They played baseball up at Beverwyck Park and had many good games. Bobby Kuhn is the president of this club. The club is composed of seventh, eighth, and ninth grade boys, so that they hope to have it again next year.

(cont. on p. 2)

In the Student Council meeting last Monday the reasons why we would not be able to have a Junior High school picnic were summed up. These are the reasons. First, there is not enough money; second, we should use the time to study, because the Regents are coming. If we had a picnic, we would get out of school at eleven and so would miss two classes. There is not enough time to get ready now, and we could not go swimming. It is quite decided that we will not have a picnic, but it is not decided as yet what we will do with the money.

If we could get the lounge, we might have a farewell party for the ninth grade, or the money might be given to the unemployed.

Home room 320 discussed the problem and they thought, with the exception of one person, that we should be satisfied with the excursion and should give the money to the unemployed.

A committee which interviewed Dr. Frederick reported that we could not go swimming at Averill Park because there are no life guards there.

### TRAFFIC CLUB ELECTS

Last Tuesday at the weekly meeting of the Traffic Club Ralph Norvell was elected to be the next year's president of the club. The candidates for president were: James Nesbitt, Ralph Norvell, Bill Norton, Walter Bates, and Stanley Manton. There were two elections because the first time, Ralph Norvell won only by a plurality.

The Traffic Club pins have not come yet because of some delay.

EATING IN LOCKER ROOM

This subject of eating in the girls' locker rooms has been brought up before, but it seems we must be reminded of it again. Many people know they should not eat in the locker room, but they do it regardless of the rules of the school. If the seventh graders see eighth and ninth graders disobeying the rules, it will lessen their respect for the rules of Milne.

Eating in the locker room will change our clean, new school into a mice and rat infested school, because we leave crumbs and papers with food on around, and it will attract these rodents, and also ants. This will make our school a very filthy place.

Everyone enjoys a school much more when it is light, clean, and pleasant, and Milne is. Therefore, we should all cooperate in trying to keep it so by not eating in the locker room.

QUESTION BOX

QUESTION: Why did or didn't you like the newspaper this year and what do you think would improve it?

MARY YORK: "I enjoyed it very much, but I think that the four issues of the magazine better because we would value it more."

(cont. in next col.)

OLIVE VROMAN: "I prefer the four issues of the magazine because we know what has happened around the school before the paper comes out."

RUTH CAMPBELL: "I liked the paper this year, but I think it could be improved by having more current topics."

WILLIAM EMERY: "I liked the paper because it comes out every week and had good news about the school."

EDWIN BLOCKSIDGE: "I liked it because we got more issues and knew what was going on in the school."

LOUISE MORRISON: "I liked it because there were more issues, but I think an improvement would be to cut out the Question Box."

CLUB MEMBERS PRESENT PROGRAMS  
AND OPINIONS OF THEIR CLUBS

(cont. from page 1)

Shop Club

The Shop Club sponsored by Mr. Raymond has had a fine year. The club is made up of boys in the ninth grade so that they can have shop. You can make anything you want as long as you pay for the wood. The club hasn't any officers and we don't have business meetings. The boys have made lamps, tables, and many other things this year.

Dramatics Club

We had a most enjoyable year, since we liked our sponsor, Miss Smith, very much. We had many plays read to us and we gave one in assembly.

EXAM SCHEDULE

The exam schedule will follow the same schedule as last year. They are on June 15 and 16, Wednesday the first three periods, and Thursday the last two periods.
